### TO THE FIRST ISSUE OF THE *IRISH MEDICAL DIRECTORY*.

---

THE Medical Profession in Ireland, although no more in number than one-tenth of the Faculty resident within the United Kingdom, has long since established and sustained a separate entity, and has claimed, by its scientific achievements and the individuality of its institutions, a share in Medical matters far in excess of that due to its numerical proportion. The two thousand Physicians and Surgeons of Ireland—members of a system perfectly distinct and special to their nationality—deserve, we believe, a special representation. Their Poor Law and Medical Charities' organizations—diverse in all respects from that of England or Scotland, and administered by nearly a thousand public Dispensary Physicians, and nearly two hundred Workhouse Surgeons, under a unique system of regulations—their County Infirmary organization—their Lunatic Asylums—and, lastly, their system of Clinical teaching and professional qualification, are all parts of one compact arrangement, to which a book specially devoted to it can hardly do justice, and which cannot be even remotely represented by any volume in which Ireland occupies an insignificant position.

In this view, we believe that the subject for anxiety in the launching, for the first time, of a venture like the *Irish Medical Directory*, is not whether the want of it exists, or whether it may hope for acceptance and support at the hands of Irish Medical men, but whether it may be possible to fulfil, with a full measure of satisfaction, the role which its Editors have undertaken. It remains for future years to tell whether the confidence which we repose in the kind co-operation of our brethren, and our hope of their indulgent forbearance towards the shortcomings of a young and ambitious publication, will be justified.

1873.

---

THE success of our attempt to produce for our Profession and the Public a compact and complete reference record of Irish Medical men and matters, carried out by us under circumstances of extreme difficulty and, we are conscious, but imperfectly executed, has been sufficient to assure us that such a publication has long been an unsupplied requirement of the Irish Profession.

This encouraging experience, and the kind co-operation which the great majority of the Medical Practitioners of Ireland have accorded us, has borne fruit in the more worthy form in which the Directory appears to-day.

The collection, revision, and tabulation of written returns from nearly two thousand individuals, has involved much labour and expense, and it can hardly be hoped that the result will be in all cases perfectly accurate.

We have complete confidence that the Members of the Profession will realize the magnitude of this difficulty, which no labour of ours could sufficiently cope with, and will extend still further "the indulgent forbearance towards the shortcoming of a young and ambitious publication," which we asked of them last year. We repeat now the expression of our profound consciousness that neither our task nor our aspirations can be fulfilled in one or two years, and we retain the fullest trust that the Irish Medical Profession will honour the *Irish Medical Directory* alike with a patient consideration and a hearty co-operation.

# ECLIPSES OF THE SUN AND MOON IN 1873.

This year there will be two Eclipses of the Sun and two of the Moon.

I. *May 12*, a Total Eclipse of the Moon, invisible at Greenwich.

II. *May 26*, a Partial Eclipse of the Sun, visible at Greenwich. It begins at 7h. 36m. morn., and ends at 9h. 23m. morn. The first contact takes place at 32 degrees from the Sun's vertex towards the west, and the last contact 61 degrees towards the east, viewed directly. This Eclipse will also be visible at Cambridge, Oxford, Liverpool, Edinburgh, and Dublin, as a Partial Eclipse. Beginning at Cambridge 7h. 38m. morn., ending 9h. 26m. morn.; at Oxford, beginning 7h. 30m. morn., ending 9h. 19m. morn.; at Liverpool, beginning 7h. 25 morn., ending 9h. 16m. morn.; at Edinburgh, beginning 7h. 28m. morn., ending 9h. 22m. morn.; at Dublin, beginning 7h. 9m. morn., ending 9h. 2m. morn.; the times of beginnings and endings being the Mean Solar Times at the respective places.

III. *November 4*, a Total Eclipse of the Moon, partly visible at Greenwich. The first contact with the shadow takes place at 2h. 6m. aft., middle of Eclipse 3h. 51m. aft., last contact with shadow 5h. 35m. aft. The Moon rises totally eclipsed at Greenwich.

IV. *November 20*, a Partial Eclipse of the Sun, invisible at Greenwich.

December . . .	31	62	90	121	151	182	212	243	274	304	335	365

EXAMPLE—To find the number of days from the 15th of June to the 15th March following, find June in the first column, and then in a line with that under March, is 273 days. If it were from the 15th June to the 25th March, it would be 10 days more, or 283 days; but if from the 15th June to the 5th March, it would be 10 days less, or 263 days. In leap years, when the last day of February is included between the two times, there will be one day more than by the table.

# THE IRISH MEDICAL DIRECTORY,

1873.

(†) This mark is attached to the name of all persons who have not replied to our repeated requests for information. To each of these persons three circular notes have been sent at their registered address, and as none of these communications have been returned to us through the Dead Letter Office, it is to be assumed that the persons have been found at the address given. We have corrected the List as far as our information would permit. The Name and Qualifications (being taken from the *Medical Register*) are correct, but for the accuracy of the Address, we are not responsible.

COMMITTEE OF MANAGEMENT.

ARTICLE 1.—Immediately on the completion of a new Committee of Management for each dispensary district, after each annual election of guardians in the union, the clerk of the union shall make a return annexed to this order, to us the said Commissioners, of the names and addresses of the respective members of the committee ; and in like manner, on any election to the Board of Guardians or ratepayers.

ARTICLE 2.—The clerk of the union shall, on the appointment of a new committee as aforesaid, send to each member of the committee for every dispensary district, a notice in the annexed form No. 3 ; and on the election of any ratepayer to supply a vacancy at any time in any of the said committees, the clerk shall send to him a notice in the annexed form No. 4.

ARTICLE 3.—Immediately upon the completion of any new committee as aforesaid, the clerk of the union shall furnish each medical officer with a list, according to the annexed form, No. 5, of the names and residences of all persons entitled to give tickets for medical relief in his district, that is to say, of the members of the committee, and of every relieving officer and warden acting as such for any electoral division included in such district ; and the medical officer shall lay such list before the Committee of Management at their first meeting after receipt thereof. And the clerk shall in like manner notify, from time to time, any changes, from death or otherwise, of members of the Committee of Management, relieving officers, or wardens, in any districts, to the respective medical officers thereof, who shall lay such notification before the Committee of Management at their first meeting after receipt thereof.

ARTICLE 4.—After the completion of the committee in each year, the clerk of the union shall prepare a notice specifying the persons and their residences to whom application may be made for tickets for medical relief, the situation of the dispensary or dispensary stations in the district, the days and hours of attendance at each, the name and residence of the medical officer, the days and hours when the medical officer will attend at each of the places within such dispensary district appointed by the committee for the purpose of vaccination, and such other particulars of the dispensary arrangements as may be necessary to afford due facility for obtaining medical relief and vaccination where requisite. Such notice shall be in the form N, annexed to this order ; and a copy shall be posted at each dispensary in the district, and at such other places in the district as may be necessary for the due notification of the dispensary arrangements. The clerk shall also cause a notice board, in the form O, to be kept conspicuously painted and affixed on the exterior of each dispensary in the district, showing the days and hours of attendance of the medical officer.

ARTICLE 5.—Whenever any person ceases to be a member of the committee, or a warden, or a relieving officer, the clerk of the union shall transmit to him notice in the form No. 6, apprizing him of the cessation of his power to issue tickets for medical relief, and requiring him to return to the Board of Guardians any forms of the tickets for medical relief, which had been issued to him in the medical relief ticket check books (forms E 1 and E 2, hereinafter mentioned), and which may not have been used.

#### MEETINGS OF THE COMMITTEE.

ARTICLE 6.—At the first meeting of the committee of each district after the annual appointment of a new committee, they shall elect from their own body a chairman and vice-chairman, each of whom shall continue to act as such until the appointment of a new committee, unless he shall previously die, resign, or become incapable or disqualified by ceasing to be a member of the committee. And if a chairman or vice-chairman die, resign his office, or become incapable or disqualified as aforesaid to act as such chairman or vice-chairman before the expiration of the term of office for which he was appointed, the committee shall, within one month after the occurrence of such death, resignation, incapacity, or disqualification, elect some other member of the committee to such office.

ARTICLE 7.—The committee shall at their first meeting after each annual appointment of a new committee, and afterwards from time to time on the occurrence of any vacancy, appoint, from their own body, an honorary secretary and an honorary assistant secretary, who shall continue to hold their respective offices during the pleasure of the committee, or until death, resignation, or disqualification by ceasing to be a member of the committee:—Provided that on the termination of the year of office of the committee, the secretary and assistant secretary, if they continue members thereof, respectively, need not be re-elected by the committee, but shall continue to act as secretary or assistant secretary, unless any other appointment to either of those offices be made by the committee.

ARTICLE 8.—The committee shall hold ordinary meetings from time to time, at the dispensary or one of the dispensaries of the district, on such day of the week and at such hour as may be fixed by the committee, but not less frequently than once in each fortnight or once in each calendar month, as the committee with the sanction of the Commissioners may determine; and the time fixed for the ordinary meetings of the committee shall be reported to the Commissioners; and the committee may adjourn any meeting to any day earlier than the next ordinary day of meeting, if they shall deem it necessary to do so.

ARTICLE 9.—The committee may, when they think fit, with the sanction of the Commissioners, change the day or hour for their ordinary meetings, and shall cause any such change to be reported to the Commissioners.

ARTICLE 10.—At every meeting of the committee, the chairman, or, in his absence, the vice-chairman, shall preside; but if at the commencement of any meeting the chairman and vice-chairman be absent, the members present shall elect one of themselves to preside at such meeting as chairman thereof.

ARTICLE 11.—An extraordinary meeting of the committee may be summoned to be held at any time, upon the requisition of any two members of the committee, addressed to the secretary or assistant secretary of the committee. Every such requisition shall be made in writing, and may be according to the form A, hereunto annexed; and no business, other than the business specified in the said requisition, shall be transacted at such extraordinary meeting. Provided that the chairman or vice-chairman, together with the secretary or assistant secretary, may, by a notice in Form B, hereunto annexed, summon an extraordinary meeting when deemed necessary by them, without a previous

requisition from any other members of the committee; and an extraordinary meeting shall be summoned by any one of these officers on being required by the Commissioners to summon such meeting.

ARTICLE 12.—At every meeting of the committee, the secretary, or in his absence, the assistant secretary, or in the absence of both, some member of the committee to be appointed secretary *pro tempore*, shall record the proceedings of the committee in a Minute Book to be provided for that purpose; and he shall conduct the necessary correspondence and business of the committee in accordance with their directions; and shall provide for the safe custody, at the dispensary, of the books, papers, documents, and correspondence of the committee, except the books hereinafter directed to be kept by the medical officer, which are to be kept in his custody at the dispensary, and to be laid before the committee at their ordinary meetings from time to time.

ARTICLE 13.—Notice of every change in the time or place of holding any ordinary meeting, and notice of the adjournment of any meeting, and notice of any extraordinary meeting, shall be given in writing to every member of the committee. Every such notice shall be respectively according to the Forms B, C, D, hereunto annexed, and shall be given or sent to every member of the committee, or be left at his place of abode, two days, if practicable, before the day appointed for the meeting to which it relates; but if any case of emergency should arise, requiring that an Extraordinary Meeting of the committee should immediately take place, notice shall nevertheless be given to as many of the members of the committee as may be practicable; and they shall meet at the ordinary place of meeting, and take such case into consideration.

#### PROCEEDINGS OF THE COMMITTEE.

ARTICLE 14.—Every question at any meeting of the committee shall be determined by a majority of the votes of the members present thereat and voting on the question; and when there shall be an equal number of votes on any question, such question shall be deemed to have been lost.

ARTICLE 15.—The Presiding Chairman shall be entitled to give one vote upon each question that may be submitted to the committee; but he shall not under any circumstances be entitled to give any additional or casting vote.

ARTICLE 16.—At every ordinary meeting of the committee, the business shall be conducted as follows:—

i. The Minutes of the last ordinary meeting, and of any other meeting which may have been held since such ordinary meeting, signed by the Chairman of the meeting, shall be read to the Committee; and an entry of the same having been so read, shall be made in the Minutes of the day when read.

ii. The Committee shall examine the register of persons to whom medical relief shall have been afforded since the last meeting of the Committee; such register to be in the Form F, annexed to this order, and to be duly entered up by the Medical Officer and produced at each meeting of the Committee.

iii. The Committee shall give directions regarding all persons so relieved as aforesaid, in pursuance of their powers under the 9th section of the said Act of the Fifteenth year of Her Majesty; and such directions shall be recorded and authenticated in the several columns of the Register, in the manner pointed out in the Form hereunto annexed.

iv. The Committee shall examine and consider any Reports made and entered by the Medical Officer in his Report-book (Form I), since the last meeting of the Committee, and give the necessary directions and record the same on their Minutes; and the Committee shall also examine the Copy of the Medical Officer's Return (Form I), laid before them in pursuance of the direction hereinafter contained.

v. The Committee shall, from time to time, as occasion shall arise, receive and consider the Medical Officer's estimate of the medicines and medical appliances required, and of the quantities thereof remaining on hand; and shall forward the same, or a copy thereof, to the Board of Guardians of the Union, with a requisition for the articles required; and such estimate and requisition may be in the annexed Forms M 1 and 2.

vi. The Committee shall, on receiving from the Medical Officer a report in the Form H, hereinafter referred to, transmit the same to the Board of Guardians forthwith.

vii. The Committee shall also, at the first ordinary meeting in each quarter, prepare and forward to the Board of Guardians an account of any incidental expenses incurred since the last preceding Quarterly Account, with an estimate of any similar expenses for the ensuing quarter.

#### APPOINTMENT OF PAID OFFICERS.

ARTICLE 17.—The Committee of Management of each Dispensary District shall from time to time appoint such officers as may be directed by sealed order of the Commissioners for the service of the Dispensary District; and shall, upon the occurrence of any vacancy, cause the same to be reported to the Commissioners, and proceed to a new appointment.

ARTICLE 18.—No appointment of any officer directed to be appointed by the committee, in pursuance of any order issued under our seal, shall be made unless notice that such appointment will be made shall have been given and entered on the Minutes at a meeting of the committee one fortnight at least preceding the meeting at which the appointment is to be made, and unless an advertisement giving notice of such appointment shall, by the direction of the committee, entered on their Minutes, be inserted in some public paper at least ten days before the day on which such appointment is to be made.

ARTICLE 19.—Every officer to be appointed in pursuance of any order under our seal, shall be appointed by a majority of the committee present, and voting, at any meeting of the committee, in the manner directed in Article 14; and every such appointment shall, as soon as the same shall have been made, be reported to the Commissioners by the Secretary or Assistant Secretary of the committee.

#### MEDICAL OFFICER.

ARTICLE 20.—The qualification of every medical officer to be appointed by the Committee of Management of any Dispensary District shall be as follows; that is to say:—

i. He shall have obtained a Degree in Medicine, or a Diploma or Licence to practise Medicine, from some College or other body that may be authorized to grant a Diploma or Licence to practise medicine in Great Britain or Ireland, or he shall be a Licentiate of the Apothecaries' Hall, Dublin; and he shall have obtained a Diploma in Surgery from some College or other body that may be authorized to grant a Diploma or Licence to practise Surgery in Great Britain or Ireland, and also a certificate from some Board or Court of Examiners, or other body duly authorized to grant the same, of his possessing a competent knowledge of Midwifery.

ii. He shall have reached the age of twenty-three years.

iii. Provided that under special circumstances affecting the particular Dispensary District for which the appointment is made, that part of the above regulation which requires a separate medical certificate or Diploma may be

dispensed with by us, the said Commissioners, if we shall deem it necessary to do so.

iv. Provided also, that the above qualification shall not be necessary in the case of any person holding the office of Medical Officer of a Dispensary District at the date hereof, either in respect of his present appointment or any such future appointment, or in the case of any person who shall at any time previously to his appointment as Medical Officer of a Dispensary District have held office in any Union in Ireland, either as Medical Officer of a Dispensary, or Medical Officer of a Workhouse, having been duly qualified for such office at such previous time.

#### DUTIES OF MEDICAL OFFICER.

ARTICLE 21.—The duties of every Medical Officer of a Dispensary District under the said Act shall be as follows ; that is to say :—

#### MEDICAL RELIEF.

i. He shall attend at the Dispensary of the District or division of a District under his charge, on such days and at such hours as the Committee of Management may direct, for the purpose of affording medical relief to any poor person applying for the same and presenting a ticket as hereinafter provided, and for the Vaccination of all persons who may come to him for the purpose.

ii. He shall duly and punctually attend, either at the Dispensary during the appointed hours for attendance thereat, or at the house of the party on whose behalf application is made, or elsewhere, as the case may require, and supply all requisite medical and surgical advice and assistance to every poor person in the District or division of a District under his charge, whom he shall be required to attend as Medical Officer, by a ticket, signed by a member of the Committee of Management of the Dispensary District, or by a Relieving Officer or Warden, acting for any Electoral Division included in such District ; and shall continue his attendance until such attendance is no longer required, or until the ticket be cancelled ; such tickets being in the Form E 1, annexed to this order, when medical relief is required to be given at the Dispensary only, and in the Form E 2, annexed to this order when medical relief is required to be given at the home of the patient or elsewhere ; and all such tickets received by the Medical Officer shall be filed by him at the Dispensary, the number of the case in the Register (Form F) being marked by him on the face of each ticket, before filing it, and shall be preserved for a period of at least two years.

iii. In every case in which application shall be made to him for medical relief, other than vaccination, he shall require to be furnished with a ticket signed by some person authorized to grant it, and shall not afford medicine or medical appliances, except in urgent cases, before the ticket has been presented.

iv. He shall give a written certificate under his hand to the Committee of Management, or the Board of Guardians, or the Relieving Officer, when called upon to do so, of the state of health of any dispensary patient attended by him, and of such patient's fitness or unfitness to be removed to any Union hospital, as the case may be.

v. He shall keep and duly enter up the medical relief register according to the Form F, herunto annexed, and submit the same to the Committee of Management at each ordinary meeting.

vi. He shall, from time to time, as may be necessary, deliver or forward to the Committee an estimate (in the annexed Form M 1), of any medicines and

medical appliances required, and of the quantities thereof remaining on hand, and in the event of such medicines and medical appliances being urgently and immediately required, he may forward the estimate direct to the Board of Guardians.

vii. He shall carefully compare the medicines delivered at the dispensary with the invoice relating thereto, and he shall preserve a copy of the invoice.

#### VACCINATION.

viii. He shall vaccinate all persons who may come to him for that purpose at the dispensary, and shall do and perform all such other acts and things as may be necessary for the purpose of causing such vaccination to be successfully terminated: and shall attend at such convenient places within each vaccination district formed by the Committee, at the times fixed and approved by them, for the purpose of vaccinating all persons resident in his district who may come to him or whom he may be requested to vaccinate, being fit subjects for vaccination; and he shall keep and duly enter up a register, in the annexed form G, of all cases of vaccination performed by him as medical officer of the dispensary district; and submit the same to the Committee of Management at each ordinary meeting. Provided, however, that in any case where the medical officer of the dispensary district is also the Registrar of Births and Deaths for the district, it shall not be necessary for him to insert in the said vaccination register Form G, any cases which he may have duly entered in the register of vaccination which he is required to keep, in pursuance of the 7th section of the Act of the 26 and 27 Vic., cap. 52, intituled "An Act to further extend and make compulsory the practice of vaccination in Ireland."

ix. He shall inspect all persons vaccinated by him on the eighth day after vaccination, and also on such other days as he may deem necessary.

x. The report which he is required by the said Act of twenty-first and twenty-second years of Her Majesty, to make to the Committee of Management, of all persons successfully vaccinated by him, shall be made by him in the Form II hereunto annexed, and the register (Form G), referred to therein, shall be open at all reasonable times to inspection by any member of the Board of Guardians or Dispensary Committee.

xi. He shall forward to the Board of Guardians, on the 30th day of June and the 31st day of December in each year, a report in the Form P, hereunto annexed, containing the names of all children registered as born in the district, who are over six months of age, and who do not appear to have been vaccinated.

#### REPORT-BOOK AND RETURNS.

xii. He shall submit to the committee at each ordinary meeting, his Report-book (Form I), in which he shall enter the time of his arrival at and departure from the dispensary, on each of the days appointed for his attendance thereat, and also any matter which he may deem it necessary to bring under the notice of the Committee, who will take into their consideration any entry which shall have been made therein since the last meeting.

xiii. If there be within his district a bridewell or house of correction which is required by the said Act to attend, he shall submit to the committee at each ordinary meeting, in the Form K, hereto annexed, an account of any medicines supplied to prisoners and inmates in such bridewell or house of correction.

xiv. He shall forward a return, in the annexed Form L, to the Commissioners, for each of the quarters ending respectively the 31st day of March

the 30th day of June, the 30th day of September, and the 31st day of December, or for and at such other periods as may be from time to time directed by the Commissioners; such returns shall be forwarded immediately after the close of the quarter, or other period for which they are directed to be made, and a copy thereof shall be laid before the Committee of Management at their next ordinary meeting.

xv. He shall make such returns appertaining to the duties of his office as may be from time to time required of him by the Commissioners for administering the Laws for Relief of the Poor in Ireland, or by the Committee of Management or the Board of Guardians.

ARTICLE 22.—If a medical officer of a dispensary district be temporarily incapacitated, by illness or other cause, from performing his duties, he shall immediately, if practicable, communicate with the chairman or honorary secretary of the committee, and shall recommend to the committee a medical practitioner qualified as hereinbefore provided (in Article 20), to perform his duties during such temporary incapacity. And on the fact of the medical officer's incapacity becoming known, a special meeting of the committee shall be at once called, in accordance with Article 13 of this order, for the purpose of appointing a temporary substitute for the medical officer; and the committee shall report the circumstances of the case to the Board of Guardians, who shall, subject to the approval of the Commissioners, determine the amount of remuneration, if any, to be paid to the temporary substitute. And for the time during which such temporary substitute, appointed by the Committee of Management, shall act as medical officer, he shall perform all the duties of the medical officer, and shall duly enter up the books of the dispensary for such time before any remuneration that may be agreed upon be paid to him.

ARTICLE 23.—In case of the death or resignation of a medical officer, the committee of management shall, in like manner as provided in Article 22, make provision for the performance of the duties of medical officer by a person duly qualified in accordance with Article 20, until the appointment of a medical officer shall have been duly made, in accordance with Articles 18 and 19 of this order, and approved by the Commissioners.

#### BOARD OF GUARDIANS.

ARTICLE 24.—The Board of Guardians shall pay to each paid officer, duly authorized and appointed for the service of the district, such salary or remuneration as the Commissioners may from time to time approve or direct.

ARTICLE 25.—The salary of each paid officer duly appointed for the service of the district shall be payable by the Board of Guardians quarterly (that is to say, to the 25th March, 24th June, 29th September, and 25th December, respectively, in each year), and proportionably for any part of a quarter for which he may have acted; and his salary shall be payable up to the day on which he ceases to hold his office or employment, and no longer.

ARTICLE 26.—The sum due to each medical officer for vaccination shall be payable by the Board of Guardians on the expiration of twenty-eight days from the receipt by them of the report of the numbers vaccinated from the committee of management.

ARTICLE 27.—The Board of Guardians shall take care that the premises provided by them in pursuance of the 8th Section of the said recited Act of the Fifteenth Year of Her Majesty shall be maintained in good order and condition, and that full and adequate provision is made for having fires regularly maintained in them during such periods of the year, and on such days of the week, as the medical officer may consider necessary for the proper preservation of the medicines.

ARTICLE 28.—The Board of Guardians shall, on receipt of the estimates of the requirements of each dispensary in the Union, from time to time, and the requisition of the committee of management thereon, or of the medical officer in the case hereinbefore provided for, cause the necessary supplies to be immediately furnished for the use of such dispensary, and shall at the same time cause a duplicate copy of the invoice received from the contractor on each occasion to be forwarded to the medical officer, to be by him filed and preserved for reference at the dispensary.

ARTICLE 29.—The Board of Guardians shall from time to time, as may be necessary, cause to be provided a sufficient supply of books, stationery, and forms prescribed by this or any other order under our seal, and all other requisites, for the use of each committee of management; and shall also cause a sufficient number of check-books of medical relief tickets, according to the annexed Forms E 1 and E 2, to be provided, and cause a sufficient supply of such check-books to be furnished to each member of every dispensing committee in the Union, and to each Relieving Officer and Warden therein.

ARTICLE 30.—The Board of Guardians shall include in their half-yearly accounts of expenditure, all expenses incurred for the service of each dispensary district in the Union, for the half-year, charging the same to the several electoral divisions comprised in the district, according to the net annual value of the rateable property in each division, as set forth in the last preceding rate for the relief of the poor.

ARTICLE 31.—Immediately after the completion of the half-yearly accounts for the audit thereof by the auditor of the Union, the Board of Guardians shall cause their clerk to furnish to the committee of each dispensary district, previous to such audit, a statement of all items of expenses incurred for the district which shall have been included in the half-year's accounts; and such statement shall be made in such Form as may be directed or approved by the Commissioners.

#### DIRECTIONS FOR FILLING UP MEDICAL RELIEF TICKETS.

The Ticket and counterpart are both to be filled up by the person authorized to issue the Ticket; one part to be retained by the person issuing the Ticket, and the other to be detached from the book and given to the applicant, for presentation to the Medical Officer.

Care should be taken in the issue of the Tickets accordingly: and Tickets should be issued in the Form E 2, for visiting at the residence of the applicant, in cases of necessity only, and with all available information as to the nature of the case.

The Ticket, in either form, is to be issued for the Dispensary District *in which the applicant is resident at the time*; and care should be taken to fill up the Ticket and apprise the applicant accordingly, as the Medical Officer of each Dispensary District is only bound to attend "*any poor person resident therein.*"

The Christian Name and Surname of the applicant should be inserted in the Ticket in full; and such description of his place of abode (as, Name of Townland, and, where necessary, the Parish also; or in case of Cities and Towns, the Street, Place, or Row, &c., and Number of House), should be given, as will be sufficient for identification and for registration; and with this view, the age and occupation of the applicant should also be stated wherever practicable. Any further observation which the grantor of the Ticket may desire to make for the information of the Medical Officer, should be written on the front of the Ticket.

## MEDICAL RELIEF REGISTER.

— Dispensary District, in the — Union.

## DIRECTIONS FOR FILLING UP THE MEDICAL RELIEF REGISTER.

Column 1.—The series of numbers is to run from the beginning to the end of the year ; and a fresh series is to be commenced on the 1st January in each year, beginning with the *first new case* on or after that day. The same patient is not to have a second number, except in the event of a second or subsequent illness within the year, in which event he should, on presentation of a fresh ticket, be registered again with a fresh number, as a new case, reference being also made, in the column for observations, to his previous number.

Column 2.—The date on which the ticket is presented to the Medical Officer is to be inserted in column 2.

Columns 3, 4, 5, and 6.—The Christian and surname of the patient are to be inserted in full in column 3 ; the residence of the patient in column 4 ; the age of the patient, as well as can be ascertained, in column 5 ; and the disease for which the patient is treated in column 6.

Columns 7 and 8.—The date of each attendance from the commencement to the termination of the case is to be entered in these columns ; if the attendance is at the dispensary, in column 7 ; if at the patient's home, in column 8.

Column 9.—Should contain a record of the treatment of each case. The date of each attendance, as entered in column 7 or 8, should be entered in this column also ; with a description of the prescription or treatment at each date. If in any case the attendances and prescriptions should be too numerous to admit of their all being entered in the space provided for the purpose, a new entry of the case may be made at a subsequent page of the book, but not with a new number, a reference being made in the first entry to the page of the book at which the case is continued.

Column 10.—Is to contain a statement of the result of the case, as "Relieved," "Cured," "Died," "Ticket Cancelled by Committee," and in the latter case the date of the meeting at which the ticket was cancelled should be entered, and the chairman of the day should place his signature or initials against the entry.

Column 11.—This column is intended for any other particulars, directions, or explanations as to any case which the Medical Officer or the Chairman of the Committee may think it desirable to insert.

A sufficient number of leaves (with the letters of the alphabet marked on spaces cut at the outer edge), is bound up with the register to serve as an index.

NOTICE.

\_\_\_\_\_ UNION.

\_\_\_\_\_ DISPENSARY DISTRICT, consisting of the Electoral Divisions of \_\_\_\_\_ in the above Union.

[It is desirable that such description, by Parishes or otherwise, should be given of the District as will enable the poor to understand what localities are included in it.]

Dispensary situate at \_\_\_\_\_ (a sufficient description of the locality to be given.)

Times of attendance of the Medical Officer at the Dispensary, every \_\_\_\_\_ from \_\_\_\_\_ o'clock to \_\_\_\_\_ o'clock. Tickets for Medical Relief on attendance of the party at the Dispensary must be presented at the Dispensary within the hours and on the days here named.

Medical Officer, Dr. \_\_\_\_\_, of \_\_\_\_\_ (his place of residence to be stated.)

Visiting Tickets, for the attendance of the Medical Officer at the patient's

home, may be presented to the Medical Officer, at the Dispensary, or may be presented to him, or left for him at his residence, or may be presented to him personally anywhere. Tickets presented at the Dispensary should be presented between the hours above-named, and tickets presented at the Medical Officer's residence, or elsewhere, should be presented as early in the day as possible.

The Committee of Management of the Dispensary District meet at the Dispensary situate at \_\_\_\_\_ on every \_\_\_\_\_ at \_\_\_\_\_ o'clock in the \_\_\_\_\_ upon [state ordinary day and hour of meeting].

The following are the Persons authorised to issue Tickets for Medical Relief in the above District :—

Committee of Management : (state names and places of residence.) Wardens : (state names and places of residence.) Relieving Officers : (state names and places of residence.)

The Medical Officer is not bound to attend or afford Medical Relief to any poor person without a Ticket. But Vaccination is performed without a Ticket being required.

#### VACCINATION.

Notice is also given, that in pursuance of the provisions of the Act to make further provision for the practice of Vaccination in Ireland (21 and 22 Vict. cap. 64), the above-named Dispensary District has been divided into the under-mentioned Districts, for the purpose of Vaccination, and that the Medical Officer of the said Dispensary District will attend on the days and hours and at the places hereunder-mentioned, for the purpose of Vaccinating, gratuitously, all persons resident in the Dispensary District who may come to him for that purpose, or whom he may be requested to Vaccinate, being fit subjects for Vaccination.

Vaccination will also be performed Gratuitously at the Dispensary as heretofore, on any of the Dispensary days, during the hours of attendance of the Medical Officer at the Dispensary.

Persons undergoing Vaccination should attend, or be brought, for examination of the Arm on the eighth day after Vaccination, and on such other days as the Medical Officer may direct, in order to ensure the successful issue of the case.

All persons are hereby cautioned against the dangerous practice of Inoculation ; and poor persons are advised to present their children (if they have not been already successfully vaccinated) at the Dispensary, for Vaccination, as the best preservative against Small-pox. By an Act of Parliament passed on the 23rd of July, 1840 (3 and 4 Vic., cap. 29), entitled "An Act to extend the practice of Vaccination," the practice of Inoculation with Small-pox virus was made punishable by one month's imprisonment, and under a subsequent Act (31 and 32 Vic., c. 87), the period of imprisonment may be extended to six months. The following are the words of the 4th Section of the last-mentioned Act :—

*Extract from 31 and 32 Vict., cap. 87.*

"§ 4. Any person who shall, after the passing of this Act, produce or attempt to produce in any Person, by Inoculation with Variolus Matter, or by wilful exposure to Variolus Matter, or to any Matter, Article, or thing impregnated with Variolus Matter, or wilfully by any other means whatsoever produce the Disease of Small-pox in any Person, shall be guilty of an offence and shall be liable to be proceeded against summarily before two or more Justices of the Peace in Petty Sessions assembled : and upon conviction, to be imprisoned for any term not exceeding Six months."

By order of the Committee of Management,

\_\_\_\_\_  
Honorary Secretary.

## DUTIES OF WORKHOUSE MEDICAL OFFICERS.

ARTICLE 68.—The following shall be the duties of the Medical Officer for the Workhouse :—

- No. 1.—To attend at the Workhouse *daily, and not later than twelve o'clock at noon*, and also when sent for by the Master, Matron, or Porter of the Workhouse, in cases of sudden illness, accident, or other emergency ; and at all such other times as the state of the sick or insane patients within the Workhouse may render necessary.
- No. 2.—To examine the state of the Paupers on their admission into the Workhouse ; to examine the state of the patients in the sick wards ; and also the state of any sick or insane Pauper in the other wards.
- No. 3.—To give all necessary directions as to the diet, classification, and treatment of the sick Paupers, and Paupers of unsound mind, and to report to the Board of Guardians any Pauper of unsound mind in the Workhouse whom he may deem to be dangerous.
- No. 4.—To enter in a book, to be provided for that purpose, called the Sick Dietary Book, all directions which he may give regarding the diet of sick Paupers, and Paupers of unsound mind, and to submit the same to the Guardians at their weekly meetings.
- No. 5.—To report in writing to the Board of Guardians any defect in the diet, drainage, ventilation, warmth, or other arrangement of the Workhouse, or any excess in the number of any class of inmates, which he may deem to be detrimental to the health of the inmates.
- No. 6.—To give all necessary directions as to the diet of the children, and to vaccinate such of the children as may require vaccination.
- No. 7.—To make a weekly return to the Board of Guardians in a Book prepared according to the prescribed form, and to insert therein the date of every attendance, and to deliver the same, when completed, to the Guardians.
- No. 8.—To enter in his weekly return the death of every Pauper who shall die in the Workhouse, together with the apparent cause thereof.
- No. 9.—To give to the Guardians, when required, any reasonable information respecting the case of any Pauper who has been under his care ; to make any such written report relative to any sickness prevalent among the Paupers in the Workhouse as the Board of Guardians, or the Commissioners may require of him ; and to attend the Board of Guardians when requested by them so to do.

REGULATIONS FOR THE REGISTRATION OF BIRTHS, DEATHS,  
AND MARRIAGES; APPOINTMENTS, DUTIES, AND EMOLU-  
MENTS OF REGISTRARS. (*Abstract.*)

REGISTRARS, DEPUTY REGISTRARS, AND REGISTRARS' OFFICES.

11. The Medical Officer of each Dispensary District shall be the Registrar of  
Births, Deaths, and Marriages for such District, if he think fit to accept that  
office, provided he possesses the qualifications which the Registrar-General, by  
any General Rule, may declare to be necessary. The appointments of Registrars  
are not subject to stamp duties, and Registrars are exempted from serving on

any jury or inquest, and from every parochial and corporate office whatever. In the event of the Medical Officer of any District declining to act as Registrar, or being disqualified, the Guardians of the Union are required to appoint a fit person to the office.

2. The Registrar must reside, or have a known place of business, within the District for which he is appointed; and he must cause his name, with the addition of "Registrar of Births, Deaths, and Marriages," also the name of his Deputy, and the days and hours during which he will attend for Registration purposes, to be fixed in some conspicuous position on or near the outer door of his dwelling-house or known place of business.

3. The Registrar must, by writing under his hand, appoint a fit person to act as his Deputy in case of his illness or unavoidable absence.

#### REGISTRATION OF BIRTHS AND DEATHS.

4. Each Registrar is authorized and required to inform himself of every Birth and Death which takes place in his District, and to learn and register, as soon after the event as conveniently may be done, without fee or reward from the person giving the information, the particulars required to be inserted in the Register Books touching every such Birth and Death.

5. Some one of the persons qualified to sign the Register, is required to give notice in writing of the occurrence of every Birth or Death. Notice of Birth within TWENTY-ONE days; of Death within SEVEN days.

6. Whether the Registrar receives such notice or not, he should send a Requisition to one of the qualified informants hereinafter mentioned, to attend at his office or some Dispensary or Vaccination Station, or at the Residence of such person, and give information.

7. Such Notice and the Requisition may be sent by post.

8. Births should be registered within three months, and Deaths within fourteen days from their occurrence.

9. All cases of neglect to comply with the Act, or in which wilfully false information has been given, should be reported to the Registrar-General.

#### BIRTHS AND DEATHS IN PUBLIC INSTITUTIONS.

(26 Vic., cap. 11, sec. 3.)

10. The term "Occupier" includes the Governor, Keeper, Master, Superintendent, or other chief Resident Officer of every Gaol, Prison, or House of Correction, and of every School, Reformatory, Workhouse, Hospital, Lunatic Asylum, or other public or charitable institution. In all these cases the qualifications should be stated, "Chief Resident Officer."

11. The Registrar should arrange for the weekly attendance at his office of the Chief Resident Officer of a public institution. Although the Chief Resident Officer will usually be the informant, the Registrar may register Births or Deaths in such Institutions, on the information of any qualified informant.

#### REGISTRATION OF BIRTHS.

(26 Vic., cap. 11, secs. 31 to 35, 37, & 42.)

12. Before beginning the entry of a BIRTH, the Registrar should satisfy himself—

1st. That the place of Birth is within his District.

2nd. The exact date of Birth. If more than three months have elapsed it can only be registered in the presence of the Superintendent Registrar. If more than six it cannot be registered at all.

- 3rd. That the "Informant" is legally qualified to sign, and is acquainted with all particulars.
113. The only persons legally qualified to sign are the following :—

## (WITHIN THREE MONTHS.)

1. Either of the Parents.
2. The Occupier of the House or Tenement in which the Birth took place. (When a Birth occurs in a Public Institution, the "Chief Resident Officer" of such is qualified to sign as Informant.)
3. The Nurse present at Birth.
4. Any person present at Birth.
5. Any person finding a new-born Child.

## AFTER THREE MONTHS.

1. Any person present at Birth.
  2. Either Parents.
  3. Guardian of Child.
14. The term "Occupier" means the person who owns or rents, and resides in the House or Tenement.
15. Every entry must be made in presence of an Informant, and signed by the Informant in the presence of the Registrar, who cannot sign *in his own books as an Informant*.
16. If there is more than one Child at a Birth, a separate Entry must be made for each child in order of priority, and the exact time of each Birth, if it can be ascertained.
17. Whenever the day of the Month occurs in an Entry it should be written in words; the Year should always be added in figures.
18. In Towns the Street and Number of the house should be given; and in Country Districts the name of the Residence, the Townland, and Parish.
19. The Christian Name, but not the Surname, is to be entered in the column "Name (if any);" if a Name has not been given, the column is to be left blank.
20. If an Informant does not state the name of the Father, and that there is reason to believe it to be illegitimate, the Registrar shall not press inquiry, but shall leave the column for "Name of Father," and "Profession," blank.
21. The Sex of the Child, as well as its name, should be ascertained from the Informant, and entered. If a Child has not been named when registered, the Informant should be supplied with a certificate, Form C, in order that, if a name be given in Baptism within six months, it may be added to the Entry.
22. Parties should be required to return the Certificate seven days after Baptism; but the name may be registered within six months from the date of registration.
23. In the case of Parents who do not recognise Baptism, a certificate, Form D, should be supplied to the Informant, in order that if a name be given to a child after registration, it may be added to the Entry within six months. If the name is given after six months, it can only be added with the written authority of one or more Justices at the Petty Sessions.
24. For the addition of a Baptismal, or other name, the Registrar is entitled to One Shilling.
25. The Registrar shall then certify on the certificate:—"That the (baptismal) name mentioned herein has been duly registered by me." The Certificate should then be forwarded to the Registrar-General.

26. Whenever a baptismal name has been added to an entry of Birth after transmission to the Register office of the certified copies containing such entry, a certified copy of such entry shall be sent to the Registrar-General.

#### REGISTRATION WITHIN SIX MONTHS AND AFTER THREE MONTHS.

(26 Vic., cap. 11, secs. 32, 33, and 59.)

27. A Birth cannot be registered after Three Months following the Birth, unless in the presence of the Superintendent Registrar, before whom a Declaration must be made. The Superintendent Registrar must sign the Entry as well as the Registrar.

28. A fee of 2s. 6d. is payable to the Superintendent Registrar, and a like fee to the Registrar by persons registering births under this section. If the parties do not pay these fees, the Registrar shall not refuse to register, but may take proceedings under the 22nd Vic., cap. 14.

29. The Registration of a birth after six months from the Birth is forbidden; and a Registrar making such an Entry is liable to a penalty of Five Pounds.

#### REGISTRATION OF DEATHS.

(26 Vic., cap. 11, secs. 36, 42 and 46.)

30. Before beginning the entry of a Death, the Registrar should satisfy himself—

1st. That the place of Death is within his District.

2nd. That the Informant is legally "*qualified*" to sign the Register, and is acquainted with all particulars.

31. The only persons legally qualified to sign the Register are the following:—

1. Some person present at the Death. 2. Some person in attendance during the last illness. 3. The *Occupier* of the House or Tenement in which the Death took place†. (†When a Death occurs in a Gaol, Workhouse, Hospital, or other Public or Charitable Institution, the "Chief Resident Officer" of such is qualified as a "Chief Resident Officer.") 4. *If the Occupier be the person who shall have died, then—some inmate of the House.* 5. *If the Death has not occurred in a house, then—any person present or having a knowledge of the circumstances.*

32. For Definition of "*Occupier*" see Clause 27.

33. When there is no person qualified to act as informant, and an inquest has not been held, a "Person having a knowledge of the circumstances" may sign the Register as Informant, a special note being made of the circumstances.

34. The relationship of the "*Informant*" to the deceased should *not* be inserted—relationship not being a qualification for an "*Informant*," except in the case of Registry of a Birth.

35. As to making Entry see Clauses 28, 30, 31, 34.

36. The "*Condition*" should be described by the word "*Bachelor*," "*Spinster*," "*Married*," "*Widower*," or "*Widow*," as the case may be.

37. The age should be stated in figures, and the age of children under a year should be stated in "*Months*," "*Days*," "*Hours*," or "*Minutes*."

38. In cases of married women and children who have not followed any "*OCCUPATION*," the column (7) headed "*RANK, &c.*" should be filled thus:—"Wife," "*Widow*," "*Son*," or "*Daughter of a Labourer*," &c., as the case may be.

39. As it is of the utmost importance that the column headed "*CAUSE OF DEATH*," should be accurately filled, all vague statements as to the nature of the disease should be avoided; and Registrars are requested to call the attention of

Medical Practitioners to this subject when they have an opportunity. Such returns as "Hæmorrhage," "Abscess," "Inflammation," "Vomiting," &c., are not sufficiently definite.

40. In Small Pox it should be ascertained whether the deceased had been vaccinated; in Tetanus, whether "*idiopathic*" or "*traumatic*;" Cancer, where situated; Injuries, how caused; "Poisoning," "Hanging," "Gunshot-wounds," "Drowning," &c., whether *accidental, homicidal, or suicidal*.

41. The "Cause of Death" should be taken from the Certificate furnished by the Medical Practitioner who attended until the death, and the word "Certified" added underneath; all other particulars from the informant.

#### MEDICAL CERTIFICATES OF DEATH.

(26 Vic., cap. 11, sec. 46.)

42. The Registrar should furnish a Book of "Certificates of Death" to all qualified Medical Practitioners who reside within his District, AND ARE ACTUALLY PRACTISING. This includes all Army Surgeons stationed in the District, Apothecaries, and all Medical Attendants of Public Institutions.

43. If the Registrar has been himself the Medical Attendant, he should fill the Certificate and copy the cause of Death from it into the proper column, adding the word "Certified." For every death registered as Certified, he should hand to the Superintendent Registrar a corresponding "Certificate of Death."

44. If the deceased had no Medical Attendant, the Registrar should ascertain from the informant the cause of death and duration of illness, and enter the same, adding, "Uncertified; no Medical Attendant."

45. Should a Medical Practitioner have been in attendance, but has not furnished a Certificate, he will forward to him a blank Form D, together with a requisition as directed by sec. 46. The Registrar should not in the meantime leave the entry in his Book blank, but should enter the "Cause of Death" from the statement of the informant, adding the word "Uncertified," leaving room for entering the Certified Cause. The date of entry should be given after the word "Certified," thus:—10/7/64.

46. If the attendance of the Medical Practitioner does not enable him to certify to the Cause, the Registrar should add the words "No Medical Attendant" after the word "Uncertified."

47. If a Medical Practitioner omits to furnish the necessary Certificate, his name, the name of deceased, and the date and place of death, should be reported to the Registrar-General.

48. If the certified "Cause" be added to any Entry after the Quarterly Returns have been furnished, a certified copy of the amended entry should be submitted to the General Register Office.

#### CORONERS' CERTIFICATES OF FINDING OF JURY.

(26 Vic., cap. 11, secs. 37 & 38.)

49. The Coroner must give notice to the Registrar of the finding of a dead body, and of the place, and the Registrar is required, after proper inquiry, to enter all particulars. In such cases the column headed "Signature, &c., of Informant," should be filled thus:—"Particulars ascertained under the 26 Vic., cap. 11, sec. 37." This mode of registry not necessary if the Coroner holds an inquest.

50. In every (Inquest) case the Jury are directed to inquire into the particulars, and the Coroner should communicate the "Finding of the Jury" to the Registrar, who shall make the entry accordingly.

51. The "Finding" on still-born children should not be registered.

52. The Coroner is *not* required to sign the entry as Informant, and the column headed "Signature, &c., of Informant." should be filled thus:—"Information received from \_\_\_\_\_", Coroner for the county of \_\_\_\_\_"

53. Should a "Finding of Jury" be forwarded to the Registrar touching a Death already registered, he must register it again, without alteration of the original entry, adding a note in the margin opposite each entry, thus:—"See entry No. \_\_\_\_\_"

54. Should an inquest have been held and the "Finding" has not been furnished, he will at once forward to the Crown a blank form with the requisition. Should the Coroner fail to furnish the certificate, see clause 66.

#### GENERAL OBSERVATIONS.

55. If any space in a Register is accidentally passed over, or a partial entry made in mistake, it should be cancelled, and an accurate copy should appear in the Certified Copies. Spaces should not be left blank for expected Entries, nor entries be commenced to be completed at a future time.

56. If an Informant can write, he must sign his name. If he cannot, the Registrar will write the name, leaving a space for the mark.

57. In no case can the signature of an Informant be written by any person but the Informant.

58. Before an entry is begun, it is recommended that the particulars be written on a slip of paper, and shown or read to the Informant.

59. The Registrar should carefully ascertain how the names are usually spelled before making the entry.

60. Any errors discovered should be corrected, and numbered, and initialled, as shown in the examples given in the Register.

61. As soon as the Informant has signed, the Registrar should insert the Date and his own Signature in the proper columns.

62. Nothing except the proper particulars should be written in any of the columns.

63. If an Informant attends to register a Birth or Death which did not take place in the District, he should send him to the proper Registrar, and also inform such Registrar.

64. Still Births should not be registered.

#### RE-REGISTRATION OF BIRTHS AND DEATHS.

65. If a Birth or Death is registered a second time, the Registrar must not copy the former Entry, but make a separate Entry—the Informant and the Registrar signing such Entry. In such cases the date to be inserted is the date of the new Entry. A note should then be written in the margin of each Entry, thus—"See also Entry No. \_\_\_\_\_." Each note should be initialled and dated. Any Birth or Death re-registered after the transmission to the Office of the Returns, should be reported to the Registrar-General, and the number of the second Entry stated.

#### CORRECTIONS OF ERRORS.

66. An error discovered in a Book *before an Entry is signed*, may be corrected Sixteenth. thus—Eleventh. Such corrections should be numbered in the margin at the time such correction is made, from the first correction in the Book to the last. (See examples in Register Books.)

67. If the error is one which cannot easily be corrected, such Entry should be cancelled, and a new Entry made before Informant leaves.

68. *In no case* must the Registrar correct an error by smearing it out, or by writing upon it; and even an accidental blot should not be erased *with a knife, or by other means.*

## CORRECTIONS AFTER ENTRIES HAVE BEEN SIGNED.

(26 Vic., cap. 11, sec. 44.)

69. An error discovered *after* the Entry has been signed, can only be corrected by Entry in the margin, without any alteration of, or addition to, the original Entry. The person discovering such error should report it to the Justices at Petty Sessions, in order that they may summons, and authorize the Registrar to correct the error.

70. The marginal Entry should be as in the specimen page of the Registers, and should be signed by the party who made the Deposition and by the Registrar, and dated.

71. If a correction is made after the Certified Copy has been furnished to the Registrar-General, a separate Certified Copy should be forwarded, accompanied by the Justice's authority.

## ENTRIES TO BE CANCELLED.

72. Any Entry signed by an Informant not authorized to sign under the 31st, 32nd, or 36th Sections. (If the Informant was qualified, but the qualification is omitted, the Entry need not be cancelled, but the qualification supplied in the margin under the provisions of the 44th Sec.)

73. Any Entry to which the signature (or mark) of the Informant, is not attached, or not written by the person whose signature it purports to be.

74. Any Entry of a Birth *after Three Months*, not registered before the Superintendent-Registrar, according to 32nd Sec.

75. If an Entry is cancelled after the Copies for the Quarter have been furnished, a Certified Copy should be forwarded to the General Register Office.

76. An Entry should not be cancelled in consequence of an error, if such error or omission can be corrected as in 44th Sec.

## QUARTERLY CERTIFIED COPIES.

(26 Vic., cap. 11, sec. 47; and 26 &amp; 27 Vic., cap. 90, sec. 14.)

77. Every Registrar shall, in January, April, July, and October, deliver to the Superintendent-Register, true copies of all entries made during the three months last preceding the first day of each month. The Superintendent-Registrar shall arrange the days most convenient for attending at his Office.

78. The Certified Copies must be written on the Forms furnished.

79. The writing should be clear and distinct; and blotting paper should not be used. The Superintendent-Registrar shall require a new copy of entries not written with the proper ink.

80. It is not necessary that the Registrar should himself make out the Copies, but he must satisfy himself that they are true copies, by comparing them carefully.

81. The Registrar should not sign at the bottom of each page until after it shall have been examined by the Superintendent-Registrar, in order that any clerical error may be corrected.

82. The entries must be copied in the same order as in the Books, and the number of each given.

83. Cancelled entries should not be omitted, as every numbered space in the Books must be accounted for; and every particular in a cancelled space should also appear in the copy.

84. The Copies must be exact transcripts of the entries, and must show every

alteration, whether in the margin or in the body of the entry; if a name or other word is mis-spelled, the Registrar is not authorized to correct it in the copy.

85. The Registrar shall take with him to the Superintendent Registrar, in addition to his Register-Books and Copies, the Medical Certificates, the Coroner's Certificates, Certificates of Marriage, the Justices' authority for correction of errors, and Declarations under the 32nd. section, that they may be compared with the entries.

86. If the Superintendent-Registrar discovers any slight inaccuracy in copying, it may be corrected. But if the error is important, the Registrar shall make another copy of the entry, a note being made—"See new copy."

87. If no Birth, Death, or Marriage has been registered during the quarter, a form of "*Nil*" Return should be delivered to the Superintendent-Registrar.

88. The Registers must be produced to the Superintendent-Registrar, with the "*Nil*" Returns.

89. A Quarterly Return should contain only the entries registered during the quarter.

90. The Registrar, or, in case of unavoidable absence, his Deputy should be present during the examination of the Registers by the Superintendent-Registrar.

#### FILLED REGISTER BOOKS.

(26 Vic., cap. 11, sec. 47; and 26 & 27 Vic., cap. 90, sec. 14.)

91. When a Register is filled, the Registrar must deliver it to the Superintendent-Registrar, and procure a receipt for it.

#### QUARTERLY RETURN.

92. This Return should be forwarded by post on the day after the expiration of each quarter.

#### FINANCE.

93. The Incidental expenses should be furnished on the 1st of January and July, and shall include the following:—

I.—*Mileage Allowance*, at the rate of 1s. per mile, for the distance from the Registrar's Office to the Superintendent-Registrar's Office, for each of the four journeys, to deliver the Certified Copies to the Superintendent-Registrar. No allowance for the return journey.

A half-mile may be counted as a mile, but no smaller portion. If the distance to the Superintendent Registrar's Office is less than half a mile, no allowance shall be made.

II.—*Postage*:—A detailed account of Postage should be furnished.

III.—*Certificates of Death of Medical Practitioners*:—A fee of one shilling shall be paid by the Registrar-General for each Certified Copy of the Entry of the Death of a Medical Practitioner, furnished to the Registrar of the General Medical Council in London, and one shilling for the copy sent to the Registrar of the Branch Medical Council in Dublin. An unstamped copy of such Entry should be attached to the half-yearly account as a voucher.

#### PROSECUTIONS AND CORRECTIONS OF ERRORS.

94. The expenses out of pocket shall be allowed to the Registrar in cases of prosecutions authorized by the Registrar-General. The Registrar should furnish an account immediately after the prosecution.

95. Mileage at a like rate (as in clause 93) shall be paid for attendance at such prosecutions; also for making corrections of entries in his Books when the error has not arisen through the fault of the Registrar or his Deputy.

## ACCOUNTS OF FEES.

(26 Vic., cap. 11, sec. 54 ; and 26 &amp; 27 Vic., cap. 90, sec. 21.)

96. The Registrar is authorized four times a year to make out the number of Births, Deaths, and Marriages which he shall have registered during the preceding quarter, at the rate of one shilling for every Birth or Death, and sixpence for every Marriage, and to deliver same to the Superintendent Registrar, at the time the Books are produced. The account should be paid by the Guardians on production of same.

## CERTIFIED COPIES OF THE DEATH OF MEDICAL PRACTITIONERS.

97. The Registrar shall furnish, as directed by sec. 45 of the Medical Act, a Certified Copy of the Entry of the Death of any Medical Practitioner (*whether practising or not*), to the Medical Council in London, and another to the Registrar of the Branch Medical Council in Dublin.

## SEARCHES, ETC.

(26 Vic., cap. 11, sec. 52 ; and 26 &amp; 27 Vic., cap. 90, sec. 19.)

98. The Registrar must allow searches to be made at all reasonable times in any Register Book ; and he must take care that no alteration is made in such Register Book.

99. He is entitled to the following fees :—

For a search in his Register of Births or Deaths, *one shilling*.

Marriages, *sixpence*.

100. If a certificate is required at the time of registry, no charge should be made for the search.

101. The Registrar must give a copy certified of any entry in his Books on payment as follows :—

Births, or of Deaths, . . . . . 1s.

Marriages, . . . . . 2s. 6d.

102. A penny receipt stamp, to be paid by the person requiring the copy, should be attached.

103. Certified Copies should be made on the forms printed on blue paper, and they should be exact transcripts of the entries.

## REGISTRATION OF MARRIAGES.

(26 and 27 Vic., cap. 90.)

104. The several (Registration) Districts are also the Districts for Marriages under the provisions of the 26th and 27th Vic., cap. 90 ; and the Registrars may, if they think fit, be the Registrars of Marriages.

105. The Registrar must register *all* lawful marriages celebrated within his district by clergymen. He is not authorized to register marriages *solemnized in another District*.

106. In cases of intended Marriage the parties should procure a Certificate, Schedule A, from the Registrar, who is bound to fill it up, without fee or reward. To be given only to parties whose marriage is to be within his District.

107. If the marriage is to be in a private house, the heading may be altered to suit.

108. The Registrar should call attention to Section 11 (printed on the back of each form) which directs the Husband to return the Certificate within three days after the Marriage ; also inform them that the signatures, or marks of the parties married, two witnesses, and the clergyman, must be affixed to each certificate, in the handwriting of the respective parties.

109. For convenience the Registrar may furnish to each Parish Priest within

his District Forms of Marriage Certificates (Schedule A); the names of the Union and District having been previously written into the spaces at the head of each form.

110. The Registrar must immediately, on the receipt of a Certificate only, filled and signed, as by clause 135, accurately copy it into his Marriage Register; he should also enter at the bottom of the Certificate, the number of Entry and date of Registration.

111. The Registrar is not authorized to register a Marriage the Certificate of which has not been actually signed as above.

112. If the signatures are not genuine, he should endeavour to procure a new one.

113. Should the husband fail to send, within the required time, the Certificate, the Registrar should immediately report the matter to the Registrar-General.

114. At the end of the Quarter all Certificates shall be delivered for comparison to the Superintendent Registrar.

#### CORRECTION OF ERRORS IN MARRIAGE REGISTERS.

(26 & 27 Vic., cap. 90, sec. 13.)

115. A clerical Error may be corrected same as clerical errors in the Registers of Births and Deaths.

116. A correction cannot be made in the Certificate. It must be copied *literally* into the Book, and any error reported to the Justices presiding at Petty Sessions; same as corrections in the Registers of Births and Deaths.

#### GENERAL RULE RESPECTING THE QUALIFICATIONS OF REGISTRARS.

1. Every Registrar shall have a known place of business within the District, and shall not be a member of any Board of Guardians by which he shall be appointed Registrar, unless upon a representation to be made in writing, and signed by two-thirds of the members of such Board, it shall be made to appear to my satisfaction—to be signified under my hand—that there is no person resident within the District capable and willing to undertake the said Office of Registrar; and he shall not be engaged in any profession or occupation which may be considered by the Registrar-General as incompatible with the discharge of his duties as Registrar.

2. Every Registrar shall be above the age of 23 years, and shall not be an Uncertificated Bankrupt, or have applied for, or obtained, within Twelve Calendar Months before his acceptance of, or appointment to, the Office of Registrar, the benefit of any Act or Acts of Parliament for the Relief of Insolvent Debtors.

WILLIAM DONNELLY,

Total Insane in Ireland,	- - - 18,327	1,134

### EXPENDITURE.

The cost of support and maintenance in District Lunatic Asylums for the year 1871 exceeds that of the preceding year by £10,467, the amounts being respectively, 1870, £166,927, 1871, 177,395. This increase is caused in the first place by the additional number of patients to be supported, namely, 293, which, at the average rate of maintenance per head, gives £8,088 1s. 6d.—(For Tables of expenditure for 1870 see page 221.)

For Expenditure on administration of Head Office see under Parliamentary Grants.

## DISTRICT LUNATIC ASYLUMS IN IRELAND ;

### ABSTRACT OF RULES AND REGULATIONS FOR THEIR MANAGEMENT.

#### ADMISSION, TREATMENT, AND DISCHARGE OF PATIENTS.

Persons labouring under mental disease, for whom papers of application are filled up in the prescribed forms, to the satisfaction of the Board, and who shall be duly certified as insane by a registered physician or surgeon, who shall state the grounds on which he forms his opinion, shall be admissible into District Asylums, after having been examined by the Resident Medical Superintendent, or, in his absence, by the visiting physician or surgeon.

No patient, other than a "dangerous lunatic," shall be admitted without the sanction of the Board, except by order of the Lord Lieutenant, or of the Inspectors of Lunatics, or one of them, or in case of urgency, when the Resident Medical Superintendent, or, in his absence, the Consulting and Visiting Physician of the Asylum, may admit upon his own authority, stating on the face of his order the grounds upon which he acts, provided always that when a patient has been admitted under this rule, the Resident Medical Superintendent, or, in his absence, the Visiting Physician, shall submit the case to the special consideration of the Board at its next meeting for the decision of the Governors thereon.

No patient shall be discharged without an order from the Board, on a certificate signed by both Medical Officers, stating the then mental condition of the patient; and no lunatic transferred to an Asylum from gaol, by warrant of the Lord Lieutenant, as dangerous, or admitted to an Asylum, by warrant of Justices, as dangerous, shall be set free or handed over to his friends as ceasing to be dangerous, except on a joint certificate to that effect, from both Medical Officers; but in the interval between the meetings of the Board it shall be in the power of the Inspectors, or one of them, to order the discharge of any patient (not being a criminal lunatic placed in the Asylum under an order of the Lord Lieutenant); but no such order shall be made, except at the request of the Resident Medical Superintendent, and unless a personal examination had been made by one of the Inspectors; and in every case the order shall be in writing, stating the grounds on which it is made, and shall be deposited with the Resident Medical Superintendent, to be kept by him among the records of the Asylum.

On the discharge of patients who have no available means, the Board is authorized to allow the expense of their journey home.

#### PAY PATIENTS.

Patients who have not sufficient means for payment of their maintenance in a private Asylum, but whose friends are willing to pay wholly or in part for their care and maintenance, may be admitted into District Lunatic Asylums subject to the following regulations:—

No patient shall be admitted so long as there shall be unsatisfied and legitimate claims for the admission of lunatic poor who have no available means and whose friends are unable or unwilling to contribute towards their maintenance.

The Resident Medical Superintendent shall submit the application for the admission to the Governors, and shall state the amount stipulated to be paid by the friends of such patient towards his support, and shall be accompanied by a certificate, signed by a magistrate and a clergyman, stating that they are personally acquainted with the circumstances of such patient and his friends, and that to the best of their knowledge and belief, such patient is unable, and his friends are unable or unwilling to pay for his care and maintenance in a private lunatic asylum.

If the Governors shall approve of the admission the Resident Medical Superintendent shall submit the application to the Inspectors and no patient shall be admitted without the previous sanction of such Inspectors.

No payment shall exceed the average of the general cost, nor be less than one half of the average cost, for the care and maintenance of patients in the Asylum, and the amount so stipulated shall be payable in advance by half-yearly instalments, provided that in special cases the Inspectors may authorize such an alteration in the charge as they think proper.

Paying patients shall be subject to the same rules and regulations as other patients.

## RESIDENT MEDICAL SUPERINTENDENT.

The Resident Medical Superintendent shall be duly qualified as a Physician and Surgeon, and hold a diploma in midwifery.

The salary and allowances to be paid and made to the Resident Medical Superintendents, whose salaries and allowances have not been fixed shall be as follows :—

When the accommodation for patients in the Institution shall be under 250, the salary shall be at the rate of £340 per annum.

Under 350, £400 per annum.

Under 500 such salary shall be at the rate of £450 per annum.

Under 600 such salary shall be at the rate of £500 per annum.

Under 800 such salary shall be at the rate of £550 per annum.

And the allowances to be made to all such Resident Medical Superintendents shall be apartments, fuel, light, washing, vegetables, bread and milk.

Resident Medical Superintendents appointed after the date of this Order shall not be allowed any furniture for the apartments occupied by them.

Carpets or matting may, with the sanction of the Board of Governors or of the Inspectors, be allowed in corridors or on stairs in the Resident Medical Superintendent's apartments, if such corridors or stairs are used by the officers, patients, or attendants.

The Resident Medical Superintendent shall superintend and regulate the whole establishment, and is to be intrusted with the moral and general medical treatment of its inmates, for whose well-being and safe custody he shall be responsible.

He shall, before one o'clock, P.M., and also occasionally at other times, inspect the whole establishment daily.

He shall take care that all the Officers, servants and attendants of the institution acquit themselves of their duties, and in any case of their neglect he shall report to the Board. In cases, however, of drunkenness, insubordination, or cruelty, he may suspend any attendant or servant.

He shall also visit the male divisions after the patients have retired to rest, and satisfy himself that they are safely and comfortably located for the night.

In complicated or difficult cases of mental disease, or any case requiring particular treatment, he shall freely communicate with the Consulting and Visiting Physician, and concert with him the most judicious mode of treatment which should be adopted.

He shall never be absent from the Asylum at the same time with the Matron, nor ever for the night without special leave from a Board of Governors or the Inspectors, and upon every such absence he shall enter in the book the date and period; and inform the Consulting and Visiting Physician, who for the time shall exercise a general supervision over the establishment.

He shall be careful that the books are kept with regularity, and that they are at all times ready for inspection.

He is to take care that the Minutes of each meeting are fully and accurately transcribed; that all communications directed by the Board are written, and despatched in due course; that any returns or information required by the Inspectors be furnished to them without delay.

He shall be responsible for the disbursement of such money as may be placed in his hands by the Board.

## CONSULTING AND VISITING PHYSICIAN.

The Consulting and Visiting Physician shall attend at the Asylum three days in the week, and on every day in those Asylums where the number of patients

shall exceed 200 ; the regular hour of attendance being in the interval of from ten to one o'clock, unless otherwise arranged, by mutual consent, between the Medical Officers. On his arrival he is to communicate with the Resident Medical Superintendent, in company with whom he shall visit all that are labouring under bodily disease, and any who are in seclusion, or under restraint. He shall also see such patients as may have been admitted since his preceding day of attendance, and any others whom he may desire to visit.

He shall attend at all times when called on by the Resident Medical Superintendent, and afford such advice and assistance as may be required of him, whether to patients, officers, or servants, and he shall afford such advice as may be necessary in cases of acute illness, and accidents of a dangerous nature. He shall once, at least, in each fortnight, examine, with the Resident Medical Superintendent, into the mental condition of every patient in the Asylum, who is under special medical treatment.

When requiring leave of absence, he shall make application to the Board, or Inspectors, in order that, if it be deemed necessary, a duly qualified substitute may be provided.

In conjunction with the Resident Medical Superintendent he is to examine into the mental condition of every patient before being discharged, and consult with him thereon, before signing the necessary medical certificate.

In every Asylum a Case Book shall be kept in the office, in which the history of important cases shall be entered, with such observations as the Medical Officer in immediate charge of them may consider useful and interesting.

When a Surgeon is specially attached as such to a District Asylum, he is to attend on accidents of a serious character, perform operations when necessary, and take charge of cases purely surgical. The patients under his immediate care should, if possible, be treated in the infirmary, and his visits are to be regulated as those of the Consulting and Visiting Physician.

#### ASSISTANT TO THE RESIDENT MEDICAL SUPERINTENDENT.

The assistant to the Resident Medical Superintendent shall be duly qualified as a Physician and Surgeon, and hold a diploma in midwifery.

He shall assist the Resident Medical Superintendent in the performance of all the duties of that officer, and he shall perform all other duties that may be required of him, subject to the approval of the Inspectors, and shall never be absent from the Institution at the same time as the Resident Medical Superintendent.

He shall discharge the duties hereinafter assigned to the Apothecary when no such officer is employed.

#### THE APOTHECARY,

If resident, shall devote his time to the service of the Asylum, and assist the Medical Officers in accordance with the directions given him from time to time by the Inspectors. If non-resident, he shall attend daily at the Asylum before two o'clock, or whenever required by the Resident Medical Superintendent. He is to compound all prescriptions, entering them in the general prescription books in full, and inscribe the necessary directions on each parcel legibly. He shall take care that all medicines not used or which shall be counter-ordered shall be returned to him. He is to assist in the infirmary, or in any other part of the institution where his services are needed, but shall not prescribe for patients, except on urgent occasions, and in the absence of the Resident or Visiting Physician.

He is to take stock twice in the year, and make requisitions to the Board through the Resident Medical Superintendent. Surgical instruments and those employed for restraint are to be kept in the Apothecary's shop, to which no person unauthorized by either of the Medical Officers shall on any pretence whatever have access in his absence.

## ADMISSION OF PATIENTS.

No patient can be admitted without previous application made at the Asylum, and a Form of Admission obtained, which must be accurately complied with.

The receiving Declaration, Certificates, Forms, and Engagement, are to be filled up, and transmitted to the Resident Medical Superintendent previously to the Lunatic being sent to the Institution ; and no Lunatic will be received until it shall be notified to some of the friends of the Lunatic that there is a vacancy for his or her reception.

No application will be attended to which does not state the Name, Residence, and Occupation, and degree of relationship of the two next male relatives, and the next female relative of the patient (when such exist), according to the annexed Form, when it is possible to give those particulars.

It is requested that a person will accompany the patient to the Asylum, who is able to give the best information respecting his or her disease, former mode of life, &c. ; and it is expected that the Lunatic will be properly clad.

# THE OFFICE OF CORONER,

*And the Law of Inquests in Ireland.*

---

The Act of Parliament regulating the Office of Coroner is the 9th and 10th Viet., Cap. 37. After directing the several Counties to be divided into Coroners' Districts, it proceeds to settle the mode of

## *Elections.*

Whenever a vacancy occurs, two or more magistrates are to certify to the Clerk of the Peace that a vacancy exists. This information is to be forwarded by the Clerk of the Peace to the Lord Chancellor, within 21 days, who will thereupon issue his writ, *de coronatore eligendo*, to the Sheriff of the County, who shall appoint a day, not less than seven nor more than fourteen days after the receipt of the writ, for holding said Election. The Sheriff or his Deputy presides. Previous to the Candidates being put into nomination, they shall hand to the Sheriff a statement, in writing, setting forth the nature and quality, name, and description of the Property, and where situate, out of which they qualify. This Property must consist of an Estate of Inheritance, for his own use and benefit, of £50 sterling per annum, or an Estate of Freehold, of the clear yearly value of £100, over and above all charges or incumbrances. This Property must be situate in the County for which he seeks to be elected, or the County next thereto adjoining.

On the day appointed for holding the Election, if there is no opposition, the Candidate, being proposed and seconded by two persons qualified to vote for Members of Parliament, is declared by the Sheriff duly elected, and as soon as he takes the Oath of Office, can at once exercise the office of Coroner.

If there are more Candidates than one, the Sheriff must adjourn the Court to eight o'clock of the next day but one, unless such day be Saturday—then to the Monday following—when the poll shall be taken, and continue for two days, the persons entitled to vote being the persons, resident within the district, qualified to vote for Members of Parliament.

The Candidates are obliged to lodge in the hands of the Sheriff such a sum of money as shall be necessary to defray the expenses of the Election. At the close of the second day, the poll books are totted up, and the result declared, just as at an election for a County Member.

## *Duties of Coroners.*

Coroners cannot act as Sub-Sheriffs, nor professionally as an Attorney, in any case in which they have held an Inquest.

A Coroner must reside in the district for which he is elected, and not be absent, unless from illness, for more than 28 days in each year, and though elected for a district, he is Coroner for the County, and may, when a vacancy occurs, or during the illness, incapacity, or absence of a Coroner, hold Inquests in any part of the County, and shall be paid for same, over and above his own Inquests, provided he states, in the abstract to be laid before the Grand Jury, the reason of his having held such Inquests. In a case where no Inquest has been held for two days after the finding of the dead body, or after the death, two magistrates may hold the Inquest.

Coroners are to hold inquests, *whenever any dead body shall be found, and in any case of sudden death, or of death attended with suspicious circumstances, and*

the Constabulary are bound to report all such cases to the Coroner of the District, with all the information they can collect touching such death, or the finding of such body, and the discretion lies with the Coroner whether he considers an Inquest necessary or not. A custom prevails with the Constabulary to report such cases first to the nearest magistrate, and take his opinion, as to the necessity of holding an Inquest; this is clearly illegal, no person having the power to form that opinion but the Coroner. In 1859, the Grand Jury of the Queen's County directed the Constabulary, before they called on the Coroner of the District to hold an Inquest, that they should have, in writing, the previous sanction of the Magistrate of the District.

The Inspector-General of Constabulary submitted this order of the Grand Jury to the *then* Law Officers of the Crown—the present Chief Justice Whiteside and Mr. Justice George. The following is their opinion:—

“We are of opinion that the County Grand Jury of the Queen's County were  
 “not warranted in giving to the Constabulary the order of the 2nd March, 1859,  
 “to have the direction of a Magistrate, before they call upon the Coroner to  
 “hold an Inquest, under the Coroners' (Ireland) Act, 9 and 10 Vict., c. 37.  
 “Such an order is against the policy of the Act, which desires to expedite the  
 “holding of Inquests, and expressly contravenes the provisions of the 22nd sec.,  
 “making it imperative on the Constabulary to call upon the Coroner to hold the  
 “Inquest. The abstract and examination on oath, directed by the 24th sec.,  
 “and the checks provided by the 41st and 50th sections, are sufficient to guard  
 “against abuses. If these are complied with, the 22nd section becomes mandatory on the Grand Jury to make the presentments required by the Act.”

#### *Summoning of Juries.*

Formerly it was the practice for the Constabulary to forward their reports, by hand, from one station to another; but latterly they are frequently forwarded by post, which is extremely inconvenient, and often attended with great uncertainty. The Constabulary are bound to serve all summonses issued by Coroners, either for the attendance of Jurors or Witnesses. The qualification for a Jurymen is, that he shall be resident in the district, and rated to the relief of the poor, in a sum not less than £4. If a sufficient number cannot be obtained, so many other fit and proper persons, being householders, shall be summoned.

#### *Fees to Coroners.*

Coroners are paid £1 10s. for each Inquest held by him since the preceding Assizes, or since his last application for a Presentment, but not to exceed £50, at each Assizes. As soon, then, as he has held a sufficient number, viz., 33, he should at once lodge his application with the Secretary of the Grand Jury, then any that are held between that and the Assizes can be carried forward to the next presenting term, or following Assizes. This is important to bear in mind, as the period between Summer and Spring Assizes is eight months, whereas that between Spring and Summer is only four months. He is also entitled to charge sixpence for every statute mile he travels, going to hold each Inquest, but nothing returning; likewise, if a Coroner, after travelling to the place where the dead body lies, in the exercise of his discretion, deems an Inquest unnecessary, he is to be allowed the same mileage.

#### *Medical Witnesses.*

Coroners can summons any legally qualified Medical Practitioner—that is, any person registered under the Medical Act, 21 and 22 Vict., c. 90, to give evidence, and, if necessary, to make a post mortem examination of the body, for which they are to be paid, in the first case, a fee of £1 1s., and in the case of a post mortem, a fee of £2 2s.; and if a Jury desire to have further medical evidence, as to the cause of death, the Coroner is obliged, on a written requisition

from them, to call in some other legally qualified Medical Practitioner, or Practitioners, and if the Coroner refuse or neglect to do so, he shall be deemed guilty of a misdemeanor. In cases of poisoning, or suspected poisoning, the Coroner can order an analysis to be made, for which the Grand Jury can present five guineas.

A mistaken idea prevails amongst Dispensary Medical Officers that, as such, the Coroner is obliged to call on them when medical evidence is required. The words of the Act are:—"He shall summons, as such Witness, any legally qualified Medical Practitioner, being at the time in actual practice at or near the place where such death happened."

Medical Officers of Workhouses, Gaols, County Infirmaries, or Lunatic Asylums, or other Hospital supported by endowments or voluntary subscriptions, are not entitled to be paid for evidence, or for post mortem examinations at Inquests held on any patient dying in such establishment, but it has been decided that Military Surgeons are entitled to be paid for attendance at Inquests on soldiers dying in a Military Hospital.

Coroners can fine Jurors and Witnesses for non-attendance after being duly summoned, and can punish by imprisonment, for a definite period, in the County Gaol, any person guilty of contempt of court, the same as any other presiding Judge.

#### *Deposit of Bodies.*

When a dead body is found, the Coroner has power to order it to be deposited in the nearest house licensed for the sale of spirits, until an Inquest is held. No allowance can be made to a public house for this accommodation, but if brought to a private house, 3s. 6d. a day can be allowed for allowing the dead body to remain, and 3s. 6d. a day for accommodation to hold the Inquest; poor witnesses can be allowed 1s. a day for attendance at the Inquest; 5s. can be paid for disintering, and afterwards burying a body, and 10s. for providing a coffin and interring the body of any *stranger* on whom an Inquest has been held.

#### *Presentments for Inquests.*

Coroners sometimes are sorely harassed and put to expense by having their claims for Inquests, or the fees they advanced to medical men, disallowed by the Grand Jury, or brought before the going Judge of Assize, but these questions have been so frequently decided in favour of the Coroner, that of late years the objections are not so frequent, but nothing will effectually remedy this evil but paying Coroners by fixed salaries. It has been decided by Chief Baron Pigott, Baron Fitzgerald, and Mr. Justice O'Brien, that if the Coroner, in the *bona fide* exercise of his discretion, considers an Inquest necessary, the Grand Jury were bound to allow him his fee, and where a fee of £2 2s. had been paid for a post-mortem examination, it was decided, if the post-mortem was made by the direction of the Coroner, and the fee paid, it was compulsory on the Grand Jury to allow the fee. Mr. Justice O'Brien, in addressing the Grand Jury of the County Dublin, on the 16th April, 1862, said:—

"There were presentments to Coroners for the holding of Inquests, and several cases had recently come before him and his learned colleague, involving a question with respect to the power of Grand Juries to determine as to whether it was expedient, in particular instances, to have held inquests or not. It would be a very inconvenient power to invest Grand Juries with, to determine such a question, and where cases of sudden death arose, it was for the interest of the public, and essential to the due administration of justice, and the security of life, that the matter should be fully investigated. The Grand Jury were not to determine whether, in their opinion, it was necessary for the Coroner to have held each particular inquest, but whether the Coroner *bona fide* believed it expedient to do so."

## Bail.

Coroners have no power to take bail for a person charged with manslaughter, though the late Mr. Davis, the experienced Coroner for the County Dublin, frequently did so, but the safest course, until the law is clear on the subject, is to let an application be made to the Court of Queen's Bench.

Coroners are sometimes entrusted with the execution of writs against the person or property of individuals, but only where the Sheriff fails or declines to do so. In the case of a writ or execution against the Sheriff, the Coroner is the only person can execute it.

An attempt was made during the last Session of Parliament to amend the law relating to the payment of Coroners; it merely permitted Grand Juries to pay Coroners a fixed annual salary, taking the *average* of their actual receipts for fees and mileage for five years as the amount to which they were entitled; but although the same Bill proposed to grant superannuation to Secretaries of Grand Juries, County Surveyors, and their assistants, it did not do so to the Coroner. It is to be hoped, if a similar Bill is introduced next Session, this injustice will be obviated, and that an office so ancient and useful will receive that consideration to which it is entitled.

## COUNTY INFIRMARIES OF IRELAND.

EXTRACTS from the Acts of Parliament regulating the Qualification of Surgeons for County Infirmaries in Ireland.

5 and 6 Geo. III. cap. 20, 1766.—*Surgeon Qualified on Certificate of serving regularly five years, and being properly examined.*

“And that no person shall be capable of being elected who shall not have served a regular apprenticeship of five years to a Surgeon, and have likewise undergone an examination before the Surgeon-General, the Visiting Surgeon, the two Assistant Surgeons, and the Resident Surgeon of Dr. Stephen's Hospital, and the four senior Surgeons of Mereer's Hospital, both situate in the City or suburbs of Dublin, or such a number of them as they shall appoint to make such examination, and shall produce a certificate from the said examiners or the major part of them, that he hath served an apprenticeship of five years to a Surgeon, and hath undergone a proper examination as aforesaid, and is in all respects qualified to be a Surgeon to the said Infirmary or Hospital.”

36 Geo. III. cap. 9, 1795.—*No Surgeon to an Infirmary to be Elected without “Letters Testimonial” from College of Surgeons.*

“And be it further enacted, that from and after the passing of this Act no person shall be capable of being elected Surgeon to a County Infirmary or Hospital who shall not have previously obtained “Letters Testimonial” of his qualification under the seal of the Royal College of Surgeons in Ireland; and that no other qualification or examination shall be necessary to make any person capable of being elected Surgeon to such Infirmary or Hospital, any former Act or clause in any Act to the contrary notwithstanding.”

54 George 3, Cap. 62, 1814.

Certificate of good conduct of the Surgeon shall be previously laid before the Grand Jury, as also a copy of his “Letters Testimonial.” Provided also that in all cases where any Head Surgeon of any Infirmary or Hospital shall have been appointed to be Head Surgeon at any time subsequent to the passing of an Act made in the Parliament of Ireland in the 30th year of his present Majesty's reign, intituled “An Act for the further regulation of Public Infirmaries or Hospitals.” A true copy (certified under the name of the Treasurer of such Infirmary or Hospital) of the “Letters Testimonial” from the College of Surgeons in Ireland, required by the said Act, to be obtained by every such Surgeon, shall be laid before such Grand Jury previous to the requiring or making such presentment.

### GRAND JURY ACT.

6 and 7 Wm. 4, Cap. 116, Sect. 95.

And be it enacted, that it shall and may be lawful for the Grand Jury of any county to present, at each Assizes, any sum not exceeding forty-seven pounds, to be raised off such county, and paid to the Surgeon or Surgeons of the infirmary thereof, provided always that no such presentment shall have been made, unless a true copy of the “Letters Testimonial” from the College of Surgeons in Ireland, by law required to be obtained by such Surgeon, shall be laid before the Special Sessions next after his appointment to his office, nor unless such Surgeon shall have given his attendance and professional assistance, without any other fee or reward, to the prisoners and others in the gaol of the county of the infirmary of which he has been appointed Surgeon, if such gaol is situate within five miles of such infirmary, and provided also that no Surgeon or Medical Attendant hereafter appointed shall be qualified to act as Surgeon to such infirmary or dispensary, until he shall have signed and deposited with the Secretary of the Grand Jury a declaration in the form schedule R., to this Act annexed.

By the 86th section of the 6th and 7th of George 4th, cap. 116, the Surgeon of the Gaol, if he be also Surgeon to the County Infirmary, is obliged to give his attendance and professional assistance to the prisoners and other inmates of the Gaol, without fee or reward.

Whenever an Apothecary is not salaried as Officer of the Gaol, it is usual to contract with some local Apothecary for supply of Medicines. In a few instances, the Medical Officer makes up the Medicines himself, sometimes receiving a small salary, and sometimes discharging the duty gratuitously.

# REGULATIONS AFFECTING MEDICAL OFFICERS TO MILITIA REGIMENTS,

ISSUED BY THE SECRETARY AT WAR,

SEPTEMBER 1, 1854.

---

**MEDICAL EXAMINATION.**—Every volunteer must, before being enrolled, be examined by a Militia or by a Military Medical Officer; or, in the event of no such Medical Officer being available, by a private medical practitioner.

The allowance for medical examination of each volunteer, by a private medical practitioner, will be 2s. 6d. for each volunteer for eight or less, examined on the same day, and at the same place, and 1s. each for every volunteer above eight so examined.

Recruits are to be rejected on account of any defect or disease which is likely to impair their efficiency and to disqualify them from a due discharge of military duty. The following is a list of the more common defects which disqualify:—

Feeble constitution; unsound health, from whatever cause; indications of former serious disease; glandular swellings or other symptoms of scrofula, &c.

Weak or disordered intellect.

Chronic cutaneous affections, especially of the scalp.

Severe injuries of the bones of the head.

Impaired vision, from whatever cause; inflammatory affections of the eyelids; immobility, or irregularity of the iris; fistula; lachrymalis, &c. &c.

Deafness, copious discharge from the ears, &c.

Loss of several of the front teeth.

Strong stammering.

Want of due capacity of the chest, or any other indication of a liability to pulmonic disease.

Impaired or inadequate efficiency of one or both of the superior extremities from palsy, old fractures (especially of the clavicle), contraction of a joint, mutilation, extenuation, deformity, ganglions, &c. &c.

Unnatural excurvature or incurvature of the spine.

Hernia, or a tendency to that complaint.

Impaired or inadequate efficiency of one or both of the inferior extremities from varicose veins, old fractures, malformation (flat feet, &c.), palsy, or lameness, contraction, mutilation, extenuation, enlargement, unequal length, bunions, over-lying or supernumerary toes, ganglions, &c., &c.

Ulcers, or unsound cicatrices of ulcers likely to break out afresh.

Traces of corporal punishment, or being marked with the letter D, are unqualified causes of rejection.

Diseases, whether acute or chronic, for which medical treatment is required.

## COURSE OF EXAMINATION OF RECRUITS.

The recruit is to walk several times across the inspection room, in order to show that he has the perfect use of his lower limbs; he is then to be halted and set up like a soldier under arms with the knees about an inch apart, and in this

position to be strictly examined both in front and rear, when, should no material defect be discovered, the inspection may proceed.

The recruit is to imitate the serjeant present in the following evolutions, viz. :—To extend the arms at right angles with the body ; to touch the shoulders with the fingers ; to place the backs of the hands together above the head, and in that position to cough ; whilst at the same time the medical practitioner applies his hand to the rings of the external oblique muscles,—he is then to extend his arms and hands for examination ; to rotate the fore arm ; and to bend and stretch the fingers.

The recruit is next to stand upon one foot and move the ankle joint of each leg alternately, when, if any doubt exist respecting the efficiency of either joint or of any part of the lower limbs, he should be made to hop for a short period on the suspected limb, the size and aspect of which are to be accurately compared with the corresponding joint or part of the opposite limb.

The head of the recruit, including the scalp, ears, eyes, nose, and mouth to be examined ; and it is to be ascertained that he possesses the function of hearing, and the faculty of distinct enunciation.

And lastly. The recruit is to be examined as to his mental faculties—with which object the medical practitioner should invariably ask a few short questions as to the corps the recruit has entered, and the occupation he had previously followed, &c., &c., and should adopt any other suitable means for ascertaining the state of his intellect.

When the examination shall have been completed, if the recruit be approved, the medical practitioner is to fill up and sign the attestation ; as his signature will be considered a guarantee that he had personally examined the recruit in the manner and order here prescribed, and had discovered no defect other than such as he may have specified in the said attestation.

The Surgeon of the Regiment will accompany the Adjutant for the purpose of examining the volunteers at particular places and on particular days, to be appointed by the Commanding Officer ; and will be then allowed a daily pay of 15s., with an allowance of 5s. a day to cover the expense of living at an inn, and 2s. a day for forage for a horse, whether his own property or not ; or, if the forage allowance be not drawn, the actual expense of travelling by railway ; or when such conveyance is not available, an allowance by road of 9d. a mile. He will be allowed 15s. a day pay, only for the days he may be employed examining volunteers at head-quarters, if he examine more than five ; if only five or less be examined in one day, he will be allowed 2s. 6d. for each. A Surgeon in the receipt of a reduced allowance will, whilst employed on this duty, be allowed the difference only between such allowance and 15s. a day.

DAILY PAY—When training :—Surgeon—Infantry, 11s. 4d. ; Artillery, 11s. 4d. Assistant-Surgeon—Infantry, 7s. 6d. ; Artillery, 7s. 6d.

The allowance to the Surgeon for medicines will be at the rate of one guinea for every 100 rank and file effective at the training, whether for 21, 28, or 56 days, and for any excess above an even 100, the following rates will be admitted :—

			£	s.	d.
For 25 effective Rank and File, and under	-	-	0	5	0
„ 26 to 50	„	„	-	0	10 0
„ 51 to 75	„	„	-	0	15 0
„ 76 to 100	„	„	-	1	1 0

The Surgeon cannot be allowed training pay after the termination of the training, but the cases of men who from severe sickness may be detained under medical care at head-quarters, after the period of training has expired, may be reported to the Secretary-at-War for consideration, with a view to repayment of expenses necessarily incurred for medicines and attendance.

Medical Officers of Militia Corps requiring instruction upon matters of a purely professional nature will communicate direct with the Director-General of the Army Ordnance Medical Department; and, at the termination of each training period, a return in duplicate should be furnished to the Secretary-at-War, showing the total number of sick during the period.

#### ALLOWANCE FOR MEDICINE AND ATTENDANCE.

An allowance of 2d. per week for the Adjutant and for each of the Non-commissioned Officers and Drummers on the disembodied staff at head-quarters, and for each of their wives and children, is granted for the expense of necessary medicine and attendance, supplied to the said Adjutant, Non-commissioned Officers and Drummers and their families, while not called out for training and exercise. The item becomes a charge in the Adjutant's annual pay list, and must be vouched by his certificate of the actual number of persons for whom the allowance is strictly chargeable, and by the receipt of the Surgeon, or other medical practitioner who shall attend the staff.

The Surgeon, when not in receipt of training pay, will also be allowed 2s. 6d. for examining each Serjeant discharged on account of medical unfitness, and for each Serjeant or Drummer, when necessarily examined on appointment to the permanent staff.

#### PRIVATE MEDICAL PRACTITIONERS.

The fees payable to private medical practitioners for volunteers examined, whether approved or rejected, are to be vouched by a certified statement of the names of the volunteers, the dates on which they were examined, and by the receipt of the private practitioner.

#### SICK MEN.

Men taken seriously ill during the period of training may be sent for treatment into military hospitals, if practicable, the cases being immediately reported to the Director-General of the Army and Ordnance Medical Department.

#### PAYMENT TO CIVIL PRACTITIONERS FOR MILITARY ATTENDANCE.

Article 299 of the Pay Warrant states :—When a Detachment of our army shall be without a Surgeon or Assistant Surgeon, and not within reach of any Military Medical Officer, a Private Practitioner may be engaged by the Commanding Officer of the Detachment, at the undermentioned weekly rates for each person belonging to the Detachment, including any other Military Parties at the same Station.

	If Medicine supplied.	Without Medicine.
For each person up to 50 inclusive,	2d.	1½d
For each person over 50 in addition	1½d.	1d.

All charges for these allowances are to be settled quarterly, if the Practitioner shall have the medical charge during the entire quarter, or immediately on the termination of the service, if during less than a quarter.

When the payment to a Civilian amounts to two pounds or more, his receipt for the same is required to be given on duly stamped paper.

## CERTIFYING FACTORY SURGEONS IN IRELAND.

### QUALIFICATIONS, APPOINTMENT, AND FEES.

The Certifying Surgeons are appointed by the Chief Inspector, Whitehall, London, who has "power to appoint a sufficient Number of Persons practising Surgery or Medicine to be Certifying Surgeons, for the purpose of examining Persons who shall be brought before them to obtain the Surgical Certificates of age required by the Factory Act and by this Act, and of giving the said Certificates, and shall from Time to Time make Regulations for their Guidance, and shall in every such Appointment specify the Factories or District for which each Surgeon is appointed, and may from Time to Time annul any such Appointment, and in like Manner make another or others; but every Appointment of a Certifying Surgeon, and every Order annulling such Appointment, may be revoked by the Secretary of State, on Appeal made to him for either purpose; the Fees for which are paid by the Factory Proprietor or Mill Owner by Annual Arrangement."

And it is enacted, "That an Inspector shall fix the Amount of Fees to be paid by the Occupier of a Factory, and the Times when such Fees shall be paid

to the Certifying Surgeon, and also the Times when such Certifying Surgeon shall visit a Factory, provided he shall be required to fix such Fees and Visits by the Occupier of a Factory."

The Inspection of Accidents, occurring in Factories, by the Certifying Surgeons, is paid for by Government, by Fees not to exceed Ten Shillings each.

#### SCALE OF FEES FOR INVESTIGATING AND REPORTING ACCIDENTS SANCTIONED BY THE HOME SECRETARY.

- 1.—For the examinations and report on any Accident which do not require the Surgeon to travel a greater distance than one mile—a Fee of Three Shillings.
- 2.—For the examinations and report on any Accident which may require the Surgeon to travel a greater distance than one mile, and not more than two miles—Four Shillings.
- 3.—For the examinations and report on any Accident which may require the Surgeon to travel a greater distance than two, and not more than three miles—Five Shillings.
- 4.—If any examination or report shall require a Surgeon to travel a greater distance than three miles, he shall be allowed a further sum of Sixpence for each half-mile that such distance shall exceed three miles.
- 5.—In any intricate case, or when any peculiar circumstances shall arise, either in making the enquiry, or framing the report, the Inspectors may recommend a higher Fee than those stated above, so that no Fee exceeding Ten Shillings be assigned for one Accident, and provided the reason for recommending such higher Fee be stated by the Inspector.

## INSPECTION OF SEAMEN.

## MEDICAL MERCHANT SHIPPING ACT, 1867.

*Medical Inspection of Seamen.*

1. The Medical Inspection of Seamen is regulated by section 10 of "The Merchant Shipping Act, 1867." By this section it is provided that the under-mentioned rules shall be observed:—

- "(1.) At any Port where there is a Local Marine Board, the Local Marine Board, and at other Ports in the United Kingdom, the Board of Trade, may appoint a Medical Inspector of Seamen :
- "(2.) Such Medical Inspector of Seamen shall, on application by the Owner or Master of any Ship, examine any Seaman applying for Employment in such Ship, and shall give to the Superintendent of the Mercantile Marine Office a Report under his Hand stating whether such Seaman is in a fit state for duty at Sea, and a Copy of such Report shall be given to the Master or Owner of the Ship :
- "(3.) The Master or Owner applying for such Inspection shall pay to the Superintendent such Fees as the Board of Trade direct, and such Fees shall be paid into and form part of the Mercantile Marine Fund :
- "(4.) The said Medical Inspectors shall be remunerated for their Services as the Board of Trade may direct, and such remuneration shall be paid out of the Mercantile Marine Fund."

The following Degrees and Licences in Medicine and Surgery are granted by the University of Dublin:—

1. Bachelor in Medicine. 2. Doctor in Medicine. 3. Master in Surgery.
4. Licentiate in Medicine. 5. Licentiate in Surgery.

*Matriculation.*

Every student must be matriculated by the senior lecturer, for which a fee of five shillings is payable; but he need not have his name on the College books, or attend any of the academical duties, unless he desire to obtain a Licence or Degree in Medicine or Surgery. No student can be admitted for the Winter Courses after the 25th of November.

*Qualifications for Degrees and Licences.**Bachelor in Medicine.*

Candidates must be graduates in Arts, and may obtain the degrees at the same commencements as the B.A., or at any subsequent one. The medical education of a Bachelor in Medicine is of four years' duration, and comprises the following lectures:—

*Winter Courses.*—Anatomy and Physiology—Practical Anatomy, with Dissections—Surgery—Chemistry—Practice of Medicine—Midwifery.

*Summer Courses.*—Botany—Materia Medica and Pharmacy—Institutes of Medicine—Medical Jurisprudence.

Hospital attendance on a Medico-Chirurgical Hospital during nine months, with three consecutive courses of clinical lectures. Also nine months' additional attendance on a recognised hospital, and Practical Midwifery.

Any of the courses may be attended at any recognised medical school, and three of them at Edinburgh University, provided the candidates have kept an Annus Medicus in the School of Physic.

The schools recognised are—1. The School of the Royal College of Surgeons in Ireland. 2. The Carmichael School. 3. The School of Steevens's Hospital. 4. The Ledwich School. 5. The Cecilia-street, School.

The fee for the *Licent ad Examinandum* is £5.

The fee for the degree of M.B. is £11.

*Doctor in Medicine.*

A doctor in medicine must be M.B. of at least three years' standing, and requires no other qualification.

Total fees for this degree, £13.

*Master in Surgery.*

This degree can only be obtained by Bachelors of Arts. The curriculum is the same as that for the Licentiate in Surgery, as given below.

Total amount of fees for the degree of Ch.M., £16.

*Licentiate in Medicine.*

Candidates for the Licence in Medicine and Surgery must be matriculated in Medicine, and must have completed four years in medical studies, and must pass an examination in Arts, including Greek, Latin, English, and Mathematics,

unless they be students in the Senior Freshman, or some higher class. The medical course necessary for a Licence in Medicine is the same as for the degree of M.B. A fee of £5 is charged on taking the Licence. Licentiates in Surgery of the Royal Colleges of Surgeons, on passing the Art Examination, will be admitted to examination for the Licence in Medicine. Such candidates will be exempted from examination in Anatomy and Surgery; Fee for the *Licent ad Examinandum*, £5. Fee for the Licence in Medicine, £5.

*Licentiate in Surgery.*

Candidates must have kept one full year in Arts, and will be required to perform surgical operations on the dead subject. The curriculum extends over four years, and is as follows:—Two courses each of Anatomy and Physiology, and Theory and Practice of Surgery; three courses of Demonstrations and Dissections; and one course of each Practice of Medicine, Chemistry, *Materia Medica*, Midwifery, Laboratory Chemistry, Botany, and Medical Jurisprudence. Also attendance for three Sessions, each of nine months, on a recognised hospital. Of the course of lectures, which are of six months' duration, not more than three can be attended during any one session. Any of the above-named courses may be attended at any of the medical schools at Dublin, provided the candidate has kept an *Annus Medicus*. A fee of £5 is charged for the licence, and £5 for the *Licent*.

MEDICAL SCHOLARSHIPS.

Two medical scholarships are given annually, value 20*l.* per annum each, tenable for two years, the examinations for which are held each year in June, in the following subjects:—Anatomy, Physiology, Chemistry, *Materia Medica*, and Botany.

*Medical School Exhibitions.*

The professors of the University school give three exhibitions annually: two senior, value 15*l.* and 10*l.*, open to all students who have been three years attending the school. The subjects being—Practice of Medicine, Surgery, Pathology, and Forensic Medicine.

One junior, value 15*l.*—the time and subjects of examination being the same as those for the medical scholarship.

Expense of obtaining the degree of Bachelor in Medicine and Master in Surgery in the University of Dublin:—Lectures, 49*l.* 7*s.*; Hospitals, 28*l.* 7*s.*; Degree Fees, 32*l.* = 109*l.* 14*s.*; Private Tuition, say 20*l.*; Total 129*l.* 14*s.*

N.B.—As no degrees in Medicine or Surgery are conferred except upon graduates in Arts, the expense of the degree of Bachelor in Arts, amounting altogether to 83*l.* 4*s.*, should be added to the foregoing, making the total cost something over 200*l.*

The Board of Trinity College have recently passed orders:—1. That three-fourths of the courses of lectures must be in all cases attended. 2. That the system of perpetual pupils be abolished. 3. That a daily roll be called by each Professor. 4. Students in Arts shall be entitled to attend one course in Botany, and to receive a certificate free of charge. 5. Candidates for degrees and licences in Surgery shall be required to attend one course only on Anatomy, for which he shall be charged three guineas. 6. The two courses delivered by the Professor of Surgery shall include practical instruction in Operative Surgery on the dead subject: and for each the professor shall charge four guineas. 7. The professor shall charge three guineas for the winter lecture in Chemistry. 8. Laboratory instruction shall be substituted for the second course of chemistry, hitherto delivered, for which the Professor of Chemistry shall charge five guineas. 9. Students in Arts may attend the Professors of Surgery and Chemistry, and to receive certificates on payment of half the fees. 10. That after Shrovetide, 1868, all candidates in Medicine shall produce certificates in practical Midwifery, including at least six deliveries.

That Candidates for the degree of Bachelor in Medicine shall be in future required to produce a certificate of actual attendance upon cases of Fever in addition to the usual certificates of general attendance upon hospital practice, Such certificate to be signed by the Clinical Physician under whose superintendence the student took charge of the cases, and to contain the names, hospital number or initials, dates and nature of Fever of the Surgical Cases.

## QUEEN'S UNIVERSITY IN IRELAND.

*Chancellor*, Right Hon. the Marquis of Kildare.  
*Vice-Chancellor*, Sir Dominic Corrigan, Bart., M.D.  
*Secretary*, G. J. Stoney, Esq., M.A., F.R.S.  
*Assistant-Secretary*, R. Owen O'Connor, B.A.  
*Clerk*, William P. North, Esq.  
*Clerk of Convoc.*, James Wilson, Esq., M.A., LL.B.

By Letters Patent, dated the 15th August, 1850, the Queen founded a University, to be called "The Queen's University in Ireland," with powers which have since been enlarged by a further Charter. The Colleges of the University are those founded under the Colleges Act of 1845 (see "Queen's Colleges"). The University Corporation consists of the Chancellor, Senators, Secretary, the Professors of the Queen's Colleges, the Graduates of the University, and the Matriculated Students attending the Queen's Colleges. The government of the University is vested in a Senate consisting of the Chancellor and Senators—the Senators not to exceed twenty-four in number. The Presidents of the Queen's Colleges are ex-officio Senators—six Senators are elected by Convocation, and the rest nominated by the Crown. Convocation consists of the Chancellor, Senators, Secretary, Professors, and Registered Graduates of two years' standing and upwards.

#### DEGREES OF M.D. AND M. CH.

Students intending to proceed to the Degree of M.D. or M. Ch. in the Queen's University in Ireland must enter their names with the Registrar, and pay to the Bursar the College and Class Fees. They must pass a Matriculation Examination in the English, Latin, and Greek Languages, and the Elements of History and Mathematics.

The General Matriculation Examination takes place at the commencement of the first term of the Session. The names of the Students who have passed the Examination are declared on the following day; and the fees are returned to those students who have not passed the Examination.

There is an additional Matriculation Examination early in November, for those students who have not presented themselves at, or passed, the General Matriculation Examination.

They must pursue the following Courses of Study, as prescribed by the Queen's University in Ireland.

REGULATIONS OF THE QUEEN'S UNIVERSITY FOR THE DEGREES OF M.D.  
AND M.CH., AND DIPLOMA IN MIDWIFERY.

Each candidate for the Degree of Doctor in Medicine or Master in Surgery is required—

1. To have passed in one of the Colleges of the Queen's University, the entrance Examination in Arts, and to have been admitted a Matriculated student of the University.

2. To have attended, in one of the Queen's Colleges, lectures on one Modern Continental Language for six months, and lectures on Natural Philosophy for six months.

3. To have also attended, in some one of the Queen's Colleges, at least two of the courses of Lectures marked with an asterisk in the list below. For the remainder of the courses, authenticated certificates will be received from the Professors or Lecturers in Universities, Colleges, or Schools recognised by the Senate of the Queen's University in Ireland.

4. To pass two University Examinations—the first University Examination and the Degree Examination.

The Curriculum shall extend over at least four years, and shall be divided into periods of at least two years each.

Candidates are recommended to pass the Matriculation Examination prior to entering on the second period.

It is recommended that the first period shall comprise attendance on the following courses of Medical Lectures:—

- \* Chemistry.
- \* Botany with Herboreations for practical study and Zoology.
- \* Anatomy and Physiology.
- \* Practical Anatomy.
- \* Materia Medica and Pharmacy.

And that the second period shall comprise attendance on the following courses of Medical Lectures:—

- Anatomy and Physiology (second course).
- Practical Anatomy (second course).
- \* Theory and Practice of Surgery.
- \* Midwifery,
- † Theory and Practice of Medicine.
- † Medical Jurisprudence.

In addition to the above courses of lectures, Candidates shall have attended, during either the first or second period—

A Modern Continental Language (in one of the Colleges of the University).

Experimental Physics (in one of the Colleges of the University).

Also, during the first period:—

Practical Chemistry (in a recognised Laboratory).

Medico-Chirurgical Hospital (recognised by the Senate), containing at least sixty beds; together with the Clinical lectures therein delivered, at least two each week—a Winter Session of six months.

And during the second period :—

Practical Midwifery at a recognised Midwifery Hospital, with the Clinical lectures therein delivered, for a period of three months; or of having attended a Midwifery Dispensary for the same period, or of having attended ten cases of Labour, under the Superintendence of the Medical Officer of any Hospital or Dispensary where cases of Labour are treated.

Medico-Chirurgical Hospital (recognised by the Senate), containing at least sixty beds; together with the Clinical lectures therein delivered—eighteen months, including either three Winter Sessions of six months each, or two Winter Sessions of six months each, and two Summer Sessions of three months each.

Medical Examinations are held in June, and in September and October.

#### THE FIRST UNIVERSITY EXAMINATION IN MEDICINE.

It is competent for students to present themselves for the first University Examination at the termination of the first period of the Curriculum, or at any subsequent period.

Before being admitted to Examination, each Candidate must produce satisfactory evidence of having completed the course recommended for study during the first period of the Curriculum.

The first University Examination comprises the subjects recommended for study during the first Period of the Curriculum, along with which any Candidate may present himself for Examination in Experimental Physics and Modern Languages, if he have already attended in one of the Queen's Colleges the prescribed Courses on those subjects.

English Composition forms a part of all University Examinations.

#### DEGREE EXAMINATION IN MEDICINE.

Each Candidate for the Degree of M.D. or M. Ch. must be recommended by the President of his College, and produce certificates to the following effect :—

1. A Certificate from the Secretary of the Queen's University that he has passed the previous Examination, unless the Candidate presents himself for both Examinations simultaneously.

2. From the Council of his College, that he has passed a full Examination in the subjects of study prescribed in the entrance course of the Faculty of Arts, and has been admitted a Matriculated Student in the Faculty of Medicine.

3. That he has attended in the Colleges of the Queen's University two of the courses marked with an asterisk Lectures on one Modern Language, and Lectures on Experimental Physics.

4. Certificates that he has completed all other prescribed Courses.

The Examination for the Degree of M.D. comprises the subjects recommended for study during the second period of Medical Education, along with Experimental Physics and one Modern Language, unless an Examination in these subjects has been already passed at the previous Medical Examination.

The Examination for the Degree of M. Ch. comprises in addition, an Examination in Operative Surgery.

The Examination for the Diploma in Midwifery comprises an Oral Examination in the Practice of Midwifery and the use of obstetrical instruments and appliances, in addition to the Examination for the Degree of M.D.

After the 31st of December, 1872, no Medical Candidate will be allowed to postpone his First University Examination until the time when he presents himself for his Degree Examination, unless the Senate shall have passed a grace giving him permission to do so.

*Information as to Medico-Educational arrangements in connexion with the University and the Regulations common to all the Queen's Colleges, will be found under the heading of the Queen's College, Belfast, Dublin, and Cork.*

### STUDENTS.

Students are either Matriculated or Non-Matriculated.

Matriculated Students are required to pass an entrance or Matriculation Examination, and to pursue fixed courses of study.

Non-Matriculated are permitted to attend the Lectures of any of the Professors without being required to pass the Matriculation or any other Examination.

---

### MATRICULATION.

Candidates for Degrees or Diplomas, or for Scholarships, Exhibitions, or Prizes, are required to pass a Matriculation Examination.

Students are admitted by examination to Matriculation in the Faculty of Medicine. In each Faculty and School special courses are prescribed for examination.

---

### MATRICULATION EXAMINATION.

The General Matriculation Examination will commence on *Friday, the 18th of October, 1872.*

The subjects in which Candidates will be examined are these :—

#### FOR THE FACULTIES OF ARTS, MEDICINE, AND LAW.

Algebra—Explanation of the signs and meaning of an Index. Calculation of the values of Algebraical Expressions, when particular values are given to the letters which they involve.

Euclid—Books I. and II., with the Definitions and Axioms.

The Matriculation Examination is held at the commencement of the first Term of each Session ; but additional Matriculation Examinations are held before the close of the Term.

The last Matriculation Examination for Students in the Faculty of Medicine is held on the 16th of November.

Candidates for Matriculation are required to appear in the Registrar's office before the Matriculation Examination, for the purpose of entering their names on the College books.

Each Candidate, before being admitted to the Matriculation Examination, is required to pay to the Bursar the Matriculation and College fee of ten shillings. This fee will be returned to such students as may fail to pass the Examination.

Students who have pursued part of their studies in one of the Queen's Colleges, or in any University capable of granting Degrees in the Faculties of Art, Law, and Medicine, are permitted, on producing testimonials of their College standing and conduct, to take corresponding rank in one of the Queen's Colleges, and to compete for Scholarships of the corresponding year; provided that they shall not hold at the same time a Scholarship, or any other office of emolument, in any other University or College.

#### MEDICAL SCHOLARSHIPS.

Of the Eight Junior Scholarships appropriated to students in the Faculty of Medicine—

Two	will be awarded to students commencing the First year of their course.
Two	“ “ “ “ Second year.
Two	“ “ “ “ Third year.
Two	“ “ “ “ Fourth year.

The examinations for Junior Scholarships of the Second and Third years in the Faculty of Medicine take place in the commencement of the Second and Third years of the course prescribed to students in Medicine. Candidates must be Matriculated before they can compete.

Matriculated Students in Medicine intending to compete for Medical Scholarships of the Second year must be of not more than one year's standing, and must have attended in some one of the Queen's Colleges, or in a University capable of granting degrees in Medicine, two, at least, of the following courses, viz. :—Chemistry—Botany and Zoology—Anatomy and Physiology—Materia Medica and Pharmacy—Practical Chemistry—Practical Anatomy.

Matriculated Students in Medicine intending to compete for Medical Scholarships of the Third year must be of two years' standing, and not more, and must have attended in some one of the Queen's Colleges, or in a University capable of granting degrees in Medicine, four, at least, of the following courses, viz. :—Chemistry—Botany and Zoology—Anatomy and Physiology—Materia Medica and Pharmacy—Practical Chemistry—Practical Anatomy.

Matriculated Students in Medicine intending to compete for Medical Scholarships of the Fourth year must be of three years' standing, and not more, and must, in addition to the qualifications prescribed in the preceding paragraph, have attended in their Third year two, at least, of the following courses, viz. :—Theory and Practice of Medicine—Theory and Practice of Surgery—Midwifery and Diseases of Women and Children.

To acquire a year's Collegiate standing, the student, whether Matriculated or Non-Matriculated, must attend in that year at least two of the Medical classes above mentioned.

Junior Scholars in the Faculty of Medicine of the First and Second years must respectively attend, during the year of their Scholarship, two, at least, of the following courses, viz. :—Chemistry—Botany and Zoology—Anatomy and Physiology—Materia Medica and Pharmacy—Practical Chemistry—Practical Anatomy.

Junior Scholars in the Faculty of Medicine of the Third and Fourth years must respectively attend, during the year of their Scholarships, two, at least,

of the following courses, viz. :—Theory and Practice of Medicine—Theory and Practice of Surgery—Midwifery and Diseases of Women and Children—Medical Jurisprudence.

SUBJECTS OF EXAMINATION.

*First Year.*

Days of Examination the same as for the Literary and Science Scholarships of the First Year.

For one Scholarship, the Course prescribed for the Literary Scholars of the First Year in the Faculty of Arts.

For the other Scholarship, the Course prescribed for Science Scholarships of the First Year in the Faculty of Arts.

If, at either of these examinations, a competent Candidate should not present himself, the Scholarship assigned to that department may be awarded to the other department, if there be two duly qualified Candidates.

---

*Second Year.*

Anatomy and Physiology. Chemistry. Botany, or Zoology.

---

*Third Year.*

Anatomy and Physiology. Practical Chemistry—Candidates will be required to perform qualitative analysis. Materia Medica.

---

*Fourth Year.*

For the Scholarship in Anatomy and Physiology.

Anatomy and Physiology. Surgical Anatomy.

For the Scholarship in Therapeutics and Pathology.

Practice of Medicine, including Medical Pathology. Practice of Midwifery. Medical Jurisprudence.

---

ATTENDANCE ON LECTURES.

Attendance upon Lectures is strictly prescribed to all Matriculated Students.

All Students shall pay the College Fee, and a moiety of their Class Fees, to the Bursar, and enter their names with the Registrar, before they are admitted to the classes of the several Professors.

The Registrar shall furnish to the Professors, before the commencement of Lectures in each Term, the rolls of their several classes, and from time to time such names as shall be afterwards entered with him.

No Student shall have his name replaced on the rolls of the Professors at the commencement of the second Term who has not paid the second moiety of his Class Fees.

Attendance on Lectures includes preparation for Lectures; and it is competent for a Professor who, on any occasion, is not satisfied with the preparation of a Student, to refuse him credit for attendance.

Attendance upon Courses of Lectures in the Faculty of Arts is recognised in cases where Students pass to a different Faculty or School.

In case of absence arising from illness or other unavoidable cause, the Student is required to lodge with the Registrar, immediately on recommencing his attendance, a letter or certificate explaining his absence, to be laid before the Council.

---

#### EXAMINATIONS.

Junior Scholars are exempted from the payment of one moiety of the *Class Fees* for the courses prescribed to Students of their faculty and standing.

No Student can hold the same Scholarship a second time.

No Scholarship will in any case be awarded unless the Candidates are, in the opinion of the Examiners, sufficiently qualified in the prescribed courses.

---

#### EXHIBITIONS.

The College is empowered to award Exhibitions, varying in value from £10 to £20, at the same Examinations as the Scholarships, and to be held upon the same terms.

Exhibitioners are required to pay the whole amount of the *Class Fees* for the Session.

No Student is allowed to compete for a Junior Scholarship or Exhibition in any course substantially the same as that in which he has already held a Scholarship or Exhibition.

All Junior Scholars and Exhibitioners are required to attend lectures, and pass the Sessional Examinations during their year of office.

---

#### PRIZES.

The College is empowered to award Prizes, by examination, at the close of the Session, to the most distinguished answerers in the several courses of study pursued during the Session.

Two prizes for English prose composition, and two prizes for Geometry, \* have been founded in the College, to be awarded annually at entrance:—first prize for English prose composition, £3 worth of books; second do., £2 worth of books: first prize for Geometry, £3 worth of books; second do., £2 worth of books.

All Candidates for Scholarships, Exhibitions, or Prizes, must have passed the Matriculation Examination in the Faculty or School to which the Scholarships, Exhibitions, or Prizes are attached.

\* Candidates are recommended to read M'Dowell's Exercises in Euclid and in Modern Geometry (Cambridge: Deighton, Bell, and Co., 1863), from beginning to page 150.

---

#### NON-MATRICULATED STUDENTS.

Non-Matriculated Students are those who are permitted to attend the Lectures of any of the Professors without being required to pass the Matriculation or any other examination. They are required to pay to the Bursar the regulated Fees for the Classes proposed to be attended, and to sign an engagement to observe order and discipline in the College. They are not entitled to compete for Scholarships or other Collegiate distinctions.

During the term of their attendance on College Lectures they are admitted to read in the Library ; and, on payment of a deposit of £1, are permitted to take out two volumes on loan, under the same regulations as Matriculated Students.

Every Non-Matriculated Student must pay to the Bursar one-half of his Class Fees before his name can be entered on the rolls of the several Classes, and the remainder at the commencement of the second Term.

---

#### FEES.

The College Fees payable by Matriculated Students are 10s. at the commencement of the first year, and 5s. at the commencement of each subsequent year.

The Fees payable by Students, whether Matriculated, or Non-Matriculated, to the several Professors for attendance on the several Pass Courses of Lectures or instruction are £1 for each Course, extending over one Term only, and £2 for each Course, extending over more than one Term of a Session, when attended for the first time, and £1 for each re-attendance on the same.

This rule applies in all cases except the following :—

The Fee payable for the Course of Anatomy and Physiology is £3, when attended for the first time, and £2 for every subsequent attendance ; and the Fee payable for Practical Anatomy or Practical Chemistry is £3 for each attendance.

The Fees payable for attendance upon Honor Courses of Lectures and upon Courses of Special Instruction not prescribed as a qualification for a Degree or other University distinction, are £2 for each Course, whether attended for the first time or re-attended.

This rule does not apply to special instruction in Practical Chemistry and in Operative Surgery. In the former case, the Fee is regulated by the time spent in the laboratory, at the rate of £1 a month. The Fee for Operative Surgery is £3.

Matriculated Students who attend voluntary Courses are, so far as these Courses are concerned, regarded as Non-Matriculated.

---

The Latin course is as follows :—

Virgil.—Æneid, Books I.-V.

Sallust.—Conspiracy of Catiline, and Jugurthine War. Caesar, Gallic War, Books V. and VI.

### SESSIONAL EXAMINATIONS.

With the view of still further developing the system of Sessional Examinations heretofore in force in this College, the Council have adopted the following ordinances:—

That all students who shall have commenced their professional studies on or after the First day of October, 1871, shall be required, in order to entitle them to the Letters Testimonial to this College, to produce satisfactory evidence of having passed the Sessional Examinations hereinafter provided; unless in such cases as those in which the Council may see fit to admit such students to an examination, under such special conditions as heretofore have been in force. Students who have commenced their professional studies previous to the 1st of October, 1871, will also be permitted, should they so wish it, to avail themselves of these Sessional Examinations for the purpose of obtaining their Letters Testimonial.

These Sessional Examinations shall be three in number, and shall be held in the following order, three times in each year, at such stated periods as the Council may hereafter from time to time appoint.

- (a.) The First Examination for Students who have completed their Second Summer Session of medical study.
- (b.) The Second Examination for Students who have completed their Third Summer Session of medical study.
- (c.) The Pass Examination for Students who have completed their Fourth Summer Session of medical study.

No student shall be permitted to proceed to either the Second or Pass Examinations without having produced evidence of having passed the preceding examination.

## THE FIRST EXAMINATION.

For this examination the candidate shall be required to produce the following certificates :—

(a) Preliminary Examination ; (b) Practical Anatomy, with demonstrations and dissections, two winter sessions ; (c) Physiology, two courses ; (d) Theoretical Chemistry, one course ; (e) Practical Chemistry, one course ; (f) Materia Medica, one course ; (g) Botany, one course ; (h) Surgery, one course ; (i) Hospital attendance, eighteen months (comprising two winter sessions of six months, and two summer sessions of three months).

*Subjects for Examination.*

- a. Anatomy (bones, muscles, articulations, Descriptive Anatomy of the chest, abdomen, urinary, and genital organs).
- b. Chemistry (chemistry and physics as applied to pharmacy and medicine).
- c. Materia Medica and Pharmacy (not including Therapeutics).
- d. Fractures and Dislocations.

Fees for this examination : £5 5s. for Registration, and £5 5s. for Examination.

## THE SECOND EXAMINATION.

For this examination the candidate shall be required to produce the following certificates, in addition to those necessary for the First Examination :—

(a) Certificate of having passed the First Examination ; (b) Physiology, one course ; (c) Practical Anatomy, with demonstrations and dissections, one course ; (d) Surgery, one course ; (e) Practice of Medicine, one course ; (f) Hospital attendance, nine months (comprising one winter session of six months, and one summer session of three months).

*Subjects for Examination.*

- a. Anatomy (Regional and Surgical).
- b. Physiology and Histology
- c. Surgery.
- d. Medicine.

Fee for this examination, £5 5s.

*Conduct of the First and of the Second Examinations.*

Each of these two examinations shall occupy two days. The first of which two days shall be devoted to the writing of answers to written or printed questions, and the second to *viva voce* examination. For the written examination four hours shall be allowed—two in the forenoon and two in the afternoon ; but any candidate shall be permitted to retire from the Hall on completing his papers, and handing them to the examiner ; and at the Second Examination the description of anatomical specimens and of microscopic preparations shall form part of the written examination. The *viva voce* Examinations shall commence on the day following the written examinations, and shall be continued as may be necessary from day to day for two hours in the forenoon and two in the afternoon—each candidate being submitted to one hour's examination, at least.

## THE PASS EXAMINATION.

For this examination the candidate will be required to produce in addition to those necessary for the preceding examinations, the following certificates :—

(a) Certificate of having passed the First and Second Examinations ; (b) Surgery, one course ; (c) Midwifery, one course ; (d) Medical Jurisprudence, one course.

*Subjects for Examination.*

- a. Clinical Examination.
- b. Surgical Operations.
- c. Surgical Appliances.
- d. Therapeutics (including Prescription writing).
- e. Medical Jurisprudence.

This examination shall occupy two days, the first of which shall be devoted to Clinical Examinations, to Operative Surgery, and to Surgical Appliances. The second to Therapeutics and to Medical Jurisprudence.

*Conduct of Examination.*

The forenoon of the first day shall be devoted to Clinical Examination, and the afternoon to Operative Surgery and to Surgical Appliances. The Clinical Examination shall be a *bona fide* one, at the bedside of a patient or patients, in some one or other of our city hospitals, such hospital to be allotted to each candidate by ballot. For this purpose the candidates shall attend at the College half an hour before the time fixed for the examination, when they shall be directed to the Hospital to which they shall have been allotted, and shall proceed thither at once to meet the examiner, and the coucillor appointed for that duty.

On the afternoon of the same day the examination in Operative Surgery and Surgical Appliances shall take place in the College, and not less than two operations and three surgical appliances shall form the subjects of examination for each candidate.

The second day of the Pass Examination shall be devoted to Therapeutic and to Medical Jurisprudence; and each candidate shall be examined for one hour.

Fee for this Examination, £10 10s.

**MIDWIFERY EXAMINATION.**

Examinations upon this subject will be held at such stated periods as the Council shall, either now or hereafter, from time to time appoint. To this examination none other than Licentiates or Fellows of the College shall be admitted. For admission to this examination the Candidate will be required to produce in addition to his Letters Testimonial or Fellowship of the College, the following certificates:—(a) A certificate showing that he has attended during a period of six months the practice of a Lying-in Hospital recognised by the Council; or the practice of a Dispensary for Lying-in Women and Children recognised by the Council and devoted to this branch of Surgery alone. (b) A certificate showing that he has conducted at least thirty cases of labour.

*Subjects for Examination.*

- a. The organisation of the Female.
- b. The growth and peculiarities of the Fœtus.
- c. The Practice of Midwifery.
- d. The Diseases of Women and Children.

*Fees to be paid by Candidates for the Diploma in Midwifery.*

The Candidate shall pay no extra fee for this Examination or for the diploma, provided he takes it out within \_\_\_\_\_ months from the date of his Letters Testimonial; after that date the fee shall be Two Guineas.

**GENERAL RULES.**

At the conclusion of each of these several examinations, the candidate shall be informed of the result by letter, forwarded to him by post or otherwise, as may seem to the Council for the time being most expedient.

Any candidate to whom the Council may grant a special examination, will be required to pay, in addition to the foregoing fees, a sum of Five Guineas.

Each candidate rejected at any of these examinations, seeking re-examination, shall pay for such re-examination a fee, additional to that which he has already paid, of Two Guineas.

N.B.—The Council must strongly recommend that the certificates of professional study hereby required should correspond, in their respective dates, with the sequence herein adopted for these Sessional Examinations.

#### *Days of Examination.*

The Sessional Examination for Students who have commenced their Studies since October, 1871, will take place on the first Tuesday in April and July, and the second Tuesday in December.

THE COLLEGE OF PHYSICIANS IN DUBLIN was founded in 1660 by Dr. John STERNE, Fellow and Professor of Physic in Trinity College, Dublin; was incorporated by Royal Charter of KING CHARLES II. A.D., 1667; and re-incorporated by their Majesties KING WILLIAM and QUEEN MARY, A.D. 1692, under the title of "THE KING and QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND."

## REGULATIONS RELATIVE TO THE LICENCE IN MEDICINE.

Examinations for the Licence in Medicine are statedly held on the second Tuesday and Wednesday in each month (except August and September).

The name of every Candidate, together with his Schedule\* and the documents hereafter mentioned, must first be submitted to the College at one of its Meetings. These are held regularly on the first Friday in each month (except August and September), and no name can be received later than the Monday previous to such Meeting. If permission to be examined is granted, the Candidate may present himself at the next Examination, or at a subsequent one; in the latter case, however, he must intimate his intention four clear days before the Examination.

A Candidate who has not, previous to entering his name, obtained any of the Medical or Surgical Qualifications recognised by the College must produce—1. Evidence of having been engaged in the Study of Medicine for four years.

---

\* Blank Schedules are to be obtained on application at the College, or by letter, addressed to the Registrar, College Hall, Kildare-street. It is particularly requested that Candidates applying by letter will state whether they already possess any qualification, as the form of Schedule for those who have, differs from that required to be filled up by those who have not, obtained any Diploma.

2. A Certificate of having passed the Preliminary Examination of one of the recognised Licensing Corporations before the termination of the second year of medical study. 3. Certificates of having studied at a school or schools recognised by the College the following subjects, viz. :—Practical Anatomy; Anatomy and Physiology, or Institutes of Medicine; Botany; Chemistry; Practical Chemistry; Materia Medica; Practise of Medicine and Pathology; Surgery, Midwifery, Medical Jurisprudence. 4. Certificates of having attended a Medico-Chirurgical Hospital in which regular Courses of Clinical Lectures are delivered, together with Clinical Instruction, for twenty-seven months; or such Hospital for eighteen months, with nine months' attendance on a Medical Hospital, and similar courses of Clinical Lectures and Clinical Instruction; the attendance in each case being for not more than nine months in any year—namely, for six winter and three summer months—and the attendance on a Medico-Chirurgical Hospital and Medical Hospital not being taken out in the same year. 5. A certificate of having attended Practical Midwifery for six months at a recognised Lying-in Hospital, or evidence satisfactory to the College in each individual case of having attended Practical Midwifery. 6. Certificates of character from two registered Physicians or Surgeons.

A Candidate who has already obtained a Medical or Surgical Qualification, recognised by the College, is required to fill up a Schedule which will be supplied on application, and to lodge it in the same manner, as a Candidate not previously qualified; but the only documents he is required to produce are his Diploma or Certificate of Registration, Certificate of Practical Midwifery, and Testimonials as to character.

#### EXAMINATION FOR THE LICENCE IN MEDICINE.

The Examination is conducted, first, Clinically; secondly, by printed questions to be answered in writing; and thirdly *viva voce*, and consists of two parts. The subjects of the First Part or previous Examination are Anatomy; Physiology; Botany; Chemistry. The subjects of the Second Part or Final Examination are Materia Medica; Practise of Medicine; Medical Jurisprudence; Midwifery.

Candidates for the Second or Final Examination, are examined in the Practise of Medicine at the bedside, in one of the Hospitals of Dublin. The name of the Hospital selected will not be declared to the Candidate until half-an-hour previous to the time of Examination.

Candidates qualified as follows are required to undergo the *second part* of the professional Examination *only*, viz. :—1. Graduates in Medicine of a University in the United Kingdom, or of any foreign University approved by the College. 2. Fellows, Members, or Licentiates of the Royal College of Physicians of London or Edinburgh, who have been admitted upon Examination. 3. Graduates or Licentiates in Surgery. 4. Candidates who, having completed the Curriculum stated in Nos. 46 and 6 of the Regulations, have passed the Previous Examination of any of the Licensing Corporations in the United Kingdom.

Candidates who are Physicians or Surgeons of five years' standing are further exempted from the Clinical and written portions of the Final Examination.

#### DECLARATION REQUIRED OF CANDIDATES.

"I do hereby solemnly and sincerely promise that I will observe the Statutes and By-laws of this College, and to my power endeavour that the honour of the College be preserved entire; and in all things that belong to honour or the profit thereof, I shall be ready to give my advice and assistance.

"I hereby authorize the President and Fellows of the King and Queen's

College of Physicians in Ireland to erase my name from the list of Licentiates, and I consent to surrender the Diploma received from the College, if I shall, after having obtained the licence of said College, keep open shop for the sale of medicines.

"I engage not to endeavour to obtain practice, or to attract public notice by any unworthy means: I also engage that I will neither permit nor sanction the use of my name by any other person for such purposes, nor in connexion with any secret remedy; and in case of any doubt relative to the true meaning or application of this engagement, I promise to submit to the judgment of the College.

"And I solemnly and sincerely declare, that should I violate any of the conditions specified in this declaration, so long as I shall be either a Licentiate or Fellow of the College, I thereby render myself liable, and shall submit, to censure of the College, or to expulsion and surrendering of the Diploma, whichever the President and Fellows of the College shall think proper to inflict."

#### REGULATIONS RELATIVE TO THE DIPLOMA IN MIDWIFERY.

Examinations for the Diploma in Midwifery are held every month (except August and September), on the day after that on which the Stated Examinations for the Licence in Medicine are held.

A Candidate for the Diploma in Midwifery, who is already a Licentiate of the College, is at liberty to present himself at any of the Examinations, provided he intimates his intention a week previously.

Candidates for the Licence in Midwifery, who are not Members of the College, are required to fill up a Schedule, and apply for permission in the same way as Candidates for the Licence in Medicine, and will be admitted to Examination on the following qualifications:—The Degree or Licence in Medicine or Surgery from any University or College of Physicians or Surgeons in the United Kingdom, together with certificates of having attended a sixth-months' course of lectures on Midwifery, and at least thirty cases of Labour, and certificates of character from two registered practitioners. A declaration similar to that made by the Candidate for the Licence in Medicine is also required from the Candidate for the Licence in Midwifery.

#### FEEES.

Fee for the Licence in Medicine, £15 15s. Fee for the Diploma in Midwifery, £3 3s. Fee for Licence in Medicine, and Diploma in Midwifery, if taken out within an interval of a month, £16.

All Fees should be lodged to the credit of the King and Queen's College of Physicians in the Royal Bank, Foster-place, Dublin, and the receipt given by the Bank deposited at the College a week before the day of Examination. Candidates at a distance may forward the Fee to the Registrar by crossed cheque, payable to the Treasurer of the College.

The Admission Fee, with the exception of £3 3s. deducted to meet the expense of the Examination, may be returned to any Candidate who may be rejected for the Licence in Medicine; and the Admission Fee, with the exception of £1 1s. deducted to meet the expense of the Examination, may be returned to any Candidate for the Licence of Midwifery who may be rejected: and in the case of a rejected Candidate afterwards presenting himself for Examination in Medicine or Midwifery within twelve months, the sum previously deducted of £3 3s. in regard to the Examination in Medicine, or of £1 1s. in regard to the Examination in Midwifery, will be allowed in the Fee paid for such second Examination.

*Representative on Medical Council of Education*—Dr. C. H. LEET.

*Manager*—Mr. W. Webb.

*Chemist*—Mr. C. R. C. Tichborne.

### BY-LAWS AND REGULATIONS.

Every Candidates for the *Licence to practise* is required to undergo a preliminary and a professional education and examination.

#### THE PRELIMINARY EDUCATION AND EXAMINATION IN ARTS.

*Compulsory Subjects.*—English.—Grammar, Composition, Writing from dictation, and History. Arithmetic and Algebra—Arithmetic, including Vulgar and Decimal Fractions; Algebra, including simple equations. Geometry—First Two Books of Euclid. Latin—The Twenty-first Book of Livy, or the first three books of the *Æneid* of Virgil. Greek—The first two Books of the *Anabasis* of Xenophon, or the Ninth Book of the *Iliad* of Homer. French—Charles XII., "*Histoire de Vie.*," of Voltaire, or "*Voyage en Orient*" of Lamartine. German—"Wilhelm Tell," or "*Die Rauber*" of Schiller.

N.B.—Candidates will be examined in either French or German, as they may select.

#### *Optional subjects—*

1. Natural Philosophy—Mechanics, Hydrostatics and Pneumatics.
2. Natural History—The Classification, Elementary Structure, and General Physiology of Vegetables and Animals.

The Arts Examination will be held in the Hall four times in the year, namely, on the third Thursday in the months of January, April, July and October, at the hour of twelve o'clock, noon. It will be conducted by means of printed Papers and *viva voce* by Special Examiners (Graduates in Arts of the University of Dublin,) under the supervision of the Court of Directors; the answers to the Papers will be required in Writing.

Numerical values will be attached to the Answers, and the quality of the Writing and Spelling will be taken into account, and only candidates who obtain a certain proficiency will obtain "*The Certificate in Arts,*" or "*The Certificate of Apprentice.*"

Unsuccessful Candidates will be remitted to their studies for a period of 6 months.

## PROFESSIONAL EDUCATION AND EXAMINATION.

Every Candidate for the Licence to practise must produce certificates to the following effect:—1. Of having passed an examination in Arts previously to entering on professional study. 2. Of being at least twenty-one years of age, and of good moral character. 3. Of Apprenticeship to a qualified Apothecary, or of having been engaged at practical Pharmacy with an Apothecary for a period of three years subsequent to having passed the Examination in Arts. 4. Of having spent four years in professional study. 5. Of having attended the following courses, viz., Chemistry, during one winter session; Anatomy and Physiology, two winter sessions; Demonstrations and Dissections, two winter sessions; Botany and Natural History, one summer session; Practical Chemistry (by daily instruction in a recognised laboratory), three months; Materia Medica, three months; Principles and Practice of Medicine, one winter session; Midwifery and Diseases of Women and Children, six months; Practical Midwifery at a recognised hospital, attendance upon twenty cases; Surgery, one winter session; Forensic Medicine, one summer session; Instruction in the practice of Vaccination. 6. Of having attended, at a recognised Hospital or Hospitals, the Practice of Medicine and Clinical Lectures on Medicine during two winter and two summer sessions; also the practice of Surgery, and Clinical Lectures on Surgery during one winter and one summer session. 7. Of having performed the operation of vaccination successfully under a recognised vaccinator. The Examination for the Licence to practise is divided into two parts. The First comprehends—Chemistry, Botany, Anatomy, Physiology, and Pharmacy. The Second—Medicine, Surgery, Pathology, Therapeutics, Midwifery, Forensic Medicine and Hygiene. The first part may be undergone at the close of the second winter session, and after the candidate has attended the courses upon the several subjects named for this examination, and the second after the completion of his studies at the termination of the Fourth Winter Session. The professional examinations will be held *quarterly*, and will commence on the first and second Mondays in the months of January, April, July, and October. They will be carried on as follows:—The *First Part*, for Junior Students on the First Monday at Twelve o'clock noon; and on the Tuesday and Wednesday succeeding, at the same hour. Subjects:—Chemistry and Botany, *Monday*: Anatomy and Physiology, *Tuesday*: Materia Medica and Pharmacy, *Wednesday*: The *Second Part*, or *Pass Examination* for Senior Students, on the second Monday, at Twelve o'clock noon; and on the Tuesday and Wednesday succeeding at the same hour. On *Thursday*, Clinical Examination. Subject:—Medicine and Surgery, *Monday*: Midwifery, and Diseases of Women and Children, *Tuesday*: Forensic Medicine and Hygiene, *Wednesday*: Clinical Examination, *Thursday*. The first two hours of each day will be devoted to writing Answers to Papers, and afterwards two hours to an oral and practical Examination. Certificates and Diplomas will be granted to the successful Candidates on the Friday following, at 4 o'clock p.m. Candidates who fail to pass the first part of the Professional Examination will be remitted to their studies for three months, and unsuccessful Candidates at the Pass Examination will not be re-admitted until after the expiration of six months. Numerical values will be assigned to the Answers, both written and oral, in the several Examinations, and only candidates who possess a proficiency of Medical knowledge in *all* the subjects will obtain "*The Licence to Practise.*" In case a candidate is rejected for failure in any one subject, he will be re-examined in all.

Doctors of Medicine of any of the Universities of the United Kingdom, and Licentiates of a Royal College of Physicians, or Surgeons of any of the Royal Colleges of Surgeons, whose qualifications as such appear in the Medi-

cal Register, and who, having first passed an examination in Arts, have also served an apprenticeship, or the required term at *practical* Pharmacy, to a qualified Apothecary, may obtain the Licence of the Hall by undergoing an Examination—the former two in Pharmacy,\* and the latter in Medicine and Pharmacy. Licentiates of the London Society of Apothecaries are admitted *ad eundem*.

An *Honor* Examination for Apprentices is held at the Hall in the first week in May annually, upon some subject of Medical or Pharmacutical Chemistry, which is announced by the Council of the Hall at the commencement of the previous Winter Session, and a Prize of Five Guineas is awarded to the successful Competitor.

Candidates for *The Certificate of Assistant* to an Apothecary, in compounding and dispensing medicine, will be examined in the British Pharmacopœia and in *Pharmacy*, scientific and practical, including the history, characters, and qualities of Medicines, with their preparations and doses, and in the translations of Latin Prescriptions. Neither “The Arts’ Certificate,” or “The Certificate of Apprentice” is required for the examination of Assistant, but, in the absence of these Certificates, candidates must present testimonials of good moral character, and a certificate of attendance on Practical Pharmacy.

\* The Examination in Pharmacy will include Practical Pharmacy, Pharmaceutical Chemistry, Toxicology, Medical Botany, and the British Pharmacopœia.

By a Treasury minute of 21st September, 1865, it was determined to convert the Museum of Irish Industry into a College of Science; and a commission, of which the late Earl of Rosse was chairman, was appointed on 10th March, 1866, to advise on its constitution and staff. The College was opened in November, 1868.

The Educational Staff consists of ten Professors and one Laboratory Assistant.

Two at £400 a year each, rising at £20 to £500.

One at £30     „     „     „     „     „

Seven at £200     „     „     „     „     „

One, extra salary as Dean,     £100.

One Assistant in Laboratory, £100, rising £10 a year to £150.

## OFFICIAL REGULATIONS.

THE Royal College of Science supplies, as far as practicable, a complete course of instruction in Science, applicable to the Industrial Arts, especially those which may be classed broadly under the heads of Mining, Agriculture, Engineering, and Manufactures, and is intended to aid in the instruction of Teachers for the local Schools of Science.

### SUBJECTS OF INSTRUCTION.

- |  |  |
|--|--|
| 1. Applied Mathematics.                          | 8. Geology and Palæontology.                 |
| 2. Descriptive Geometry, and Mechanical Drawing. | 9. Mineralogy.                               |
| 3. Mechanism.                                    | 10. Agricultural Science.                    |
| 4. Physics.                                      | 11. Mining.                                  |
| 5. Chemistry, Theoretical and Practical.         | 12. Applied Chemistry, including Metallurgy. |
| 6. Botany.                                       | 13. Machinery.                               |
| 7. Zoology.                                      | 14. Surveying.                               |

Under Applied Mathematics is taken the application of Mathematics to those Sciences which are generally included under the head of Mechanics, viz., Statics, Dynamics, Hydrostatics, and Hydrodynamics, as well as to some other branches of Physics.

Chemistry includes both Lectures and Laboratory practice.

The course of instruction extends over three years, each year being divided into two Terms. In the first two years the instruction is general. In the last year it is specialized under the heads of Mining, Agriculture, Engineering, and Manufactures.

The scheme of Instruction is the following :—

#### FIRST YEAR.

*1st term.*  
Applied Mathematics.  
Physics.  
Descriptive Geometry.  
Geometrical Drawing.

*2nd term.*  
Applied Mathematics.  
Physics.  
Botany.  
Descriptive Geometry.  
Geometrical Drawing.

#### SECOND YEAR.

Applied Mathematics.  
Chemistry (Theoretical).  
Chemistry (Practical)  
Mechanical Drawing.

Applied Mathematics.  
Chemistry (Theoretical).  
Chemistry (Practical).  
Zoology.  
Mechanical Drawing.

Students entering for the Associateship are expected to be acquainted with the first two books of Euclid and the elementary rules of Algebra. Some familiarity with the use of the ordinary drawing instruments is very desirable.

In their first and second years they are required to attend all the courses in the subjects appointed for these years. In their third year they are required to attend all those belonging to any one division, as follows :—

#### THIRD YEAR.

Division A.—*Mining.*  
Geology and Palæontology.  
Mining and Mineralogy.  
Metallurgy and Assaying.  
Mechanism and Machinery.  
Land Surveying.

Students in this Division are required to attend the Lectures of the Professor of Geology, with demonstrations in Palæontology ; also those of the Professors of Mining and Mineralogy, of Mechanism, and of Land Surveying. The Laboratory instruction will comprise a course of Metallurgy and Assaying.

#### Division B.—*Agriculture.*

Geology and Palæontology.  
Agricultural Science.  
Land Surveying.  
Mechanism and Machinery.  
Analysis of Soils and Manures.

Students in this Division are required to attend the courses in Geology and Palæontology ; also the course of the Professor of Agriculture. They likewise receive instruction in Mechanism and Machinery and in Land Surveying, and also Laboratory instruction in the Analysis of Soils and Manures.

#### Division C.—*Engineering.*

Mechanism and Machinery.  
Mechanical Drawing, Engineering, and Surveying.  
Geology and Palæontology.

In this Division the students are required to attend the courses of the Professor of Applied Mathematics, those of the Professor of Descriptive Geometry in Mechanical Drawing, Engineering, and Land Surveying, and that of the Professor of Geology, with demonstrations in Palæontology.

Division D.—*Manufactures.*

Applied Mechanics, and Physics.

Applied Chemistry, and Technical Analysis.

Students in this Division are required to attend the Lectures of the Professor of Applied Mathematics. They are also required to attend the Lectures of the Professor of Applied Chemistry, and to go through a further course of Practical Chemistry.

The instruction given by the Professor of Applied Mathematics and Mechanism is partly of a practical character. The students are exercised in the actual performance of Experiments in Mechanics and Hydrostatics, and they will be afforded opportunities as far as possible for acquainting themselves practically with the use of Tools and Machines.

The Demonstrator in Palæontology gives instruction, during the Second Term of the session, to students of the third year. These demonstrations are also open to any student who is attending, or has during the preceding Session attended, the Lectures either of the Professor of Geology, of Zoology, or of Botany.

A Diploma of Associateship of the College will be given to students who pass in all the subjects of the first two years, and in those of any one division of the third year. They will be required to take the higher Pass, as "Pass with Credit," in the following subjects:—

Division A.

Mining, Geology, Metallurgy.

Division B.

Agriculture, Agricultural Chemistry.

Division C.

Applied Mathematics (one course), Drawing, Engineering.

Division D.

Applied Chemistry, Laboratory Practice.

Students may also enter for the separate courses, and receive Certificates after Examination. A Certificate of Attendance in the Chemical Laboratory is not given for any course less than three months.

There are four Royal Scholarships of £50 yearly each, with free education, tenable for two years; two will become vacant each year. They will be given to students who shall have been a year in the College.

There are also nine royal Exhibitions attached to the College, of £50 each, tenable for three years.

These Scholarships and Exhibitions are tenable only on the condition that the holders shall attend regularly all the Lectures of their respective years. This condition is strictly enforced by the Department. They must also pass the Examinations at the end of the Session.

Students at the conclusion of their first Academic year are examined in the subjects of that year. Prizes are awarded for superior answering in each branch. The award of the Royal Scholarships is made on the result of this examination to those students, not Royal Exhibitioners, who on the whole have answered best, if sufficiently deserving to be recommended for them.

At the conclusion of the second year similar examinations are held and prizes awarded.

A Medal is awarded at the conclusion of the second year to that student who, on the total results of both years, shall have most distinguished himself—if sufficient merit be shown.

At the conclusion of the third year similar examinations are held and prizes awarded.

To candidates for the Associateship whose knowledge of pure Mathematics is not sufficiently advanced, the Professor of Applied Mathematics gives such instruction as is necessary. These lectures may also be attended by other students. Prizes will be awarded for proficiency at the end of the first and second years.

During the Session short courses of evening lectures of a more popular character will be delivered, the particulars respecting which will be duly announced.

The Chemical and Metallurgical Laboratories, under the direction of Professor Galloway, are open every week-day during the Session (except Saturday, and the usual holidays) from 10 A.M. to 4 P.M.

The Library contains carefully selected works relating to the subjects on which instruction is given; it is open to the students, and also to the public under certain restrictions.

The Museum is open to the public on week-days from 11 A.M. to 4 P.M.

The Session commences on the first Monday in October in each year, and lasts until 21st June following, with a vacation of ten days at Christmas, and of a week at Easter.

The First Term commences on the first Monday in October, and the Second Term on the first Monday in February.

The Examinations are held at the close of the Session.

Exhibitioners, Scholars, and Associate Students are required to be in attendance at the College during the entire of each Session, unless exempted by special permission of the Council. All Students attending the Examinations are expected to be in attendance until the results are declared.

The Fees payable are—

£2 for each separate Course of Lectures;

And for Laboratory Practice, £2 per month, £5 for three months, or £12 for the entire Session.

Students entering for the purpose of obtaining the Diploma of Associate, or intending to compete for the Scholarships, pay £10 each year, which will admit them to all the Courses of that year, exclusive of Laboratory—or £25 for the whole Studentship of three years.

The Fees are in all cases payable in advance.

The holders of Royal Scholarships or Royal Exhibitions pay no Fees.

## EXHIBITIONS AND FREE ADMISSIONS AT THE ROYAL COLLEGE OF SCIENCE FOR IRELAND.

### *Royal Exhibitions.*

1. There are nine Royal Exhibitions of the value of £50 per annum, entitling the holders to free admission to all the lectures, and to the Chemical and Metallurgical Laboratories, to be held from year to year for three years, on the condi-

tion that the holder attends the Lectures regularly during those years, and passes the Examinations required for the Associateship of the College.

Three of the above Royal Exhibitions will be open for competition annually, at the May Examinations of the Science and Art Department.

All persons over 21 years of age, excepting artisans and such as come within the category of persons paid upon under the Science Directory, will be excluded from competing for the Royal Exhibitions. Special cases, however, must be determined according to the spirit of the rules, and the object of the endowment.

The competition for the Royal Exhibitions will be determined in the following way :—

The maximum number of marks obtainable in each subject, except Mathematics, will be in the

Elementary Stage	.	.	.	100
Advanced Stage	.	.	.	200
Honours	.	.	.	400

In Mathematics the numbers will be in the

1st Stage	.	.	.	100	
2nd „	.	.	.	200	
3rd „	.	.	.	300	Honours 500
4th „	.	.	.	150	
5th „	.	.	.	300	Honours 500
6th „	.	.	.	200	
7th „	.	.	.	400	Honours 600

But in each case the number of marks gained in the Elementary Stage (or in the 1st stage in Mathematics) will be diminished by the minimum number required to pass in that stage, and the number of marks gained in the other stages will be diminished by 20 per cent. of the marks obtainable in that stage.

The remainder will then be added together to determine the candidate's position.

But no candidate will be allowed to take an Exhibition who has not obtained at least as many marks as are required for a second class in stage 2 of Mathematics.

#### *Free Admissions.*

2. Free admissions to the Lectures at the Royal College of Science, Dublin, are granted to any person who takes a gold medal in the May Examination of the Science and Art Department.

Persons desirous of obtaining further information may apply to the Secretary of the College.

Syllabuses of the several courses of instruction and Programmes may be had on application at the College, or by letter to the Secretary.

## THE MEDICAL SCHOOLS and HOSPITALS of DUBLIN.

---

THE Clinical Hospitals of Dublin are ten in number, exclusive of the Cork-street Fever Hospital, the Children's Hospital in Pitt-street, the Dublin Eye and Ear Infirmary, and other special institutions. To some of these institutions Medical Schools are attached; others, though they have no actual or official connection with any school, are in close affinity with certain teaching bodies, while others again are without any special relation to any school. While, however, such affiliation of a school and hospital may exist, it should be remembered that the Dublin Schools and Hospitals are open to all comers, and the Student is competent to attend any hospital and any school he wishes.

### THE SCHOOL OF THE ROYAL COLLEGE OF SURGEONS

Is situated within the walls of the College, and is under the superintendence of the Council, who appoint the professors. The Introductory Address is given yearly, on the last Monday of October, and immediately afterwards the Professor of Physiology commences his course with a series of twelve lectures on Comparative Anatomy—free to the public. The dissecting-rooms have been recently much enlarged. Prizes in Anatomy and Physiology, and Surgery, are awarded at the end of the Winter Session.

"The School of Physic in Ireland" is a Medical School formed by an amalgamation of the Schools of Trinity College and of the College of Physicians.

It is constituted by the Statute of 10th Geo. III., cap. 84; and the Statute of 30th Viet., cap. 9.

The School is governed jointly by the Provost and Senior Fellows of Trinity College, and by the President and Fellows of the College of Physicians.

In the year 1710 the first mention is made in the College Register, of Lectures in Anatomy, Chemistry, and Botany, in the University. On the 14th of June in that year, ground was laid out for a Laboratory and Anatomical Theatre.

15th October, 1715. A Charter, 2 George I., was obtained incorporating the Professorship of Physic agreeably to the rules laid down in Sir P. Dun's Deed.

An University Anatomist was first appointed in 1716.

1800. In this year the Act commonly called the "School of Physick Act," 40th George III., was passed, repealing portions of the former Acts, and creating the School of Physic as it now exists.

## - THE LEDWICH SCHOOL,

PETER STREET,

Was founded in 1810 by Dr. Kirby, and since then has been under the management of the Messrs. Ledwich and Mason, after the former of whom it is named. It is situated in Peter-street, a few minutes' walk from the College of Surgeons, the Meath, and Mercer's Hospitals, and in the same street with the Adelaide Hospital and the Anglesey branch of the Coombe Lying-in Hospital.

THE MEATH HOSPITAL, containing one hundred and twenty beds, and now in the 120th year of its existence, ranks among the oldest of the charitable institutions of this city, founded for the relief of the sick poor. It is situated on the southern side of the city, upon about three acres of ground, formerly called "The Dean's Vineyard," purchased in 1816, by the Committee, from the Dean and Chapter of St. Patrick's, for the sum of £1,126, free of rent. The original Meath Hospital, situated on the Coombe, was opened 2nd March, 1753. The foundation-stone of a new Meath Hospital, on the Coombe (now the Coombe Lying-in-Hospital), was laid out by Lord Brabazon, 10th October, 1770. This Hospital was, in 1774, constituted the County Dublin Infirmary, by Act of Parliament. The present building, in Heytesbury Street, was opened for the reception of patients 24th December, 1822, since which time the building has undergone very considerable enlargements and improvements. In 1830, the Theatre for Operations and Lectures was erected, at a cost of £900, by the then Medical Board. In 1852-3, the Collis Wards were added as a memorial to Maurice Collis, twenty-five years Surgeon to the Hospital ; their cost, amounting to £480, was contributed by his relations and friends. In 1865, £682 were subscribed for a memorial to Josiah Smyly, thirty years Surgeon to the Hospital, and the "Smyly Ward," built for the special accommodation of children, was opened by the Lord Lieutenant, Lord Wodehouse.

Sir Patrick Dun's Hospital was founded by the School of Physic Act in 1800; and is now governed by the directions laid down in that statute, and in the School of Physic Amendment Act, 1867:

By the Statute 21 Geo. III., the College of Physicians was empowered to raise £1000 to build an hospital; but the professors contested the construction of this Act, and so nothing was done in that way until after 1800, when the School of Physic Act gave more clear and extended powers.

*Assistant Physicians*—Alex. Taylor, L.K.Q.C.P. &c. J. J. Cranny, L.K. and Q.C.P. &c.

*Secretary*—Joseph Mullen, Esq.

This well-known institution is the largest and oldest maternity hospital in the United Kingdom, and the repute in which it is held attracts students from all parts of the world. It contains 130 beds, and accommodates an average of 1,700 intern patients, including those admitted to the chronic wards labouring under the various forms of uterine complaints, and is under the care of the Master, who is elected every seven years, and two assistants who hold their appointment for three years. There is, in addition, an external maternity department, where patients, procuring a ticket properly signed, can be attended at their homes; also, a dispensary is held every morning for diseases of women and children.

A student entering for the practice of the hospital pays a fee of £10s 10s. for six months. During that time he is required to attend at least thirty cases either within the walls of the hospital or at the residence of patients who may apply for assistance. For this course of study, on examination, a diploma, is given, which is received as a qualification in midwifery in the public services.

A limited number of students are admitted to reside in the hospital, for which they pay a fee of twenty guineas for six months.

## COOMBE LYING-IN HOSPITAL.

Founded A.D. 1826. Incorporated by Royal Charter A.D. 1867.

*Masters*—John Ringland, M.D. T.C.D.; James H. Sawyer, M.D. *Obstetric Surgeon*—George H. Kidd, M.D. *Assistant to the Masters*—A. Hill Ringland, A.B. T.C.D. *Assistant to the Obstetric Surgeon*—William Roe, M.D. *Supernumerary Assistant to the Masters*—Thomas B. Mason, M.B. *Resident Apothecary*—Mr. William Ormsby-Weir, Coombe Hospital. *Pupil Midwifery Assistants*—Mr. John Adderly, and Mr. George McCarthy.

The Royal Charter of Incorporation, which was granted to this Institution in 1867, empowers the Masters to grant Diplomas to the Pupils attending the practice of the Hospital, when, in all other respects, qualified in accordance with the By-Laws of the Hospital; and further provides, that Certificates issued antecedent to its grant shall have the same force, and be of the same effect, as those issued in accordance with it and after its date.

This Hospital contains Forty Beds; namely, thirty for Labour Cases and ten for Chronic Cases, and the new "Guinness Dispensary," in Brabazon-Street, has fifteen additional beds for the treatment of Diseases of Women.

The Hospital accommodates about 600 Labour cases within its walls, while those attended as externs amount to nearly double that number. Moreover, the chronic wards for the reception of cases of the diseases of Females gives admission to about eighty patients annually. The student attends on a given night in each week, or oftener, if circumstances permit, and takes charge in his turn of any cases that may be admitted to the labour wards, or may call for his assistance outside. An Annual examination is held in May and November, at which prizes of considerable amount are awarded, and certificates of good answering granted. Two paid resident pupil midwifery assistantships and one paid pupil assistantship to the Obstetric Surgeon are obtainable annually by competitive examination, for which all pupils who have obtained their midwifery diploma are eligible.

### DUBLIN INFIRMARY FOR DISEASES OF THE EYE AND EAR, ELY-PLACE.

*Resident Secretary*—Mr. Robert Stuart.

The Infirmary is supported wholly by Private Subscriptions and Benefactions. It affords accommodation for eighteen beds, and to its wards patients are admitted on the recommendation of Subscribers.

The Extern Dispensary is attended by Dr. Jacob, on each Monday, Wednesday, and Friday, at 9.30 a.m.

Subscribers of one Guinea annually, or Donors of Ten Guineas as a Life Subscription, are entitled to issue recommendations for Twelve extern patients, and, in addition, are entitled to recommend two patients for admission to the Infirmary.

Pay Patients—A limited number can be accommodated in private Wards, on paying £1 10s. per week.

### ST. MARK'S OPHTHALMIC HOSPITAL AND DISPENSARY FOR DISEASES OF THE EYE AND EAR, LINCOLN-PLACE.

*Surgeons*, Sir William R. Wilde, M.D., F.R.C.S.I.; Henry Wilson, F.R.C.S. *Consulting Physician*, W. Stokes, M.D. *Consulting Surgeon*, Robert Adams, M.D., F.R.C.S. *Copper*, Mr. Wiuton.

The Hospital contains 36 beds, and has an extensive Dispensary attached to it. The in-door patients are visited daily.

Each patient, with the exception of a few paupers, pays 6d. per month for medicine and attendance.

About 300 patients are received annually into the wards of the Institution;

and upwards of 2,000 persons receive advice and medicine at the Dispensary. The Institution is chiefly supported by voluntary contributions, together with a grant from the City of Dublin, the original fund, occasional donations from Bishop Stearne's bequest, a portion of the Parliamentary Grant to the Dublin Hospitals, and the small payments made by patients.

The details of the income and expenditure will be found in the Annual Report.

The Dispensary is open on the mornings of Tuesday and Friday, from ten to twelve o'clock. Operations are performed on Wednesdays, at eleven o'clock.

Board-room, 35, Molesworth-street, where the governors meet the third Wednesday in each month.

Admission Committee Room, Molesworth-place, where patients are seen every Saturday morning, at ten o'clock.

This Institution was opened in 1868, with the object of meeting a want supplied by no other charity, namely, to provide the advantages of country air and good food to poor artisans and others, who, when discharged from hospital, or recovering from illness at their own homes, unable to return to labour, and without means to procure such requisites as their invalid condition demands, would otherwise languish in prolonged weakness and distress. The Institution is wholly unsectarian, and conducted on the broadest principles of Christian philanthropy.

A donation of twenty guineas constitutes a life governor, or of five guineas a governor for one year, and qualifies the donor to join in the management. The Institution is altogether dependant on voluntary contributions, which are earnestly solicited.

The Medical Officers are elected by the Governors.

The patients are elected by the Governors. On the day of election they attend before the Board, and present a petition, which attests their name and abode, their circumstances, age, infirmity, and moral character. After examination by the Physicians, the Governors select the most helpless and miserable, taking into consideration the nature of their disease, age, and character. The Governors act on the principle of giving a preference to those whose sufferings

are most acute, and at the same time admit of alleviation from the medical treatment and care which the hospital affords. Cases of malignant cancer and advanced consumption are usually considered by the Governors as conferring a sad pre-eminence in affliction and deserving of an early admission. There is generally an attendance of thirty wretched candidates, almost all of whom are fit objects, and yet often there is but one vacancy.

Inasmuch as this Institution is to a considerable extent self-supporting, receiving only partial assistance from the State, it has always been necessary to make some charge for the lymph supplied to the public and to medical practitioners ; though vaccination is, and always has been, performed gratuitously at the six depots opened for this purpose in Dublin. Without the revenue derived from the sale of lymph the Institution could not be maintained.

Packets of Infection, Sixpence each. Practitioners and Dispensaries supplied for Half-a-Guinea per annum each ; and the Union Workhouses for One Guinea per annum each. Surgeons of the Army supplied on application to the Army Medical Office, Dublin.

This Institution has been opened for the reception and treatment of Patients of respectability exclusively, of both sexes, labouring under every form of Medical and Surgical Disease, except insanity, and is intended to combine the comforts of a Private Residence with the advantages of a well regulated Hospital.

A new Building has been erected, at a distance from the rest of the establishment, for the special accommodation of Fever Patients.

Medical men recommending Patients to the Institution can, by special arrangements, continue their attendance on them during their illness.

No Patient admitted without a satisfactory reference as to respectability.

## TERMS:

For Board, Lodging, Medicine, Medical Attendance, and Servants, vary from One Guinea and a Half per Week to Three Guineas, according to the accommodation required. Separate Sitting Room, One Guinea per week.

N.B.—Medical Certificates, Special Consultations, Extra Professional Attendance, and Important Surgical Operations, are charged for separately.

## INSTITUTION FOR IDIOTIC AND IMBECILE CHILDREN, AND LUCAN SPA ASYLUM.

FOR LUNATIC PATIENTS OF THE MIDDLE CLASSES.

*Consulting Physician*—H. H. Stewart, M.D., F.R.C.S.I., M.R.I.A.

*Resident Physician*—Frederick Pim, L.K.Q.C.P., M.R.C.S.E.

*Secretary*—Lee W. Dickson.

OFFICES:—40 MOLESWORTH STREET, DUBLIN.

## TERMS OF ADMISSION—INSTITUTION FOR IDIOTS.

The Institution is open to children of all religious denominations, but is conducted on Protestant principles of the broadest and most unsectarian character.

Pupils of three classes are admitted—

1. By election, either wholly or partially free. Pupils whose parents or guardians pay a portion of the expenses of care and maintenance are allowed additional votes in proportion to the guaranteed annual payments.
2. Paying for care and maintenance £35 per annum. These pupils are admitted without any election, but they reside with the free pupils, and are treated in exactly the same manner.
3. Paying for separate apartments and special attendants at from £75 to £150 per annum. These pupils join with the others in the classes, but have private dormitories and sitting rooms.

All payments must be made quarterly in advance. Free pupils are clothed without charge, but all others are charged for what they require.

There were in June, 1870, 25 children in the Institution, viz. 14 boys and 11 girls—of these 9 are free; a portion of the cost of care and maintenance—varying from £2 10s to £15 a-year is paid by the relatives of 9 others, and the entire by those of the remainder. The numbers were further increased in August.

In the asylum there are at present 86 patients.

The new premises will consist of the house and demesne occupied by the late Lord Donoughmore, at Palmerstown, within five miles of the General Post Office. There are two houses and forty-seven acres of land.

Free pupils are admitted by election only,

The number of votes is regulated by the subscriptions. An Annual Subscriber of Half-a-Guinea has one vote for each child to be elected, and an additional vote for every additional Half-Guinea. A donor has one vote for life for Five Guineas, and an additional vote for life for every Guinea.

### *LUCAN SPA ASYLUM,*

FOR LUNATIC PATIENTS OF THE MIDDLE CLASSES.

This Asylum is intended for patients whose means will allow of their paying for the use of all the appliances necessary for restoration to health and for protection, but not for the luxurious accommodation of first-class private asylums.

No religious distinction is made, and the patients are visited by Protestant and Roman Catholic Chaplains.

Patients are admitted at all times when there are vacancies in the house on the necessary legal certificates, and a receipt for the required payments.

Male and female patients are admitted on the payment of £36 per annum, but those requiring special attendants are charged extra.

Accommodation of a superior kind may be had for a few female patients, at £52 per annum.

The female department of this institution is at St. Mary's, Cabra, and the male department at St. Joseph's, Cabra.

The Committee meets every Monday. All communications respecting the institution and subscriptions to be addressed to the Assistant Secretary, Mr. Daniel O'Brien, 56, Lower Sackville-street.

## RICHMOND NATIONAL INSTITUTION

For the Instruction of

### THE INDUSTRIOUS BLIND.

COMMITTEE OF MANAGERS.

*Elected for 1872-3.*

S. Lennox L. Bigger, Esq. M.D.  
Leland Crosthwaite, Esq.  
J. C. Colvill, Esq.  
Denis Crofton, Esq.  
J. F. Duncan, Esq., M.D.

Stawell Webb, Esq.  
Joseph Wilson, Esq.

*Physician.*

Robert Law, Esq., M.D.

*Surgeons.*

S. Lennox L. Bigger, Esq.

Hans Irvine, Esq.

*Superintendent.*

Mr. Oliver Armstrong.

The chief object of the Institution is to afford instruction which may enable the industrious Blind to contribute to their own support, and render them, as far as practicable, independent of gratuitous aid. Those who are about to be taken under its protection are not to be retained longer than the time considered sufficient for them to acquire a proficiency in what is taught ; neither to remain in the Institution should they prove incapable or unwilling to receive instruction, or in any other respect appear unfit objects.

The printed form of recommendation, being correctly filled up and signed by a Subscriber and a Medical person, is to be lodged with the Superintendent ; the applicant's name will then be entered on the List of Candidates ; he will be

sent for in his turn when a vacancy occurs, and if approved of when he shall appear before the Committee of Managers, he will be received as a pupil, on payment of five pounds sterling.

Candidates under fourteen years of age are not admissible, but their applications will be received and brought forward when they have attained that age. No applicant past thirty years of age will be placed on the List of Candidates.

Candidates need not appear in person, if residing in the country.

The Pupils are instructed in such trades as they are found competent to follow; but it is not deemed advisable to give instruction in music. They are lodged, clothed, and dieted for a period of three years, or longer in some cases, provided their conduct merit it, and that no objection arises from bodily or intellectual infirmity.

Five Pounds is to be paid to the Superintendent on the admission of a pupil, as an Entrance Fee.

### *MOLYNEUX ASYLUM FOR THE BLIND OF IRELAND,*

LEESON PARK.

*Trustees*—The Lord Bishop of Cashel; Very Rev. Dean Day, D.D.; Rev. C. S. Stanford, D.D.; Thomas F. Caldbeck, Esq., J.P.; John Fry, Esq.; Francis Low, Esq.; James Rogers, Esq., Q.C.; Robert G. Collis, Esq.

*Chaplains*—Rev. M. Neligan, A.M.; Rev. Thomas J. Welland, A.M.

*Secretary*—Edward Smith, Esq.

This new National Institution is open to the blind of every part of Ireland; it combines the advantages of a Day School and permanent Asylum, and affords instruction in various trades, as well as in English literature. The Asylum can accommodate 80 inmates; there are 51 female inmates at present enjoying the advantages of the Asylum. The Institution is not endowed, but is dependent on voluntary subscription.

A branch for the male blind is established at Great Brunswick-street, and resembles the Asylum in its Educational and Industrial features. It contains a Day School, with comfortable workshops. The Day School is freely opened to the male blind of every age.

### *SAINT MARY'S ASYLUM FOR INDUSTRIOUS FEMALE BLIND,* MERRION.

*President*—Canon McCabe, P.P., V.G.

*Treasurers*—Laurence Waldron, Esq.; Michael Errington, Esq.

*Honorary Secretaries*—John Grene, Esq., J.P.; Michael Murphy, Esq.

This Institution is under the care of the Sisters of Charity. In it are supported and clothed over 100 destitute blind females, while being trained to employments suited to their helpless state. All communications should be addressed to the Hon. Secretaries, or the Superioress at the Asylum.

## RESIDENCES.

There is no accommodation for the residence of Students within the College, but it is provided by the Statutes that every Matriculated Student, being under the age of twenty-one years, shall reside during the College Terms, with his parent or guardian, or with some relation or friend, to whose care he shall have been committed by his parent or guardian, or in one of the Boarding-houses licensed by the President of the College, and arranged for the reception of the Students, who are then placed under the moral care and spiritual charge of the Deans of Residence of their respective creeds.

The Terms for Board and Lodging are generally at the rate of from £30 to £40 a year.

## PROVINCIAL HOSPITALS.

---

The principal portion of the Hospital accommodation in the provincial districts in Ireland is afforded by twenty-nine County Infirmaries and one hundred and sixty-three Union Hospitals. The County Infirmaries are situated in the chief towns of counties, and are supported principally by grants made by the Grand Juries, partially by private subscriptions, and, in a few instances, by funded property. Every information as to these Institutions will be found in the tables of the *Directory*.

The Union Hospitals are supported as part of the Poor Law organisation. Full details as to their officers and statistics concerning them will be found in pages 197 to 200.

In addition to these Institutions, a few others exist in the larger towns.

The Meetings of the Society take place at the Royal College of Surgeons, Fortnightly on Friday Evenings at Half-past Eight o'Clock precisely.

Discussion on any Communication is not permitted if the author expresses a wish to the contrary. The Communications become the property of the Society, and are published in extenso in the MEDICAL PRESS and CIRCULAR.

The exhibition of recent morbid specimens, if desired, is allowed precedence of all other Communications; but a specimen cannot be considered a recent one, unless it has been removed from the body since the preceding Meeting.

Each Member of the Society, being a subscriber of 5s. to the Refreshment Fund, is entitled to as many tickets for visitors as he may require at 6d. each.

Naval and Military Surgeons, on sending their Names to the Secretaries, are admitted as Honorary Members of the Society, which privilege they retain as long as they are either stationed near, or quartered in Dublin.

None but Graduates in Medicine or in Surgery are admitted to the Meetings.

Every Fellow of the Royal College of Surgeons, *ipso facto*, is an Ordinary member of the Society.

Licentiates of the College, or members of other Colleges, desirous of becoming Ordinary members of the Surgical Society of Ireland must be proposed by one member of Council, and seconded by another, to each of whom he shall be personally known. The election shall be by ballot, and decided by a majority of the members present.

Every candidate for the membership of the Surgical Society shall have been in possession of a Diploma in Medicine or in Surgery for at least two years, unless he is connected with a recognised medical school, or holds a public medical appointment.

## ROYAL MEDICAL BENEVOLENT FUND SOCIETY OF IRELAND.

Established in 1842.

*Patron*—Her Most Gracious Majesty the Queen.

For the relief of Medical men, under severe and urgent distress, occasioned by sickness, accident, or any other calamity.

Under circumstances of peculiar emergency, relief is extended to the widows and orphans of Physicians and Surgeons, it being understood that it is not the design of this Fund to relieve Medical men from the necessity of providing for their families by ordinary life assurance, or such other means as prudence dictates.

The claims of contributors, as far as possible, have the preference, but contributions to the Fund give no claim of right to relief, the Fund being one of pure charity. Each case is judged according to the urgency of the distress.

This Society was formed in 1862 by the Union of the Belfast Medical Society with the Clinical and Pathological and the Ulster Medical Protective Societies. It has for its object to afford its members increased facilities of consulting the best medical works and periodicals, by means of the Library; of deriving mutual instruction on medical subjects by means of its discussions and its Pathological Museum; and, as a collective body, of protecting the interests of the Medical Profession. It possesses a well-selected and valuable Library of ancient and modern works, medical and scientific; a Museum containing many rare pathological specimens, both of which are in the Society rooms in the General Hospital; and almost all the Medical Journals are kept for the convenience of members. The Society meets monthly, from May to November; and fortnightly on Saturday, from November to May. The Annual Meeting for the election of office-bearers, &c., is held on the first Monday in May, at the Society's rooms, Belfast General Hospital.

The Society is the oldest institution of the kind in the United Kingdom. It was chartered by George II. in 1749-50, and received for several years the annual sum of 500*l.* from the Royal Privy Purse. In 1761 it was endowed by the Irish Parliament, and has since that time been in the enjoyment of annual parliamentary grants.

Members are elected by ballot, being proposed and seconded at one meeting, and balloted for at the next meeting, the admission fees being an annual subscription of £2 2*s.*, with £3 3*s.* entrance, or a life composition of £21.

The meetings on the second Thursday in November, the first Thursdays in March and June, are stated general meetings pursuant to charter.

Evening meetings are held on the third Monday in each month during the session. At these meetings papers are read, and discussions elicited upon subjects connected with Practical Science and Art.

The Society is governed by a Council of thirty-three members, which meets fortnightly (except during the recess), at three o'clock on such Thursdays as are unoccupied by meetings of the Society, and consists of seven Vice-Presidents, two Honorary Secretaries, the Chairman, and one member of each of the standing Committees, and seventeen members from the Society at large.

Agricultural Exhibitions are held at Easter and at Christmas, and a Horse Show in the Autumn.

The Library, to which the Public is admitted upon the recommendation of a member, contains 30,000 volumes. J. R. Joly, LL.D., has recently presented

to the Society a donation of about 20,000 rare books, and 10,000 valuable prints. There is an extensive Botanic Garden, open at 12 o'clock daily, and 2 p.m. on Sunday; an Agricultural Museum, open daily from 11 to 4; also, a fine Museum of Natural History, open on Mondays, Tuesdays, Thursdays, and Saturdays, at 11 a.m., and Tuesday and Thursday evenings, from 7 to 10 p.m.

The Government School of Art is consolidated with the Drawing School of the Society.

## DUBLIN SCIENTIFIC CLUB.

The meetings of the Club are held on the first Monday in each month, from November to June inclusive, in the Theatre of the Royal Dublin Society. The subjects upon which communications can be made to the Club are such as relate to the Physical Sciences, whether in their mathematical or experimental aspects. It is not the intention of the Club to provide for pure mathematics on the one hand, or for the group of natural sciences on the other. No communication shall occupy more than a quarter of an hour.

The Club consists of Ordinary and Honorary members. The number of Ordinary members is limited to twenty-five, and membership in the Club is confined to those cultivating any of the group of physical sciences. Candidates for membership proposed at one meeting of the Club are balloted for at the next; one black ball in four excludes.

The object of this Society is the promotion of the study of Statistics, Jurisprudence, and of Social and Economic Science.

The meetings are held at 35, Molesworth-street, on one Tuesday in each month, from November to June inclusive, at eight in the evening. The business is transacted by members reading written communications on some subject in Statistics, Jurisprudence, Social or Economic Science. Proposals of candidate members should be sent to the Secretaries at least a fortnight previously to the meeting. The subscription is £1 per annum. Persons residing more than fifteen miles from Dublin, and ladies, are admitted as Associates for 10s. a year.

HENRY BURDEN, M.D.

The Society was formed for the cultivation of Natural History, and the investigation of the Topography, Statistics, and Antiquities of Ireland. Subsequently, the range of subjects became more extensive, it being agreed to receive communications on all branches of physical science and their applications.

The Meetings for the reading of papers are held on alternate Wednesday evenings during the winter months, at the Museum, College-square North, Belfast. The Annual Meeting is held in May or June. This Museum (which is the first ever erected in Ireland by private subscription) was founded in 1830, and is open daily (Sundays excepted) from twelve till four o'clock. It contains collections specially illustrating the Fauna, Flora, Geology, Fossils, &c. of the North of Ireland. The internal arrangements are under the care of the Council for the time being.

## Provincial Medical Practitioners of Ireland,

### 1 8 7 3 .

---

The whole of the Census Returns for the enumeration of 1871, were not ready at date of compilation.

The object of this List being to afford means of Reference for Provincial Medical men, the Names of those resident in Dublin are not given.

The name of the nearest Railway Station is given immediately after the county, and the figure which precedes it represents the number of miles distant from it. The Number in Brackets is the Population in 1871.

The words *Apoth.*, *Infir.*, *Disp.*, *Workh.*, *Asyl.*, in Italics, indicate the official connexion of the person to whose name they are attached, with the District.

THE  
ACTS OF PARLIAMENT  
SPECIALLY AFFECTING THE  
MEDICAL PROFESSION IN IRELAND.  
VERBATIM AND IN ABSTRACT.

---

\*THE PRINCIPAL PROVISIONS OF THE SANITARY LAWS,  
AS APPLICABLE TO IRELAND.

1. The sanitary laws now in force in Ireland are contained in the Sanitary Act of 1866, and the several Acts incorporated with and referred to in that Act, and in the Sanitary Act (England) of 1868, which was extended to Ireland by the Local Government Act (Ireland), 1871, which came into operation on the 1st September, 1871.

2. In Ireland the Town Councils and Commissioners, as set forth in the Schedule to the Sanitary Act of 1866, are the Nuisance and Sewer Authorities in all towns under councils or commissioners; in all other cases the Guardians of the Poor constitute such authorities.

3. By Section 49, Sanitary Act, 1866, if the Sewer or Nuisance Authorities neglect or make default in carrying out the provisions of the law, the Lord Lieutenant, on being satisfied after due enquiry of such neglect or default, is enabled to make an order limiting the time for the performance of the particular duty, and in default to appoint some person to perform such duty, and to recover the expenses and costs thereof from the local authorities.

4. By the 16th Section of the same Act provision is made against Nuisance Authorities neglecting to compel private persons to abate nuisances. Upon complaint to the Lord Lieutenant of neglect of the Nuisance Authorities, to institute proceedings under the Act, his Excellency may authorize the Chief Officer of Police to take any proceedings which the Nuisance Authority might have taken for the removal of nuisances, the expenses and costs thereof to be borne by the authorities in default.

---

\* Communicated by Dr. Grimshaw to the Medical Society of the College of Physicians, 1871.

5. The nuisances against which more effectual provision is made by the Act of 1866, sec. 19, are :—

- 1st. Over-crowded Houses.
- 2nd. Over-crowded or Uncleanly Work-places.
- 3rd. Smoke from the Clinneys of Manufactories.

The nuisances provided against by the Nuisance Removal Act of 1855, are :—

- 1st. Premises injurious to health.
- 2nd. Any Pool, Ditch, Gutter, Waterecourse, Privy, Urinal, Cesspool, Drain, or Ashpit, so foul as to be injurious to health.
- 3rd. Animals so kept as to be injurious to health.
- 4th. Any accumulation or deposit injurious to health.

The Act of 1855 also contains special provisions against—

- 1st. Foul Water.
- 2nd. Corrupting Water with Gas-Washings.
- 3rd. Sale of Unwholesome Meat.
- 4th. Noxious Trades or Manufactories.
- 5th. Nuisances in Mews or Stables.

6. Notice of Nuisances may be given to the Nuisance Authorities.

1st. By any person aggrieved thereby.

2nd. By the Sanitary Inspectors, or any paid officer under the Nuisance Authorities.

3rd. By two or more inhabitant Householdors of the parish or place to which the notice relates.

4th. By the Relieving officer of the Union or Parish.

5th. By any Constable or Officer of the Constabulary or Police Force of the district or place.

6th. By any person appointed to inspect Common Lodging Houses, in case the premises be a Common Lodging House.

7. The Nuisance Authority (or the Chief Officer of Police acting under sec. 16, Sanitary Act of 1866), previous to taking proceedings before a Justice, under the 12th section of the Nuisance Removal Act of 1855, must serve a notice on the person by whose act or default the nuisance arises; or if such person cannot be found or ascertained, on the owner or occupier of the premises to abate such nuisance, and execute all necessary works within a specified time.

If the nuisance arises from the want or defective construction of any structural convenience, or where there is no occupier of the premises, the notice to be served on the owner.

When the person causing the nuisance cannot be found, or it does not arise by the act or default of the owner or occupier, the Nuisance Authority may itself abate the nuisance without further order.

8. Common Lodging Houses, *i. e.* houses in which beds are let by the night to persons who have no fixed residence, are regulated by the Common Lodging House Acts of 1851, 1853, and 1850.

Houses not being Common Lodging Houses, but let in tenements, are regulated by the 35th section of the Sanitary Act of 1866, and the regulations made by the Nuisance Authorities under that section, such regulations having been confirmed by the Lord Lieutenant in Council; offences against those regulations are subject to a penalty not exceeding 40s., with an additional penalty not exceeding 20s., for every day during which a default in obeying such regulations may exist. Regulations relating to Dublin were made by the Nuisance Authorities, and approved of by the Lord Lieutenant, and bear date 4th December, 1856. Some of those regulations are—"That no greater number of persons shall occupy any room in any such house than can be accommodated with 300 cubic feet of space for each;" "That the owner shall mean the person or

persons who, for the time being, shall be in receipt of the rents of the lodgers or other occupiers of such premises." That such owner shall supply proper ash-pits, privies, and water-closets, house drains connected with the main sewer, and keep same properly cleansed, and shall provide a sufficient supply of pure water, and also provide for the cleansing and ventilation of the premises. That no occupant residing in such house, or any other person, shall throw from any window upon any roof, shed, yard, passage, or street, any water, foul liquid, or other offensive matter, or drop same in or upon any common entrance, staircase, lobby, street, or place, other than that provided for the proper deposit thereof.

9. By section 26, Sanitary Act of 1866, "It is provided that where an hospital or place for the reception of the sick is provided within the district of a Nuisance Authority, any Justice may, with the consent of the superintendent body of such hospital or place, by an order, a certificate signed by a legally qualified medical practitioner, direct the removal to such hospital or place, *at the cost of the Nuisance Authority*, of any person suffering from any dangerous, contagious, or infectious disorder, *being without proper lodging or accommodation, or lodged in a room occupied by more than one family*, or being on board any ship or vessel." From this section it would appear that the removal can only be made when the person is affected with dangerous, contagious, or infectious disorder, and *has not proper accommodation, or is lodged in a room occupied by more than one family*. This section does not apply to Common Lodging Houses. The 7th sec. Common Lodging House Act of 1853, provides for the removal to hospital by the local authority, on the certificate of the medical officer of the parish, place, or district, of any person suffering from fever or any contagious or infectious disease.

10. By section 37, Sanitary Act, 1866, the Sanitary Authorities may provide for the use of the inhabitants within their district, hospitals or temporary places for the reception of the sick. They may also provide and maintain a carriage or carriages suitable for the conveyance of persons suffering under any contagious or infectious disease, and pay the expense of conveying any person therein to an hospital or place for the reception of the sick.

11. Under the 34th sec. Sanitary Act, 1866, the Nuisance Authority may enforce payment of any costs and expenses which the owner of any premises may be liable to pay, under the Nuisance Removal Act, or under the Sanitary Act of 1866, either against the owner or occupier, and the owner shall allow the occupier to deduct any sum which he so pays out of the rent from time to time being due in respect of the premises, provided that nothing contained in that section shall affect any contract between the owner and the occupier as to the payment and discharge of any rates, dues, or sums of money payable in respect of such premises, or to affect any contract whatsoever between landlord and tenant.

## COUNTY INFIRMARIES OF IRELAND.

EXTRACTS from the Acts of Parliament regulating the Qualification of Surgeons.

5 and 6 Geo. III. cap. 20, 1766.—*Surgeon Qualified on Certificate of serving regularly five years, and being properly examined.*

“And that no person shall be capable of being elected who shall not have served a regular apprenticeship of five years to a Surgeon, and have likewise undergone an examination before the Surgeon-General, the Visiting Surgeon, the two Assistant Surgeons, and the Resident Surgeon of Dr. Steevens’ Hospital, and the four senior Surgeons of Mercer’s Hospital, both situate in the City or suburbs of Dublin, or such a number of them as they shall appoint to make such examination, and shall produce a certificate from the said examiners, or the major part of them, that he hath served an apprenticeship of five years to a Surgeon, and hath undergone a proper examination as aforesaid, and is in all respects qualified to be a Surgeon to the said Infirmary or Hospital.”

36 Geo. III. cap. 9, 1795.—*No Surgeon to an Infirmary to be Elected without “Letters Testimonial” from College of Surgeons.*

“And be it further enacted, that from and after the passing of this Act no person shall be capable of being elected Surgeon to a County Infirmary or Hospital who shall not have previously obtained ‘Letters Testimonial’ of his qualification under the seal of the Royal College of Surgeons in Ireland; and that no other qualification or examination shall be necessary to make any person capable of being elected Surgeon to such Infirmary or Hospital—any former Act or clause in any Act to the contrary notwithstanding.”

54 George 3, Cap. 62, 1814.

Certificate of good conduct of the Surgeon shall be previously laid before the Grand Jury, as also a copy of his “Letters Testimonial.” Provided also that in all cases where any Head Surgeon of any Infirmary or Hospital shall have been appointed to be Head Surgeon at any time subsequent to the passing of an Act made in the Parliament of Ireland in the 30th year of his present Majesty’s reign, intituled “An Act for the further regulation of Public Infirmaries or Hospitals.” A true copy (certified under the name of the Treasurer of such Infirmary or Hospital) of the “Letters Testimonial” from the College of Surgeons in Ireland, required by the said Act, to be obtained by every such Surgeon, shall be laid before such Grand Jury previous to the requiring or making such presentment.

### GRAND JURY ACT.

6 and 7 Wm. 4, Cap. 116, Sect. 95.

And be it enacted, that it shall and may be lawful for the Grand Jury of any county to present, at each Assizes, any sum not exceeding forty-seven pounds, to be raised off such county, and paid to the Surgeon or Surgeons of the infirmary thereof, provided always that no such presentment shall have been made unless a true copy of the “Letters Testimonial” from the College of Surgeons in Ireland, by law required to be obtained by such Surgeon, shall be laid before the Special Sessions next after his appointment to his office, nor unless such Surgeon shall have given his attendance and professional assistance, without any other fee or reward, to the prisoners and others in the gaol of the county of the infirmary of which he has been appointed Surgeon, if such gaol is situate within five miles of such infirmary, and provided also that no Surgeon or Medical Attendant hereafter appointed shall be qualified to act as Surgeon to such infirmary or dispensary, until he shall have signed and deposited with the Secretary of the Grand Jury a declaration in the form schedule R., to this Act annexed.

## MEDICAL CHARITIES (IRELAND) ACT.

14 & 15 VICT., CAP. 68.

An Act to provide for the better Distribution, Support, and Management of Medical Charities in *Ireland*; and to amend an Act of the Eleventh Year of Her Majesty, to provide for the Execution of the Laws for the Relief of the Poor in *Ireland*.

7th August, 1851.

### ABSTRACT.

WHEREAS it is expedient, &c., &c. Be it enacted, &c.

#### *Appointment of Commissioners to act with Poor Law Commissioners.*

I. That it shall be lawful for the Queen to appoint Two Persons (One of whom shall be a Physician or Surgeon of not less than Ten Years' standing, and shall have the Title of Medical Commissioner,) who, together with the Commissioners appointed under the Provisions of the aforesaid Act, shall be "the Commissioners for administering the Laws for Relief of the Poor in *Ireland*," with the Powers and Authorities given by the said Act, and the several Acts for the more effectual Relief of the Destitute Poor.

#### *Powers given by this Act, how to be exercised.*

II. Any Order for the Formation or Alteration of any Dispensary District or Districts under this Act, as hereinafter mentioned, or for framing or establishing any General Rules or Regulations relating thereto, or altering or revoking the same, shall be signed by not less than Two of the said Commissioners.

#### *Appointment of Inspectors.*

III. The said Commissioners may from time to time appoint so many fit persons as the Commissioners of Her Majesty's Treasury shall sanction, being practising Physicians or Surgeons of not less than seven years' standing, to be Inspectors to assist in carrying out the provisions of this Act, and may remove all or any of the said Inspectors, and appoint others in their place.

V. Neither the Medical Commissioner nor any such Inspector as aforesaid, shall, while he continues in such respective office, practise as a Physician or Surgeon, or in any other professional capacity.

#### *Power to Guardians to divide Unions into Dispensary Districts.*

VI. The Guardians of each Union shall, when so required by the Commissioners, with all reasonable Despatch, divide such Union into so many Dispensary Districts, having regard to the Extent and Population of such Districts, as may to them appear necessary; and in case the said Commissioners shall not approve of the Districts so formed they are empowered to issue an Order declaring the Districts which to them may appear necessary; and it shall be lawful for the said Commissioners, to require the Guardians to alter such Districts, Provided always, that in no case shall an Electoral Division formed under the Act for the more effectual Relief of the destitute Poor be divided; and the Cost of all Medical Relief afforded within any such Dispensary District, together with all the Salaries and charges incidental to the same, shall be charged on the Poor Rates of the Electoral Division or Divisions comprised therein, according to the net annual Value of each such Division under the Poor Law Valuation in force for the Time being; and the

said Commissioners shall declare in such Order the Number and Qualifications of the Officers to be appointed for the Service of each such Dispensary District, and shall likewise declare in the said Order the Number of Members of the Committee provided.

VII. Within One Month after the Receipt of the said Order, the Guardians shall elect a sufficient Number of Ratepayers resident in each District, and liable to pay Poor Rates in respect of Property therein of the net annual Value of Thirty Pounds at the least, who, together with the *ex-officio* and elected Guardians of the Poor resident or being the Owners or Occupiers of Property therein, shall be a Committee for the Management of the Dispensary of such District, and shall from Time to Time fill up any Vacancies occurring after any General Election of such Committee; and the Committee so appointed shall hold Office until the Appointment of a new Committee after the next annual Election of Guardians; and at the first Meeting of the Guardians after such annual Election, or as soon thereafter as conveniently may be, the Committee of Management for the said Dispensary District shall be appointed in like Manner for the ensuing Year, and so likewise in each succeeding Year.

*Guardians to provide Offices, &c.*

VIII. The Guardians of the Union shall provide a House, Building, Room or Rooms, to be used as a Dispensary or Office for the Medical Officer of each such District, and for the Meetings of the Committee of Management, and shall provide such Medicines and Medical Appliances as may be necessary.

*Committee may appoint Officers, and with such Salaries as the Guardians may determine.*

And the Committee shall appoint, from Time to Time, subject to the Approval of the said Commissioners, One or more Medical Officers for the said District, with such Qualifications as the said Commissioners shall determine, and with such Salaries as the Guardians, subject to the Approval of the said Commissioners, shall determine; and the said Commissioners may, and they are herein empowered when they may see Occasion, from Time to Time to regulate the Amount of Salaries or Allowances payable to such Officers respectively, and the Time and Mode of Payment thereof; and it shall be lawful for the said Commissioners to remove any such Medical Officer on sufficient Grounds, and to direct the said Committee of Management to appoint another Medical Officer in his stead; and, on Failure of the said Committee to appoint a Medical Officer of such Dispensary District for One Month after the Receipt of the Direction of the said Commissioners, it shall be lawful for the said Commissioners to appoint such Medical Officer by an Order under their Seal.

*Power to afford Dispensary Relief.*

IX. Every Member of such Dispensary Committee, and every Relieving Officer and Warden acting for an Electoral Division included in such Dispensary District, shall have power to afford Medical Relief by the issue of a Ticket for Medicine and Advice, or a Ticket, in such Form as the said Commissioners shall prescribe, addressed to the Medical Officer of the District, directing him to afford Medicine and Advice to or attend any poor Person resident therein; and it shall be the Duty of the Medical Officer to afford Medicine and Advice, or to attend such poor Person, as thereby directed: Provided always, that if any Person who shall obtain a Ticket for Medical Attendance shall, at a Meeting of the Committee after the Issue of the Ticket, be declared by a Majority of the Members then present not to be a fit Object for Dispensary Relief, the Ticket shall be cancelled, and the Holder thereof disentitled to further Relief.

*Proviso as to County Infirmaries, &c.*

X. Provided always, that where, under the Provisions of 5 Geo. III. c. 20 (I.), any Allowance or Stipend is now payable to any Officer of a County Infirmary or other Medical Institution, such respective Allowance or Stipend shall wholly cease to be payable to or for the Use of such Infirmary or Medical Institution under the Provisions of the said Act, when and as soon as the Person holding such Office at the Time of the passing of this Act shall wholly cease to hold the said Office in the said Infirmary or Medical Institution.

*Members of Committee not to be concerned in supplying Articles.*

XI. No Guardian or Member of Committee, paid Officer, or other Person concerned in the providing, ordering, Management, Control, or Direction of the Medical Relief of the Poor, shall, either in his own Name or in the Name of any other Person, supply for his own Profit any Medicines, Instruments, Furniture, or Goods for the Use of any Dispensary in any District for which he shall act in, nor shall during such Time be interested, directly or indirectly, in any Contract relating thereto, under Pain of forfeiting the Sum of Fifty Pounds, with the full Costs.

*Regulations as to Management of Dispensaries.*

XII. The said Commissioners shall frame General Rules and Regulations for the Government of each Dispensary District.

*Regulations as to Vaccination.*

XIII. The Medical Officer of every Dispensary District shall vaccinate all Persons who may come to him for that Purpose, subject to such Regulations as may be issued by the Commissioners.

*Salaried Medical Officers of Districts to attend at Examination of dangerous Lunatics, and to give attendance at Bridewells within their Districts.*

XV. It shall be the Duty of any salaried Medical Officer of a Dispensary District under this Act, or (if more than One), then the nearest of such Medical Officers, save in the case of his Sickness or necessary Absence, and then the other nearest of such Medical Officers, without any further Fee or Reward, to examine and certify under the Statute in that Behalf as to the Case of any dangerous Lunatic brought before a Justice of the Peace, within his respective District, when summoned by such Justice so to do, and also to give his Medical Attendance and Care, so far as shall be necessary, to the Prisoners or Lunatics in any Bridewell or House of Correction situate within such respective District, and to supply to such Prisoners and Inmates the necessary Medicines, the Account of which Medicines shall be submitted to the next Meeting of the Committee of such respective District, who shall make Provision for the Payment thereof; and it shall be lawful for the said Commissioners, if they shall think fit, to take into account the probable Extent of such extraordinary Duties with respect to any such Bridewell or House of Correction, in fixing the amount of the Salaries of the Medical Officers of such Districts.

*Power of Commissioners and Inspectors to inquire on Oath, or require a Declaration.*

XVI. The Commissioners or any one of them, and also any such Inspector acting in execution of this Act, by Summons under the Seal of the Commissioners, or of any Inspector respectively as the Case may be, may require the Attendance of any Person or Persons as they or he shall think fit to call before them or any of them respectively, upon any Matter connected with the Execution of this Act, relating to any Dispensary subject under this Act to the Authority of

the said Commissioner, at such Time and Place as shall be set forth in the Summons, and may make Inquiry and require Returns, and may administer Oaths, and examine all such Persons upon Oath, and may require and enforce the Production upon Oath of Books, Contracts, Agreements, Accounts, Maps, Plans, Surveys, Valuations, and Writings, and Copies thereof respectively, in anywise relating to any such Matter as aforesaid. Provided always that no person shall be required in obedience to go more than Thirty Statute Miles from the place of his abode, or, in obedience to any such Summons of an Inspector, to go more than Five Miles from the place of his Abode.

*Penalty for refusal to attend Summonses.*

XVII. And every Person who shall refuse or wilfully neglect to attend in obedience to any such Summons or to give evidence as aforesaid, shall be liable to forfeit a Sum not exceeding Five Pounds.

*Inspectors to visit Dispensaries and attend Meetings of Guardians, &c.*

XVIII. Every Inspector acting in execution of this Act shall be entitled to enter at all Times into and to inspect every Dispensary or Building used for the Purposes of this Act, and to attend the Meetings of every Board of Guardians or Dispensary Committee, on all Business arising in the Execution of this Act, and to take part in the Proceedings, but not to vote at such Meeting: and shall be empowered to enter, inspect, and report upon any Infirmary, Hospital, or Medical Institution supported in the whole or in part by any public Funds, Rates or Assessments.

*Commissioners to execute in Ireland the Nuisances Removal and Diseases Prevention Act, 1848 (11 & 12 Vic. c. 123), and the Amending Act (12 & 13 Vic. c. 111).*

XIX. The said Commissioners shall be the Commissioners for executing in Ireland the Powers and Purposes of "The Nuisances Removal and Diseases Prevention Act, 1848," and an Act of the following Session of Parliament amending the same; and all Committees, Inspectors, Medical Officers, and other Persons appointed or employed under the Powers of this Act shall, and they are hereby required, within their respective Districts, to aid the Guardians of the Poor in the Execution of any Directions issued by the said Commissioners under the Authority of the said Nuisances Removal and Diseases Prevention Act, and all Expenses which shall be incurred and chargeable upon the Poor Rates, shall be ascertained and audited, in all respects, as directed for the Expenditure under this Act,

## VACCINATION (IRELAND).

---

21 & 22 Vic., CAP. 64.

*An Act to make further provision for the Practice of Vaccination in Ireland.*  
2nd August, 1858.

ABSTRACT.

Whereas by 14 and 15 Vict. c. 68, it is provided that the Medical Officer of every District constituted under the said Act shall vaccinate all Persons who may come to him for that Purpose, subject to such Regulations as may be issued by the Poor Law Commissioners in that behalf; And whereas it is expedient to make further Provision for Vaccination in the Dispensary Districts in Ireland: Be it therefore enacted &c.

I. The Committee of Management of every Dispensary District in Ireland shall, subject to the approbation of the Commissioners, divide such Dispensary District into so many Vaccination Districts as they may deem advisable and necessary, and shall report such Districts to the Commissioners for their Approval, and shall require the Medical Officer of such District to attend at some convenient Place within each such Vaccination District, to be approved of by the said Committee, at such times as the said Committee may fix or approve; and the said Medical Officer shall and he is hereby required to vaccinate all Persons resident in his District who may come to him for that Purpose, or whom he may be requested to vaccinate, being fit Subjects for Vaccination, subject to such Regulations as may be issued by the Commissioners in that Behalf.

II. The Board of Guardians shall pay to each such Medical Officer, in addition to any Salary or Allowance payable to him, the Sum of One Pound for every Twenty Cases of successful Vaccination performed by him in each Year.

III. The Medical Officer of each such District shall make a Report to the Committee of Management from Time to Time, of the Number of Persons successfully vaccinated by him in each Year, under the Provisions of this Act, and such Report shall be made in such Form and shall contain such further Particulars as the Commissioners shall direct, and shall be transmitted by the Committee to the Board of Guardians, and recorded by the Guardians on their Minutes.

IV. The payments to the Medical Officer, and all other Expenses incidental to the Performance of Vaccination under this Act in any Dispensary District, shall be charged to the Electoral Divisions comprising such Dispensary District in the same manner as all Charges incidental to Medical Relief in the District.

### VACCINATION AMENDMENT (IRELAND).

26 & 27 Vic., cap. 52.

An Act to further extend and make compulsory the Practice of Vaccination in Ireland.

13th July, 1863.

Whereas by an Act, 14 and 15 Vict. c. 68, it is provided that the Medical Officer of every district shall be required to vaccinate all persons who may come to him for that purpose, subject to such regulations as may be issued by the Poor Law Commissioners; in and by another Act, 21 and 22 Vic. c. 64, it is provided that the Committee of every Dispensary shall divide such Dispensary District into so many Vaccination Districts as they may deem advisable and necessary, and shall require the Medical Officer of such District to attend at some convenient place within each Vaccination District at such times as the said Committee may fix or approve; and the said Medical Officer is thereby required to vaccinate all persons resident in his District, who may come to him for that purpose, or whom he may be requested to vaccinate, being fit subjects for Vaccination, And whereas it is expedient that the practice of Vaccination in Ireland should be still further extended: Be it therefore enacted, &c.

*Parents and guardians of children to have such children vaccinated.*

I. The father or mother of every child born in Ireland after the first day of January, one thousand eight hundred and sixty-four, or in the event of the death, illness, absence, or inability of the father and mother, then the person who shall have the care, nurture, or custody of the said child, shall, as soon as may be prac-

ticable, and within Six Calendar Months after the birth of such child, take or cause to be taken the said child to the Medical Officer of the Dispensary District in which the said child is resident, for the purpose of being vaccinated, unless he shall have been previously vaccinated by some duly qualified Medical Practitioner, and the Vaccination duly certified; and the said Medical Officer shall vaccinate the said child: Provided that in the Vaccination of children who are inmates of the Workhouse or other public institution, the Master, Matron, or chief Officer of the Workhouse, or other such institution, shall take the steps required.

*Children to be taken for inspection on Eighth day.*

2. Upon the Eighth day following the day on which any child has been vaccinated as aforesaid, the person having the care of the said child, shall again take or cause to be taken the said child to the Medical Officer by whom the operation was performed, in order that such Medical Officer may ascertain by inspection the result of such operation.

*Certificate of successful Vaccination to be delivered.*

3. Immediately after the successful Vaccination of any child, the Medical Practitioner who shall have performed the operation shall deliver to the person who shall have the care of the said child, a Certificate under his hand, (Schedule A.) and shall also transmit a duplicate of the said Certificate to the Registrar of Births and Deaths of the District in which the operation was performed; and such Certificate shall be evidence of the successful Vaccination of such child in any information brought against the person who shall have had the care of such child. Provided that if the Medical Officer is also the Registrar, it shall be sufficient for him to sign one Certificate, to be delivered to the person as aforesaid, and to register the fact of such Vaccination.

*If the child be not in a fit state for Vaccination, the Medical Officer to deliver a Certificate to that effect.*

4. If any Practitioner shall be of opinion that any child is not in a fit and proper state to be successfully vaccinated, he shall thereupon deliver without fee or reward to the person having the care of the said child, a Certificate (Form B.), and such Certificate shall remain in force for Two Calendar Months from its delivery as aforesaid; and the person having the care of the said child, shall, unless they shall within each succeeding period of Two Months have obtained a renewal of such Certificate within Two Months next after the delivery of the said Certificate as aforesaid, and if the said child be not vaccinated at or by the termination of such Two Months, then during each succeeding period of Two Months until such child has been successfully vaccinated; take or cause to be taken to be vaccinated, and if the Medical Officer or Practitioner deem the said child to be then in a fit and proper state for successful vaccination, he shall forthwith vaccinate, but if the said Practitioner be of opinion that the child is still in an unfit state then he shall again deliver the same Certificate as before; and the said Medical Officer or Practitioner, so long as such child remains in an unfit state and unvaccinated, shall at the expiration of every succeeding period of Two Months deliver, if required, a fresh Certificate under his hand, according to the said Form, and the production of such Certificate shall be a sufficient defence against any complaint.

5. And whereas, by Section 2 of 21 & 22 Vict. c. 64, repealed, it is provided that the Guardians shall pay to the Medical Officer in addition to any salary or allowance payable to him, the sum of One Pound for every twenty cases of successful Vaccination performed by him in each year; Be it enacted, that the said section shall be repealed, and the Board of Guardians shall pay for every

person successfully vaccinated by him within his Dispensary District, the sum of One Shilling, provided that the said Medical Officer shall have made the report to the Committee of Management which is required by the said Act.

*Child's incapacity to receive the Vaccine.*

6. In the event of any Medical Practitioner being of opinion that any child that has been vaccinated by him is insusceptible of the Vaccine Disease, he shall deliver to the person having the care of such child a Certificate, Form (D).

*Registrars of Births and Deaths to keep a Register of Cases of successful Vaccination, of which searches and extracts may be made.*

7. The Registrar of Births and Deaths shall register the same in a Register which he shall keep of the persons of whose successful Vaccination a Certificate shall have been transmitted to him and of the persons whom he himself may have successfully vaccinated, and shall at all reasonable times allow searches to be made of any such Register Book, and shall give a copy of any entry or entries in the same, on payment of the fee of One Shilling for each search, and Sixpence for each Certificate.

*Notice to be given of Vaccination, and on failure to comply therewith, penalty.*

8. The Registrar of every District shall immediately after the Registration of the birth of any child who shall not have been certified to him as having been vaccinated within Six Calendar Months after the birth thereof, give notice in writing, Form (C), to the person upon whom the care of such child shall devolve, that it is their duty to take care that the said child shall be vaccinated, and shall together therewith deliver to such person a notice of the days, hours, and places within the District of such Registrar at which the Medical Officer will attend for the purpose of Vaccination, and shall enter in a book a minute of his having duly given such notice; and if after such notice the person so having the care of the said child, shall not cause such child to be vaccinated, or shall not on the Eighth day after the Vaccination has been performed take or cause to be taken such child for inspection without any reasonable excuse for such failure or omission, then such person so offending shall forfeit a sum not exceeding Ten Shillings.

*Fee to Registrar.*

9. A fee of Threepence shall be paid to such Registrar for each child vaccinated in respect of which he shall have performed the duties required in this Act, excepting only those cases in which he himself shall have performed the operation, and thereby entitled himself to the payment of a fee under this Act.

*Penalty for omitting to register Vaccination.*

10. Every Registrar who shall fail to register as aforesaid the Vaccination of any child successfully vaccinated, and duly certified to him, or who shall register the Vaccination of any child which shall not have been successfully vaccinated or certified, shall forfeit a sum not exceeding Twenty Shillings for each such case.

*Power to Guardians of Poor to direct proceedings to be instituted.*

13. The Guardians may direct proceedings to be instituted for the purpose of enforcing obedience to the provisions of this Act; and as to all expenses incurred in such proceedings, if the Justice or Justices before whom such proceedings are had, certify that such expenses ought to be allowed, such Justice or Justices shall ascertain the amount thereof, and such amount shall be payable out of the Poor Rates; and such proceedings on account of neglect to have a child vaccinated may be taken at any time during the continuance of the neglect.

## UNION OFFICERS' SUPERANNUATION ACT.

28th VICT., CAP., 26.

An Act to provide for Superannuation Allowances to Officers of Unions in  
Ireland.

ABSTRACT.

26th May, 1865.

Whereas it is expedient that provision should be made to enable Superannuation Allowances to be granted to Officers of Unions in Ireland who become disabled by Infirmary or Age to discharge the Duties of their Offices: Be it therefore enacted.

*Power to Guardians to grant Superannuation Allowances.*

1. That the Guardians may, at their discretion, with the consent of the Poor Law Commissioners, grant to any Officer whose whole time has been devoted

to the Service of the Union, and who shall become incapable of discharging the Duties of his Office with efficiency, by reason of permanent infirmity of mind or body, or of old age, upon his resigning or otherwise ceasing to hold his Office, an annual Allowance not exceeding in any Case Two Thirds of his then Salary, and shall charge such Allowance to the same Account as that to which such Salary would have been charged if he had continued in his Office.

*Such Allowances not to be assignable.*

2. This Allowance shall be payable to or in trust for such Officer only, and shall not be assignable nor chargeable with his Debts or other Liabilities.

*Limitation of Grants.*

3. No Officer shall be entitled to such Allowance on the Ground of Age who shall not have completed the full Age of Sixty Years, and shall not have served as a Union Officer for Twenty Years at the least.

*Notice of Grant.*

4. No Grant shall be made without One Month's previous Notice, to be specially given in Writing to every Guardian of the Union, of the Proposal to make such Grant, and the time when it shall be brought forward.

#### *MEDICAL OFFICERS' SUPERANNUATION (IRELAND).*

32 and 33 Vict., chap. 50.

An Act to provide for Superannuation Allowances to Medical Officers of Poor Law Unions, and of Dispensary Districts of such Unions, in Ireland.

2nd August, 1869.

#### VERBATIM.

WHEREAS, it is expedient that provision should be made to enable superannuation allowances to be granted to medical officers of poor law unions in Ireland, and of dispensary districts of such unions, who become disabled, either by infirmity or age, to discharge the duties of their offices : Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :

1. That the board of guardians of any Union in Ireland may, at their discretion, with the consent of the Commissioners for administering the Laws for Relief of the Poor in Ireland, grant to any medical officer, including in that term a surgical officer of such union, or of any dispensary district in such union, an annual allowance, under and subject to the provisions of the Act to provide for superannuation allowances to officers of the unions in Ireland, passed in the twenty-eighth year of the reign of Her Majesty, notwithstanding such medical officer shall not have devoted his entire time to the services of the union, and such allowance shall be paid out of the rates of the union exclusively, and no contribution shall be made thereto out of any moneys voted by Parliament.

## Science and Art Department.

---

# ROYAL COLLEGE OF SCIENCE FOR IRELAND, STEPHEN'S GREEN, DUBLIN.

---

THIS College supplies, as far as practicable, a complete Course of Instruction in Science applicable to the Industrial Arts, especially those which may be classed broadly under the heads of Chemical Manufactures, Mining, Engineering, and Agriculture.

A Diploma of Associate of the College is granted at the end of the Three Years' Course.

The Fees payable are £2 for each separate Course of Lectures ; and for Laboratory Practice £2 per month, £5 for three months, or £12 for the entire Session.

Students entering for the purpose of obtaining the Diploma of Associate, or intending to compete for the Scholarships, pay £10 each year, which will admit them to all the Courses of that year, exclusive of Laboratory—or £25 for the whole Studentship of three years. All Associate Students pay a Laboratory Fee of £12 in their second year. Those in the Faculties of Mining, Agriculture, and Manufactures, pay a further Laboratory fee of £6 in their third year.

There are Four Royal Scholarships, of the value of £50 each yearly, with Free Education (including Laboratory Instruction), tenable for two years. Two become vacant each year. They are given to Students who have been a year in the College. There are also Nine Exhibitions attached to the College, of the yearly value of £50 each, with Free Education and Laboratory Instruction, tenable for three years. Three become vacant each year. These are awarded at the Annual May Examinations of the Science and Art Department.

All the several Courses of Lectures required by the various Licensing Bodies to entitle the student to present himself for examination, are delivered in the Theatre of the Institution, and are fully recognised.

The School is in a central situation, and in the immediate vicinity of, and in direct connexion by means of its teachers with, four great Medical and Surgical Hospitals, thus affording to the student the most ample opportunity of acquiring a thorough knowledge of the symptoms and treatment of disease. Demonstrators will be present in the dissecting room at all hours, in order to afford that assistance which is always so essential to the beginner in his first attempts to acquire a knowledge of Anatomy.

At the termination of the Session prizes will be awarded to the best answerers in each department.

EDWARD LEDWICH, Secretary, 7 Harcourt-street.

# CITY OF DUBLIN HOSPITAL, UPPER BAGGOT-STREET.

---

THE Winter Session commences in October and terminates in April. The Summer Session commences in May and terminates in July. At the morning visit, which commences at nine o'clock daily, the nature, treatment and progress of each case is explained at the bedside of the patient. Clinical Lectures are delivered after the Hospital Visit on the most important cases under treatment, and Pathological Specimens are demonstrated and explained.

Special Wards, under the care of Dr. Loftie Stoney, are appropriated for the reception of Ophthalmic and Aural cases; and a distinct course of Lectures on Diseases of the Eye and Ear (including Operations) is delivered, for which a special Certificate is given.

There is a Ward exclusively for Children, affording ample opportunities of studying the Diseases of early life.

Connected with the Hospital is an extensive daily Dispensary, at which the Pupils are allowed to perform the minor operations, and are rendered familiar with the details of Dispensary management, and the art of prescribing.

The "Purser Studentship" of £20 per annum (with apartments), founded by William A. Purser, Esq., L.R.C.S.I., a former pupil of the Hospital, is open to all students (through the medium of competitive examination), for which a special Certificate is given, if merited.

The Drummond wing, for the reception of Fever and other Contagious Diseases, presents the best opportunity of studying those complaints. Instruction in Practical Pharmacy is given in the Compounding Department.

Fee for total Hospital Attendance required by Licensing Bodies and the Public Services, Twenty Guineas; Nine Months, £8 8s.; Six Months, £6 6s.; Summer Three Months, £3 3s.

In Assurance Transactions what ought to be sought beyond everything else is absolute security.

Among the many advantages offered by the **Patriotic Assurance Company of Ireland** may be enumerated:—

The Head Office being in Dublin, the solvency and respectability of the Directors and Proprietors may be easily ascertained.

The large amount of funds actually in hands.

The Company having stood the test of forty-six years' experience.

**Claims** paid immediately on receipt of satisfactory proof of death, except in cases where notice of assignment or other complication has been received, when they will be paid within three months after receipt of satisfactory proof of death.

**Residence.**—The assured are allowed in time of peace to pass from one part of Europe to another, by sea or land, without payment of extra premium, or the necessity of sending notice to the Directors.

**Evidence of Age.**—The age of the assured, on satisfactory proof thereof being furnished to the office, will be admitted at any time on the Policy.

**Policies purchased** by the Company after five annual premiums have been paid.

**Loans advanced** on the security of the Company's Policies, after five annual premiums have been paid, to the extent of their surrender value.

**Policies Void.**—When a Policy becomes void from any cause, the person who would have been entitled to surrender it, will, on application within three years, be entitled to receive the sum he would have received if it had been surrendered the day before it became void.

**Days of Grace.**—Thirty days are allowed for Renewal of Policies, and the assured are held protected during these days of grace.

WILLIAM DIGGES LA TOUCHE, Agent,

No. 5 COLLEGE GREEN, DUBLIN.

# HOUSE OF RECOVERY AND RETREAT FOR THE INSANE.

---

ESTABLISHED 1824,  
FOR THE RECEPTION OF BOTH LADIES AND GENTLEMEN.

---

Post Town—**LOUGHGALL, ARMAGH.**

---

I TAKE the liberty of informing the Medical Profession and friends of the Mentally Afflicted, that I have recently remodelled and considerably enlarged the above Institution, all the arrangements being in accordance with the improved system which modern science has introduced into the treatment of the Insane.

This Institution is situate in a very beautiful and picturesque neighbourhood, combining cheerfulness with retirement, and has long been admitted to be one of the most healthy residences in this rich and quiet part of the country. The grounds, containing over twenty acres, are laid out with much taste; and the walks are extensive, and run through nearly a mile of very beautiful and varied scenery.

The greatest care is always taken to render this Establishment a domestic home and House of Recovery, rather than an Asylum in the general acceptation of the term, and the closest attention is paid to the medical treatment and general health of the patients; every facility provided for their recreation and amusement.

There are Baths—Warm, Tepid, &c., &c.—under the direction of the Medical Attendant. This mode of treatment, pursued at the Retreat, has resulted in the mental and physical restoration of a very large proportion of the Insane.

The House is situate three miles from Armagh, and one from the Richhill Station of the Ulster Railway. Conveyances can be had at the former, but not at the latter.

Application to be made to the Proprietor,

**ALEXANDER D. ALLEN.**

# Private Lunatic Asylum, FARNHAM HOUSE, FINGLAS, NEAR DUBLIN.

ESTABLISHED A.D. 1814.

This Establishment, consisting of two distinct but adjoining houses—Farnham House for Gentlemen, and Mary Ville for Ladies—has been entirely remodelled and newly-furnished within the last five years. No expense has been spared to render the Institution in every way worthy of public support.

The situation is most healthy; the grounds are open, and command extensive views of the Dublin Mountains and adjoining country.

Divine Service is celebrated every Sunday morning by the Vicar of the Parish, in a Private Chapel attached to the Institution.

Prospectuses and forms of admission can be obtained either of Dr. DUNCAN, 8, Upper Merrion-street, Dublin; or Dr. ALEX. PATTEN, at the Asylum.

## PRIVATE LUNATIC ASYLUM, ORCHARDSTOWN HOUSE, RATHFARNHAM, CO. DUBLIN (One mile from Terenure Tramway). ESTABLISHED 1857.

This Establishment, situated in a well-known, healthy locality, combining cheerfulness with retirement, is conducted, under proper Medical supervision, by the family of the original proprietor (the late Dr. Stanley), who have much experience in the domestic arrangements, and, being constantly present, devote their time to the comfort and care of the Patients.

The Asylum consists of two separate residences—one for Ladies and one for Gentlemen.

Terms moderate, and suited to the requirements of each case.

*Visiting Physician*—Henry Croly, M.D., F.R.C.S.I. (Physician to Rathfarnham Dispensary and St. Columba's College), Greenfield, Rathfarnham.

## ESTABLISHED 1842. THE MIDLAND RETREAT (Near Maryborough, on the Great Southern and Western Railway),

**FOR THE RECEPTION AND TREATMENT OF THE INSANE,**  
And of Persons suffering from a Disturbed State of the Nervous System,  
UNDER THE DIRECTION OF DR. JACOB,  
*Physician to Maryboro' District Lunatic Asylum (260 Patients), Surg. to Queen's Co. Infirmary.*

This Establishment consists of two separate and commodious residences—Annebrook, for the reception of ladies; Woodville, for gentlemen—each situated on extensive and highly ornamental grounds, with large well-enclosed gardens and airing grounds. Restraint is not under any circumstances practised; and the closest attention is paid to the medical treatment and general health of the Patients. Regular communication, exercise, and clerical visits.

Terms vary according to the advantages and comforts which may be required for each case; but they cannot in any instance be less than will admit of having the treatment conducted on a scale of becoming liberality. Information and Reports on application.

### PREPARATION OF PEPSINE.

## MORSON'S MEDICINAL PEPSINE DIGESTIVE POWDER

*(Pepsine Acide Amylacée ou Poudre Nutritive)*

Contains the active digestive principle of the Gastric Juice of the Stomach, purified and rendered permanent and palatable.

**Dose—15 to 20 Grains. In 1-oz. Bottles.**

## MORSON'S PEPSINA PORCI,

*Pepsine obtained from the Stomach of the Pig, in a pure and palatable form.*  
**(NEUTRAL.)**

This is a Concentrated Preparation of Pepsine, containing the digestive principle of the Gastric Juice in a very active state. Being *neutral*, it requires the addition of a little *Lactic* or *Hydrochloric Acid* to develop its digestive property. When administered this property is imparted by the free acids of the Stomach. **DOSE—5 to 10 grains.**

\*\*\* *These Preparations of Pepsine are carefully examined and tested by Professor Redwood, and guaranteed by him to answer to the tests indicated. Every Bottle containing the preparation named, and bearing the Trade Mark of T. Morson & Son, BUT NOT OTHERWISE, is sold with such guarantee.*

# K R E O S O T E .

## CAUTION TO BUYERS.

*A test of its freedom from Carbolic Acid is, that it is insoluble in Price's Glycerine.*

The great want so long experienced in Ireland of an Institution where children of enfeebled intellect could receive education and protection, was supplied by the establishment of the above in 1849. The premises are situated at Lucan, in a most salubrious spot, and the Establishment is under the care of a Resident Medical Superintendent, with a competent staff of assistants, who have hitherto labored most successfully in promoting the improvement, mental and physical, of the Imbeciles placed under their charge.

There are now thirty-nine pupils in the Institution, of whom six are full-paying; sixteen pay a portion of their maintenance, and the remainder are free. In the course of the year 1873 it is proposed to admit six additional pupils, of whom three will be free, and three partial-paying.

The most improved methods are employed for the training of the pupils. Many have made considerable progress in mat-making, tailoring, and carpentry; others have been taught to read and write, and have been generally benefited by the instruction received.

The free and partial-paying pupils are admitted by Election.

The charge for full-paying patients is £35 per annum. For separate accommodation and attendance a higher rate is charged.

Each half-guinea subscribed annually gives one vote; a donation of £5 5s. confers a life-vote.

There is also a Lunatic Asylum for the middle classes in connexion with the Institution. It is under excellent management, and the patients are most comfortably circumstanced. The charge is £36 per annum, but for separate accommodation the charge is increased.

Further particulars as to both Establishments can be obtained from the Secretary,  
W. O'NEILL, 40 Molesworth-street, Dublin.
